

# CURRICULUM STRUCTURE FIRST YEAR UG: B.TECH

# **MECHANICAL ENGINEERING**

**REVISION: FRCRCE-1-24** 

**Effective from Academic Year 2024-25** Board of Studies Approval: 9/3/2024 Academic Council Approval: 16/3/2024

Dr. DEEPAK BHOIR Dean Academics

Dr. BHUSHAN T. PATIL Head of Department

Jushord

DR. SURENDRA RATHOD Principal

# Preamble:

Greetings and congratulations to all the education partners Fr Conceicao Rodrigues College of Engineering for getting autonomous status to the college from the year 2024-25. University Grant Commission vide letter No. F. 2-10/2023(AC-Policy) dated 23<sup>rd</sup> Nov 2023 conferred the autonomous status to Fr. Conceicao Rodrigues College of Engineering, Fr. Agnel Ashram, Bandstand, Bandra (West), Mumbai 400050 affiliated to University of Mumbai for a period of 10 years from the academic year 2024-2025 to 2033-2034 as per clause 7.5 of the UGC (Conferment of Autonomous Status Upon Colleges and Measures for Maintenance of Standards in Autonomous Colleges) Regulations,2023. We look towards autonomy as a great opportunity to design and implement curriculum sensitive to needs of Learner, Indian Society and Industries. Government of Maharashtra has also directed Autonomous Colleges to revise their curriculum in line with

National Education Policy (NEP) 2020 through Government Resolution dated 4<sup>th</sup> July 2023. We commit to ourselves to the effective implementation of UGC Regulations and NEP 2020 in its spirit.

Based on recent recommendations of the GR, we are pleased to offer our holistic curriculum for 2024-28, a "H-Tree Model" of Engineering Education. A unique "H-Tree Model" of Engineering Education Curriculum is carefully designed to systematically develop IQ (Intelligence Quotient), PQ (Physical Quotient), EQ (Emotional Quotient) and SQ (Spiritual Quotient) of a learner. This curriculum aims at the development of an all-rounded personality with holistic approach to education in which learner receives 25% teacher-led learning, 25% peer learning, 25% self-learning and 25% experiential learning. The curriculum model is outcome based that focuses on learning by doing. Curriculum is designed to provide multiple learning opportunities for students to acquire and demonstrate competencies for rewarding careers. It ensures multiple choices to leaner acquiring skills through systematic planning. It has 7 verticals aligned to GR recommendations with strong science, and mathematics foundation and program core, sequel of electives, Multidisciplinary Minor courses, humanities & management courses and sufficient experiential learning through projects and semester-long industry / research internship along with employable skill-based courses. Learner gets an opportunity to acquire skills through NSDC aligned courses during summer vacations. Learner also gets additional option to choose the kind of degree i.e. Honors or Double Minor or Honors with Research.

Various steps are taken to transform teaching learning process to make learning a joyful experience for students. We believe that this curriculum will raise the bar of academic standards with the active involvement and cooperation from students, academic and administrative units.

# Curriculum Structure for UG Programs at Fr CRCE w.e.f. A.Y. 2024-25

| Nomen        | clature of the courses in the curriculum          |
|--------------|---|
| Abbreviation | Title   |
| BSESC        | Basic Science & Engineering Science Courses       |
| PCPEC        | Program Core and Program Elective Courses         |
| MDC          | Multidisciplinary Courses                         |
| SC           | Skill Courses                                     |
| HSSM         | Humanities, Social Sciences and Management        |
| EL           | Experiential Learning                             |
| LLC          | Liberal Learning Courses                          |
| BSC          | Basic Science Courses                             |
| ESC          | Engineering Science Courses                       |
| PCC          | Program Core Courses                              |
| PEC          | Program Elective Courses                          |
| MDM          | Multidisciplinary Minor                           |
| OE           | Open Elective                                     |
| VSEC         | Vocational and Skill Enhancement Course           |
| VSC          | Vocational Skill Courses                          |
| SEC          | Skill Enhancement Courses                         |
| AEC          | Ability Enhancement Course                        |
| EEMC         | Entrepreneurship, Economics and Management Course |
| IKS          | Indian Knowledge System                           |
| VEC          | Value Education                                   |
| RM           | Research Methodologies                            |
| CEFP         | Community Engagement or Field Project             |
| ELC          | Experiential Learning Courses                     |
| PRJ          | Project   |
| INT          | Internship  |
| CC           | Cocurricular Courses                              |
| НММ          | Honors and Multidisciplinary Minor                |
| DM           | Double Minor                                      |
| RMM          | Research and Multidisciplinary Minor              |

### **Credit Specification:**

- Theory: 1 credit=13 to 15 hrs of teaching
- ✤ Lab: 1 Credit=26 to 30 hrs of lab work
- Studio Activities: 1 Credit= 26 to 30 hrs of creative activities
- Workshop Based Activities: 1 Credit=26 to 30 hrs of hands-on activities related to vocation/professional practice/skill based
- Seminar/Group Discussion: 1 Credit=13 to 15 hrs of participation
- Internship: 1 Credit=Per 2 weeks OR 36 to 40 hrs of engagement
- Field Based Learning/Practices: 1 Credit=26 to 30 hrs of learning activities
- Community Engagement Projects: 1 Credit=26 to 30 hrs of contact time along with 13 to 15 hrs of activities preparation, report writing, independent reading etc.

# Credit requirements for four different options of the Degrees:

| Degree/SEM  | 1  | П   | Ш   | IV  | v   | VI  | VII | VIII   | Total |
|---|----|-----|-----|-----|-----|-----|-----|--------|-------|
| B.Tech with   | 20 | 20  | 22  | 23  | 20  | 20  | 20  | 20     | 165   |
| Multidisciplinary Minor                                 |    |     | 22  | 25  |     |     |     |        | 105   |
| B.Tech with   | 20 | 20  | 22  | 23  | 20  | 20  | 20  | 20     | 185   |
| Honors and Multidisciplinary Minor                      |    | +2* | +3* | +3* | +3* | +3* | +3* | +3*    | 182   |
| B.Tech with   | 20 | 20  | 22  | 23  | 20  | 20  | 20  | 20     | 185   |
| Double Minor (Multidisciplinary & Specialisation Minor) |    | +2* | +3* | +3* | +3* | +3* | +3* | +3*    | 182   |
| B.Tech with   | 20 | 20  | 22  | 23  | 20  | 20  | 20  | 20     | 185   |
| Research and Multidisciplinary Minor                    |    | +2* | 22  | +4* |     | +4* | +3* | +3*+4* | 182   |

\*Optional Credits

1. Learners who earn a minimum of total **165 credits** will be awarded "**B.Tech in Engg. /Tech. with Multidisciplinary Minor**" degree.

2. Learners will have the following options to earn B. Tech. in Engg. /Tech. degree in

- a. Honors and Multidisciplinary Minor
- b. Major Engg./Tech Discipline with Double Minor (Multidisciplinary and Specialization Minor)
- c. Honors with Research and Multidisciplinary Minor

There will be 2 credit course 'Introduction to Emerging Technologies' in SEM-II introducing various emerging technologies along with basics of various tracks under honors, multidisciplinary, minor and research domain helping student in decision making for further options of learning.

a) B.Tech in Engg./ Tech-Honors and Multidisciplinary Minor (with additional 20 credits):

#### 165 +18 +2 (SEM-II)=185 Min Credits

There will be five courses (3 credits each), one in each semester starting from the 3rd semester which will be based on major discipline of study. In 8th semester students will complete 12-week courses (3 credit) from SWAYAM (The list of courses will be floated by the institute). For honors degree all courses and papers will be in the same Engg./Tech discipline. (Admission eligibility min CGPA=7.5 after First year)

b) Major Engg./Tech Discipline with Double Minor (Multidisciplinary and Specialization Minor) (additional 20 credits): 165 +18+2 (SEM-II)=185 Min Credits.

There will be five courses (3 credits each), one in each semester starting from the 3rd semester which will be from another engineering discipline or emerging areas of specialisation. In 8th semester students will complete 12-week courses (3 credit) from SWAYAM (The list of courses will be floated by the institute). For Double Minor degree all courses and papers will be from another Engg./ Tech Discipline/Emerging areas specialisation. (Admission eligibility min CGPA=7.5 after First year)

c) B.Tech in Engg./ Tech.- Honors with Research and Multidisciplinary Minor (additional 20 credits by research): 165 +18+2 (SEM-II)=185 Min Credits. (Admission eligibility min CGPA=7.5 after First and should maintain CGPA=7.5 after Third year)

Students are expected to complete a 2-months research internship in summer after 2nd year (4 credits), 3rd year (4 credits) and work towards research project in summer after 8<sup>th</sup> Sem (4 credits). 2 **SWAYAM** courses of 12-week (3 credits each) must be completed in semesters 7 and 8.

3. Courses offered during internship semester shall be in online mode

4. Learner can earn the certificate/Diploma/Degree based on his/her exit from the program as follows. College shall explore feasibility to offer NSDC aligned skill based courses to the learners:

a. UG Certificate: After a one-year (40 credits to be earned) and 8-credits summer workshop/vocational courses/internship

b. UG Diploma: After two-years (80 credits to be earned) and 8-credits summer workshop/vocational courses/internship/Project

c. B. Voc.: After three-years (120 credits to be earned) and 8-credits summer workshop/vocational courses/internship/Project

4. Technical support team for registration of Academic Bank of Credits (ABC), registration of elective/optional courses, registration of online courses, registration for degree options etc. will be under supervision of Dean Academics.

#### Salient Features of Curriculum:

- ✓ Framed as per Government Resolution dated 4<sup>th</sup> July 2023 in line with National Education Policy (NEP) 2020.
- ✓ Minimum 165 choice-based credit structure with options of Degrees earning additional credits
- ✓ Unique 'H-Tree' Model of Curriculum: Hybrid model for holistic development with happy learning environment having bridge connecting verticals providing unique path for each learner for 3dimensional growth, Life Long Learning, multiple entry-exit, inclusive model indicating equal distribution of central resources
- ✓ More emphasis on laboratory based and experiential learning
- ✓ More weightage to continuous assessment to reduce examination stress
- Mandatory Semester-long internship, courses with emotional & spiritual learning and skill-based learning aligned with NSDC framework
- ✓ Well balanced curriculum to attain Program Outcomes and skills of 21<sup>st</sup> century learner
- ✓ Curriculum is designed to create excitement among learners for education through stories, activities, collaboration, hackathon, contest, case studies, creative art etc.
- ✓ Curriculum is designed to make graduates responsible citizens of country with future ready skills to handle challenges of 21<sup>st</sup> Century

### SEMESTERWISE CURRICULUM STRUCTURE

# **UG Mechanical Engineering Program:**

|             |                    |                  | SEM-I  |       |                       |      |     |                       |     |       |        |       |

# Online course 1 Credit=4 Week course from SWAYAM can be taken in SEM 7 or SEM VIII

# Online min 8 week course from SWAYAM can be taken in SEM 7 or SEM VIII to complete 2 credit course

(Combination of two 4-week credit courses shall be allowed with prior approval)

\* Online min 12 week course from SWAYAM can be taken in SEM 7 or SEM VIII to complete 3 credit course

# List of Program Elective Courses:

Choice for Third Year:

#### Track-A: Manufacturing and Management

SEM-V: Any one Theory: Advanced Manufacturing Processes, Additive Manufacturing, Supply chain management, Costing and Cost Control

Lab: Additive Manufacturing

SEM-VI: *Any two Theory:* Mould and Metal Forming Technology, Tool Engineering, Optimization Techniques, Project Management, Industrial Engineering and Operations Research, Advanced Materials

Lab: Manufacturing Systems, Industrial Engineering and Operations Research

#### Track-B: Design and Automation

SEM-V: Any one Theory: Automation and Control, Product Design and Development
Lab: Product Design
SEM-VI: Any two Theory: Mechanical Vibrations, Industrial Robotics, Modelling and
Simulation, Design of Mechanical Systems
Lab: Automation, Condition Monitoring

SEM- VII: Any two theory courses from the other track

#### **Open Electives offered to Mechanical students:**

- 1. SEM-III Any two: Control Systems OR Database Management Systems OR JAVA programming OR Data Structure
- SEM-IV Any one: Microprocessors & Microcontrollers OR Web Technology OR Fundamentals of AI & ML
- 3. SEM-V Any one: Embedded Systems OR IoT OR E-Vehicle

#### List of Multi-Disciplinary Minor Courses (MDM):

- 1. SEM-III: Law for Engineers
- 2. **SEM-IV:** Emerging Technology and Law
- 3. SEM-V: Public Relations and Corporate Communication
- 4. **SEM-V:** Health, Wellness and Psychology
- 5. SEM-VI: Emotional and Spiritual Intelligence
- 6. SEM-VII: Principles of Management
- 7. SEM-VIII: From SWAYAM (To be approved by Dean Academics)

#### List of Modern Indian Language (2 credit) (AEC):

- 1. Sanskrit for Beginners
- 2. Telugu for Beginners
- 3. Kannada for Beginners
- 4. Tamil for Beginners

Indicative List of Cocurricular Courses (CC): (Min 15 to Max 20 students in each course: Except Social Activities). Will be offered based on student choice and availability of resources to conduct a course.

- LLC01. Culinary Arts: Foundations of Cooking
- LLC02. Indian Aesthetics

- LLC03. Sketching
- LLC04. Personality Development and People Management
- LLC05. Work Life Balance
- LLC06. Art of Living
- LLC07. Yoga Vidya
- LLC08. First Aid and Self Defence
- LLC09. Fire Safety and Electronic Security
- LLC010. Sports Technology
- LLC011. Athletics
- LLC012. Aerobics and Fitness
- LLC013. Study of Dance Forms
- LLC014. Introduction to Dramatics: Exploring Theatre Arts
- LLC015. Fundamentals of Photography
- LLC016. Cinematography
- LLC017. Music Appreciation and Composition
- LLC018. Script writing
- LLC019. Vehicle maintenance and traffic rules
- LLC020. Garden Design and Maintenance
- LLC021. Managing Social Media
- LLC022. Server and Network Maintenance
- LLC023. Electrical Safety
- LLC024. Mentoring of School Children
- LLC025. Social Club Activities
- LLC026. Cultural Club Activities
- LLC027. Any other course approved by Dean Academics

#### Honors Courses to Mechanical students:

Following is the list of courses offered by the department. If student wish to have any other course offered by any other HEI or online platform (SWAYAM) then student can opt for it after approval from HoD and Dean Academics.

- 1. SEM-III: Micro and Nano Machining
- 2. SEM-IV: Automotive Systems
- 3. SEM-V: Heating, Ventilation and Air Conditioning
- 4. SEM-VI: Finite Element Analysis
- 5. SEM-VII: Computational Fluid Dynamics
- 6. SEM-VIII: Swayam course

#### Minor Degree Offered to Mechanical Engineering Students:

#### A. Name: Internet of Things

- 1. Sensors and Actuators
- 2. Microcontroller Programming
- 3. Embedded System and RTOS
- 4. Fundamentals of IoT
- 5. IoT System Design
- 6. Swayam course

#### B. Name: Data Science

- 1. Statistics for Data Science
- 2. Data Analytics and Visualisation
- 3. Game Theory
- 4. Web and Social Media Analytics
- 5. Data Science and Health Care
- 6. Swayam course

#### C. Name: Artificial Intelligence and Machine Learning

- 1. Statistics for Data Science
- 2. Fundamentals of AI & ML
- 3. Deep Learning
- 4. Natural Language Processing
- 5. Artificial Intelligence for Mechanical Engineering
- 6. Swayam Course

#### D. Name: Sustainable Development Engineering

- 1. Ancient Indian Sustainable Practices
- 2. Green Computing and Renewable Energy Systems
- 3. Social and Environmental Sustainability
- 4. Smart and Sustainable cities
- 5. Sustainability Frameworks
- 6. Sustainability Policies
- 7. From SWAYAM

### Comparison of Credit Distribution for Four Year UG Program for Fr CRCE and GR:

#### **Course Assessment:**

#### Theory:

ISE-1: MCQ: 20 Marks

ISE-1: MCQ: 20 Marks

MSE: Two hours 30 Marks written examination based on 50% syllabus

**ESE:** Three hours 100 Marks (30% weightage) written examination based on entire syllabus

#### Tutorial:

**1. ISE-1** will be conducted for three tutorials. Continuous pre-defined rubrics-based evaluation for 20 marks.

**2. ISE-2** will be conducted for five tutorials. Continuous pre-defined rubrics-based evaluation for 30 marks.

|   |     | Section of Prism, Pyramid, Cylinder, & Cone cut by plane          |       |    |

### Course Assessment:

Theory:

#### **ISE-1:**

Team Activity: Two Hours Duration: 20 Marks

Making Models out of Card Boards/Clay for Basic Primitive solids. Solids will be cut by Section plane as per instructions provided Drawing Projections of Same as per instructions will be part of activity. Here Cut sections will also be developed using development principles. There will be small quiz or students will give a demonstration of Project or activity

Assessment will be done by two teachers in the department who are teaching engineering graphics

#### **ISE-2:** Two hours 20 Marks

Team Activity

Here One Simple component either machine component/Any simple component will be given to group of students in team. Students will measure dimensions and make working drawing of same showing all three views/sectional views including isometric view. At the end of activity Group will give presentation on same

**MSE:** Two hours 30 Marks written examination based on 50% syllabus **ESE:** Three hours 100 Marks (30% weightage) written examination based on entire syllabus

Lab:

Part B (Lab)

|    | To be Taught in laboratory  |      |      |  |  |  |
|----|---|------|------|--|--|--|
|    | Topics  | Ref. | Hrs. |  |  |  |
| 1  | <b>Overview of Computer Graphics Covering:</b>                              | 3    | 3    |  |  |  |
|    | Listing the computer technologies that impact on graphical communication    |      |      |  |  |  |
|    | ,demonstrating knowledge of the theory of CAD software such as: The         |      |      |  |  |  |
|    | Menu System, Toolbars (Standard, Object Properties, Draw, Modify and        |      |      |  |  |  |
|    | Dimension), Drawing Area (Background, Crosshairs, Coordinate System),       |      |      |  |  |  |
|    | Dialog boxes and  |      |      |  |  |  |
|    | windows, Shortcut menus (Button Bars), The Command Line (where              |      |      |  |  |  |
|    | applicable), The Status Bar, Different methods of zoom as used in CAD,      |      |      |  |  |  |
|    | Select and erase objects.   |      |      |  |  |  |
| 2  | Customization & CAD Drawing:  | 3    | 3    |  |  |  |
|    | Consisting of set up of the drawing page and the printer including scale    |      |      |  |  |  |
|    | settings,Setting up of units and drawing limits, ISO and ANSI standards for |      |      |  |  |  |
|    | coordinate dimensioning.  |      |      |  |  |  |
| 3  | Annotations, layering & other Functions Covering:                           | 3    | 3    |  |  |  |
|    | Applying dimensions to objects, applying annotations to drawings, Setting   |      |      |  |  |  |
|    | up anduse of layers, layers to create drawings, Create, edit and use        |      |      |  |  |  |
|    | customized layers, Changing line lengths through modifying existing lines   |      |      |  |  |  |
|    | (extend/lengthen), Printing documents to paper using the print command,     |      |      |  |  |  |
|    | orthographic projection techniques, Drawing sectional views of objects      |      |      |  |  |  |
|    | (simple machine parts).   |      |      |  |  |  |
|    | Activities to be Completed in CAD Lab                                       | r    |      |  |  |  |
| A1 | Orthographic Projection (1 Problem)   | 3    | 4    |  |  |  |
| A2 | Sectional Orthographic Projection (1 Problem)                               | 3    | 4    |  |  |  |
| A3 | Reading of Orthographic Projections (1 Problem)                             | 3    | 3    |  |  |  |
| A4 | Isometric Views (2 Problems)  | 3    | 3    |  |  |  |
|    | Activities to be completed on A3 Size Sketchbook using Conventional To      | ols  |      |  |  |  |
| A6 | Projection of Solids (1 Problem)  | 1,4  | 2    |  |  |  |
| A7 | Sections of Solids and Development of Lateral Surfaces (2 Problems)         | 1,4  | 2    |  |  |  |
| A8 | Sectional Orthographic Views (1 Problem)                                    | 1,4  | 2    |  |  |  |
|    | Total   |      | 29   |  |  |  |

#### Course Assesment:- (Lab)

**1. ISE-1** will be conducted for four activities (A1,A2,A3,A4) Continuous pre-defined rubrics-based evaluation for 20 marks.

**2. ISE-2** will be conducted for four activities (A5,A6,A7,A8) Continuous pre-defined rubrics-based evaluation for 30 marks.

#### **Course Assessment:**

#### (i) Theory:

#### **ISE-1 for 20 Marks:**

(a) Tutorial on independent solving of numerical examples (10 marks) - 2 hours (b) Multiple choice questions (MCQ) - 10 marks (1 hour)

#### **ISE-2 for 20 Marks:**

(a) Multiple choice questions (MCQ) - 10 marks (1 hour)

(b) Circuit simulation for 10 marks

MSE: Two hours 30 Marks written/theory examination based on initial 50% syllabus ESE: Three hours 100 Marks (30% weightage) written examination based on entire syllabus

#### (ii) Lab: 40 Marks (08 experiments of 05 marks each) + 10 Marks (activity based) = 50 Marks

#### **ISE:**

1. ISE-1 will be conducted for four experiments. Continuous pre-defined rubrics-based evaluation for 20 marks.

#### 2. ISE-2

- a. Four experiments. Continuous pre-defined rubrics-based evaluation for 20 marks.
- b. Activity: Oral examination / viva-voce (10 marks)

#### Proposed List of Laboratory Experiments:-

- 1. Verification of Mesh and Nodal analysis.
- 2. Verification of Superposition Theorem.
- 3. Verification Maximum Power Transfer Theorem.
- 4. Measurement of electrical parameters for alternating sinusoidal voltage (AC)
- 5. To find resonance conditions in a R-L-C series resonance circuit

#### 6. To measure relationship between phase and line, currents and voltages in three phase system

7. Forward & reverse bias characteristics of PN junction diode

8. Application of PN junction diode – rectifiers (full-wave)

#### **Course Assessment:**

#### Lab:

#### ISE:

- **1. ISE-1** will be conducted for first three experiments. (Article discussion, Design thinking workshop for a sample idea, Empathy Map)
  - Continuous pre-defined rubrics-based evaluation for 20 marks.
- 2. ISE-2
- a. Idea Competition. Continuous pre-defined rubrics-based evaluation for 10 marks.
- b. Business Model Canvas for identified Idea for 10 marks
- c. Demo Day Prototype for 10 marks

#### **Recommended Books:**

- 1. Prof. Bala Ramadurai, "Karmic Design Thinking", ISBN-13 January 2020.
- 2. Idris Mootee, "Design Thinking For Strategic Innovation: What They Can't Teach You at Business or Design School", 2013, Wiley Publications.
- 3. Christoph Meinel, Larry Leifer, Hasso Plattner, "Design Thinking: Understand Improve Apply", Springer, 2011.
- 4. Roger Martin, "The Design of Businesses: Why Design Thinking is the next Competitive Advantage", Harward Business Press, 2009

|        |      | and folders with mv, renaming with mv, copying with cp, use of     |      |      |
|        |      | cat command, the wc command, the sort command, Redirection         |      |      |
|        |      | in Linux, Introduction to piping, use of nano and/or vi editor     |      |      |
|        | 1.4  | Use of locate and find commands, Use of Grep in Linux, use of      | [1]  | 2    |
|        |      | chmod and chown for giving permissions in Linux                    |      |      |
| 2      |      | Introduction to Scientific Computing using Matlab/ Scilab          | [2]  | 10   |
|        | 2.1  | Introduction to Matlab/Scilab, getting data into Matlab/Scilab,    | [2]  | 2    |
|        |      | creating, concatenating and reshaping arrays, Accessing data in    |      |      |
|        |      | arrays, mathematical and statistical operations with arrays        |      |      |
|        | 2.2  | Taking user input, control structures for making decisions and     | [2]  | 2    |
|        |      | adapting to different situations, conditional data selection       |      |      |
|        | 2.3  | Visualizing data using 2D and 3D plots, introduction to toolboxes  | [2]  | 2    |
|        |      | for different scientific computing tasks, creating and calling     |      |      |
|        |      | functions  |      |      |
|        | 2.4  | Introduction to tables of data, storing and sorting table data,    | [2]  | 2    |
|        |      | extracting data from table, exporting tables, combining tables,    |      |      |
|        |      | [2]indexing into cell arrays, Working with date and time           |      |      |
|        | 2.5  | Preprocessing data- normalizing data, working with missing data    | [2]  | 2    |
| 3      |      | Foundations of web technology                                      | [3]  | 10   |
|        | 3.1  | HTML Basics- HTML tags and attributes, Headings in HTML,           | [3]  | 2    |
|        |      | creating paragraphs in HTML, Basic formatting tags of HTML,        |      |      |

|   |     | giving background and font colors using HTML, creating links   |       |    |
|---|-----|--|-------|----|
|   | 2.2 | using HTML, Adding images in HTML  | [2]   | -  |
|   | 3.2 | Creating tables and lists using HTML, creating forms in HTML,<br>Embedding videos on web page  | [3]   | 2  |
|   | 3.3 | CSS syntax, CSS selectors, background formatting using CSS,<br>CSS box model, adding borders, margins and padding using CSS,<br>adding styles to fonts using CSS, Positioning using CSS, Pseudo-<br>classes in CSS, CSS navigation bar, creating image gallery using<br>CSS, use of external CSS for creating website layout | [3]   | 2  |
|   | 3.4 | Introduction to Javascript, basic Javascript syntax, Variables in<br>Javascript, operators and control structures in Javascript,<br>functions in Javascript, arrays and number handling in Javascript,   | [3]   | 2  |
|   | 3.5 | DOM manipulation in Javascript, Form validation using Javascript   | [3]   | 2  |
| 4 |     | Introduction to Database Technology  | [4]   | 02 |
|   | 4.1 | Installation of MySQL/Postgresql, creating database schema and tables, DML operations, conditional selection of records from the database tables, demonstration of PHP-MySQL/Postgresql database connectivity  | [4]   | 2  |
| 5 |     | Introduction to LaTeX  | [5]   | 12 |
|   | 5.1 | Demonstration of installation and usage of Texlive/MikeTex,<br>formatting words, lines and paragraphs, font formatting, creating<br>section and subsections, use of geometry package   | [5]   | 2  |
|   | 5.2 | Insertion of graphics and tables in document, creation of lists,<br>mathematics environment, writing equations   | [5]   | 2  |
|   | 5.3 | Writing algorithms, inserting code in document, creating table of contents, creating hyperlinks  | [5]   | 2  |
|   | 5.4 | Bibliography management, citations, creating chapters using report class, inserting other .tex and .pdf files in document  | [5]   | 2  |
|   | 5.5 | Presentation in LaTeX using beamer class, creating overlay in beamer, blocks in beamer presentation, presentation themes   | [5]   | 2  |
|   | 5.6 | Usage of style files in a document   | [5]   | 2  |
| 6 |     | Data analysis using spreadsheet  | [6]   | 10 |
|   | 6.1 | Introduction to Microsoft Excel/Open office Calc/Google Sheets,<br>functionality using ranges, use of formulae for basic data analysis<br>(sum, average, if, count, min, max, proper, upper, lower,<br>autosum), sorting, filter, text to column, data validation  | [6]   | 2  |
|   | 6.2 | Use of advance formulae for data analysis (concatenate, vlookup, hlookup, match, countif, text, trim)  | [6]   | 2  |
|   | 6.3 | Creating pivot tables, manipulating pivot table, usage of pivot<br>table tool bar, changing data field properties, displaying a pivot<br>chart, setting pivot table options, adding subtotals to pivot tables  | [6]   | 2  |
|   | 6.4 | Data visualization- creating 2D and 3D plots   | [6]   | 2  |
|   | 6.5 | Data visualization using conditional formatting- creating formula-based rules  | [6]   | 2  |
|   |     |  | Total | 52 |

#### Course Assessment:

### ISE:

- 1. ISE-1
  - a. Quiz based on module 1 for 10 marks.
  - b. Completion of any 4 courses from suggested list on module 2 for 20 marks. Suggested URL and course list:

https://matlabacademy.mathworks.com/

- 1. MATLAB Onramp
- 2. Simulink Onramp
- 3. App Building Onramp
- 4. Object-Oriented Programming Onramp
- 5. Simscape Onramp
- 6. Circuit Simulation Onramp
- c. Quiz based on module 2 for 10 marks.
- d. Assignment (web page designing) based on module 3 for 10 marks.
- 2. ISE-2
  - a. Quiz based on module 4 for 10 marks.
  - b. Assignment (Scientific Document Preparation using LaTeX ) based on module 5 for 20 marks.
  - c. Assignment (data analysis using spreadsheet) based on module 6 for 20 marks.

#### **Teaching Learning Methodology: Role Play Model**

#### a. Instructor

Responsibilities : Explain theoretical background, provide required sample formats, guide students in identification of appropriate online material, supervision and assessment of overall activity, summarize the activity

#### **b.** First Group of Students :Customer

Responsibilities : To finalize specifications of instrument to be purchased prepare request for quotations, prepare comparative statement, preparation for purchase order (PO)

#### c. Second Group of Students: Manufacturer / Vendor

Responsibilities : To maintain the specifications of manufactured instruments, to submit quotations including all applicable taxes, to prepare invoice as per purchase order (PO)

#### d. Third Group of Students: Sales/Service Engineer

Responsibilities : To demonstrate capabilities of various instruments and convince customer to purchase a particular instrument, to prepare Delivery Challan, Install the instrument and prepare Installation report, Demonstrate all the functions and uses of the instrument

#### **Course Assessment:**

#### Laboratory work: (ISE)

1. ISE-1

#### Total Marks : 50

- A) After completion of Module 1 and Module 2, **Online Quiz / Q/A Assignment of 30 marks** to be conducted to check theoretical knowledge of measuring instruments and testing tools.
- B) To conduct Minimum 4 experiment from the module 3 (Total marks =  $4 \times 5 = 20$  marks)

#### 2. ISE-2

#### Total Marks : 50

- A) To perform role play (Group Activity of 4 students each) (**Total marks = 20 marks**)
- B) To conduct Minimum 6 experiment from the module 3, 4, 5 (Total marks = 6 x 5 = 30 marks)

#### **ISE1: 3** Activities

Public Speaking, Extempore, Aptitude test, presenting through Power point or Poster Making Marks: 40

Learning outcome: Acquiring public Speaking skills for formal events and improving verbal ability

PO10: Communication, PO9: Individual and Team Work, P12: Long Life Learning

#### **ISE: 2** Activities, 4 assignments

Marks: 60 Marks

Learning outcome: Efficiently developing listening, reading and writing skills P10: Communication, PO8: Ethics, PO9: Individual and Team Work, P12: Long Life Learning

#### **Course Assessment:**

#### Theory:

ISE-1: Quiz=15 Marks

Activity: Problem solving activity based on simulation tool 05 Marks **ISE-2:** Quiz=15 Marks

Activity: Problem solving activity based on simulation tool 05 Marks

MSE: Two hours 30 Marks written examination based on 50% syllabus

**ESE:** Three hours 100 Marks (30% weightage) written examination based on entire syllabus

### Tutorial:

**1. ISE-1** will be conducted for three tutorials. Continuous pre-defined rubrics-based evaluation for 20 marks.

**2. ISE-2** will be conducted for five tutorials. Continuous pre-defined rubrics-based evaluation for 30 marks

| Pre-requisi | te Cou | rse Codes   |
|-------------|--------|---|
|             | CO1    | To evaluate the activity and selectivity of the catalyst                        |
|             | CO2    | To compare the different types renewable sources of energy                      |
| Course      | CO3    | To compare the different types of corrosion and control measures in industries. |
| Outcomes    | CO4    | To determine the quality of fuel and quantify the oxygen required for           |
|             |        | combustion of fuel.   |
|             | CO5    | To evaluate the different types of fabrication methods, conducting polymers in  |
|             |        | various industrial fields   |

| Module<br>No. | Unit<br>No. | Topics   | Ref.  | Hrs. |
|---------------|-------------|--|-------|------|
| 1             | Title       | Catalysis  | 1,2,4 | 5    |
|               |             | Basic concepts of catalysis (Homogeneous and Heterogeneous catalysis), Industrial applications of Catalysis-Oxidation-<br>Hydroformylation, Reduction-Hardening of vegetable oils, Wilkinson's catalyst-Hydrogenation, Vaska's complex – Carbonylation, Commercial catalytic reactors (fixed bed, fluidized bed).  |       |      |
| 2             | Title       | <b>Energy resources (Solar, Hydel, Thermal etc.)</b><br>Introduction to Energy Sources, Solar Energy Basics, Solar Thermal<br>Systems, Wind Energy, Geothermal Energy, Energy from Ocean:<br>Principle of tidal power, components of Tidal Power Plant (TPP),<br>classification, advantages and limitations of TPP. Ocean Thermal<br>Energy Conversion (OTEC): Principle of OTEC system, types of OTEC<br>power generation, block diagram, applications, advantages and<br>limitations.  |       | 5    |
| 3             | Title       | Corrosion<br>Definition, Mechanism of Corrosion –<br>(I) Dry or Chemical Corrosion - i) Due to oxygen ii) Due to other gases.<br>(II) Wet or Electrochemical corrosion - Mechanism i) Evolution of<br>hydrogen type ii)Absorption of oxygen.<br>Types of Corrosion - Galvanic cell corrosion, Concentration cell<br>corrosion (differentialaeration principle),<br>Factors affecting the rate of corrosion -<br>(i) Nature of metal, (ii) Nature of corroding environment. Methods of<br>corrosion control –<br>(I) Material selection and proper designing, | 1,2,4 | 5    |

|   |       | <ul> <li>(II) Cathodic protection -</li> <li>i) Sacrificial anodic protection ii) Impressed current method,</li> <li>(III) Metallic coatings -only Cathodic coating (tinning) and anodic coatings (Galvanising)</li> </ul>  |       |   |
|---|-------|---|-------|---|
| 4 | Title | <b>Fuels and combustion</b><br>Definition, classification, characteristics of a good fuel, units of heat<br>(no conversions). Calorific value - Definition, Gross or Higher calorific<br>value & Net or lower calorific value, Dulong's formula & numerical<br>for calculations of Gross and Net calorific values. Solid fuels -<br>Analysis of coal - Proximate and Ultimate Analysis - numerical<br>problems and significance. Combustion - Calculations for requirement<br>of only oxygen and air (by weight and by volume only) for given solid<br>& gaseous fuels. | 1,2,4 | 6 |
| 5 | Title | <b>Polymers</b><br>Molecular weight (Number average and weight average), Numericals<br>problems on molecular weight, Effect of heat on the polymers (Glass<br>transition temperatures), Viscoelasticity, Conducting polymers,<br>Classification-Thermoplastic and Thermosetting polymers,<br>Compounding of plastic, Fabrication of plastic by Compression,<br>Injection,Transfer and Extrusion molding, Preparation, properties and<br>uses of PMMA, Butyl Rubber, PTFE and Kevlar   |       | 5 |

| Exp. | List of Experiments  |
|------|--|
| No.  |  |
| 1    | To determine the emf of a given cell potentiometrically.                                       |
| 2    | To determine the moisture and Ash content in the given fuel sample.                            |
| 3    | To determine the percentage of volatile matter of a given sample by steam distillation method. |
| 4    | To determine the COD value of a given sample.  |
| 5    | To determine the pH value of a given sample.   |
| 6    | To Remove hardness of water by ion-exchange method.  |
| 7    | To determine the cobalt ion concentration by colorimetry method.                               |
| 8    | To determine the conductance of a given sample   |

## **Course Assessment:**

## Theory:

**ISE-1:** 

Activity: Quiz and assignments 20 Marks

ISE-2: Two hours 20 Marks

Activity: Article Discussion, Quiz and Assignments

Outcome: Reflective Journal

MSE: Two hours 30 Marks written examination based on 50% syllabus

**ESE:** Three hours 100 Marks (30% weightage) written examination based on entire syllabus

## Lab:

ISE:

**1. ISE-1** will be conducted for four experiments. Continuous pre-defined rubrics-based evaluation for 20 marks.

## 2. ISE-2

- a. Four experiments. Continuous pre-defined rubrics-based evaluation for 20 marks.
- b. Reflective journal analysis on the given problem statement for 10 marks

## **Recommended Books:**

- [1] Engineering Chemistry Jain & Jain, Dhanpat Rai
- [2] Engineering Chemistry Dara & Dara, S Chand
- [3] Green Chemistry: A textbook V.K.Ahluwalia, Alpha Science International
- [4] A Text Book of Engineering Chemistry Shashi Chawla, DhanpatRai
- [5] Textbook of Qualitative Inorganic Analysis: A. I. Vogel

### **Course Assessment:**

## Theory:

**1. ISE-1: Quiz:** 10 marks.

Assignments: 10 marks

2. ISE-2: Mini-Project: 20 marks

MSE: Two hours 30 Marks written examination based on 50% syllabus

**ESE:** Three hours 100 Marks (30% weightage) written examination based on entire syllabus

## Lab:

ISE-1 Four experiments. Continuous pre-defined rubrics-based evaluation for 20 marks.
 ISE-2

- a. Four experiments. Continuous pre-defined rubrics-based evaluation for 20 marks.
- b. Practical Exam: 10 marks

|        | 3.1  | Descriptions and functions of lathe parts. Lathe specifications, |     |      |
|        |      | Lathe operations, and Taper turning.                             |     |      |
|        | 3.2  | Turning parameters like speed, feed, depth of cut, and metal     |     |      |
| 3      |      | removal rate. Calculation of machining time.                     |     |      |
|        | 3.3  | Single point cutting tool nomenclature. Work and tool holding    |     |      |
|        |      | devices & accessories.   |     |      |
|        | 3.4  | Types of Lathe machines including Capstan and Turret Lathe.      |     |      |
|        |      | Boring operation.  |     |      |
|        |      | Drilling machine   | 1,2 | 04   |
|        | 4.1  | Drilling operations. Types of Drilling machines.                 |     |      |
| 4      | 4.2  | Drill nomenclature. Work and tool holding devices. Calculation   |     |      |
|        |      | of machining time in drilling.                                   |     |      |
|        | 4.3  | Deep hole drilling and Boring machines.                          |     |      |
| 5      |      | Milling machine  | 1,2 | 05   |

|       | 5.1 | Types of milling operations and their difference. Milling                    |     |    |  |  |  |  |
|-------|-----|--|-----|----|--|--|--|--|
|       |     | parameters.  |     |    |  |  |  |  |
|       | 5.2 | <b>5.2</b> Types of milling machines. Types of Milling cutters.              |     |    |  |  |  |  |
|       | 5.3 | Special milling attachments and accessories. Calculation of                  |     |    |  |  |  |  |
|       |     | machining time in milling.   |     |    |  |  |  |  |
|       |     | Grinding machine   | 1,2 | 04 |  |  |  |  |
|       | 6.1 | Principle of grinding. Types of grinding machines and operations.            |     |    |  |  |  |  |
| 6     | 6.2 | Grit, grade, and structure of grinding wheels. Balancing of grinding wheels. |     |    |  |  |  |  |
|       | 6.3 | Truing, dressing, and shaping of grinding wheels.                            |     |    |  |  |  |  |
| Total |     |  |     | 26 |  |  |  |  |

## **Course Assessment:**

Theory:

## <u>ISE-1:</u>

<u>Activity</u>: A visit will be arranged for students in a workshop (other than CRCE) to get a demonstration on Lathe, Drilling, and Milling machines. Students will submit a report as part of ISE-1 based on their observation of their visit. (20 Marks)

## **ISE-2:**

<u>Activity</u>: An Industrial Visit will be organized to a production facility where students will be able to gain more knowledge of the various machine tools. Students will submit a report as part of ISE-2 based on their observation of their industrial visit. (20 Marks)

MSE: Two hours written examination based on 50% syllabus (30 Marks)

ESE: Three hours 100 Marks (30% weightage) written examination based on entire syllabus

## Lab:

## Part B (Lab)

|    | Activities to be completed during lab time                    | Ref. | Hrs. |
|----|---|------|------|
| A1 | Visit to Fr. CRCE workshop (Demonstration of Lathe, Drilling, | 1,2  | 12   |
|    | Milling, and Shaping machines) and report writing.            |      |      |
| A2 | Calculation of machining time (Lathe, Drilling and Milling    | 1,2  | 6    |
|    | operation).   |      |      |
| A3 | Draw and label a lathe machine.                               | 1,2  | 2    |
| A4 | Draw and label any one type of drilling machine.              | 1,2  | 2    |
| A5 | Draw and label the single-point cutting tool.                 | 1,2  | 2    |
| A6 | Draw and label the drill nomenclature.                        | 1,2  | 2    |
|    | Total   |      | 26   |

**Course Assessment:-**

(Lab)

**ISE:** 

- **1. ISE-1** will be conducted for two activities (A1 and A2) Continuous pre-defined rubricsbased evaluation for 20 marks.
- **2. ISE-2** will be conducted for four activities (A3, A4, A5, A6) Continuous pre-defined rubrics-based evaluation for 30 marks.

| 5.3 | Configuration and working of a wireless access point | [17]    | 2  |
|     |  | Total   | 52 |

#### **Course Assessment:**

Lab:

- ISE:
- 1. ISE-1
  - a. Assignment on Module 1 for 20 marks
  - b. Assignment on Module 2 for 20 marks
  - c. Group activity on (network troubleshooting) Module 3 for 10 marks

## 2. ISE-2

- a. Quiz on Module 4 for 10 marks
- b. Assignment (PCB implementation) on Module 4 for 30 marks
- c. Group activity on Module 5 for 10 marks
