## **Annexure A**

You shall be governed by the following terms and condition of service during your internship with OLCADEMY (referred as organization or company hereafter), and those may be amended from time to time.

Request you to send a signed and scanned copy of this offer letter to [internships@olcademy.com](mailto:internships@olcademy.com) and cc [careers@olcademy.com](mailto:careers@olcademy.com)

1. The roles, responsibilities and duties appropriate to your designation or your internship, will be specified by Company from time to time. Company may at any time, in its sole discretion, upon notice to you, alter or otherwise modify these roles, responsibilities and duties. Further, at any time, you may be required to provide services, directly or indirectly, to Company and its affiliates and their interns, contractors and clients.
2. Your duration of the internship would be 3 months. During this time, you are expected to devote your time and efforts solely to OLCADEMY work. You are also required to let your mentor know about forthcoming events (if there are any) in advance so that your work can be planned accordingly.
3. You will be working remotely for the duration of the internship. There will be catch ups scheduled with your mentor to discuss work progress and overall internship experience at regular intervals.
4. All the work that you will produce at or in relation to OLCADEMY will be the intellectual property of OLCADEMY. You are not allowed to store, copy, sell, share, and distribute it to a third party under any circumstances. Similarly, you are expected to refrain from talking about your work in public domains (both online such as blogging, social networking site and offline among your friends, college etc.) without prior discussion and approval with your mentor.
5. We take data privacy and security very seriously and to maintain confidentiality of any students, customers, clients, and companies' data and contact details that you may get access to during your internship will be your responsibility. OLCADEMY operates on **zero tolerance** principle with regard to any breach of data security guidelines. At the completion of the internship you are expected to hand over all OLCADEMY work/data stored on your Personal Computer to your mentor and delete the same from your machine.
6. During the appointment period you shall not engage yourselves directly or indirectly or in any capacity in any other organization (other than your college). In the event of breach of this condition, this appointment is liable to be terminated forthwith by the company. In addition, you shall be liable to pay liquidated damages to the Company of an extent estimated by the Company.

7. Under normal circumstances either the company or you may terminate this association by providing a notice of 30 days without assigning any reason. However, the company may terminate this agreement forthwith under situations of in-disciplinary behaviours.
8. You are expected to conduct yourself with utmost professionalism in dealing with your mentor, team members, colleagues, clients and customers and treat everyone with due respect.
9. OLCADEMY is a start-up and we love people who like to go beyond the normal call of the duty and can think out of the box. Surprise us with your passion, intelligence, creativity and hard work – and expect appreciation & rewards to follow.
10. Expect constant and continuous objective feedback from your mentor and other team members and we encourage you to ask for and provide feedback at every possible opportunity. It's your right to receive and give feedback – this is the ONLY way we all can continuously push ourselves to do better.
11. Have fun at what you do and do the right thing – both the principles are core of what OLCADEMY stands for and we expect you to imbibe them in your day to day actions and continuously challenge us if we are falling short of expectations on either of them.
12. This will be an unpaid internship.
13. This will be a work from home internship.
14. You will receive certificate of completion of internship at the end of your internship period.
15. As per the management's discretion you stand an opportunity to receive a letter of recommendation if your performance throughout the internship stays praiseworthy.
16. You stand an opportunity to receive a Pre-Placement Offer subject to your overall performance and management's discretion.
17. Olcademy reserves the right to change the policies or terms of agreement at any point in time and the decision will be binding on the candidate.
18. The Tenure of the internship can be increased or decreased upon mutual consent of both the candidate and the Olcademy management.
19. You will always abide by the company policy for throughout your tenure with the organization.
20. You will be on probation for first 15 days of the internship and your confirmation will be based on your mentor's feedback of your performance in the team.

21. You will always maintain the necessary confidentiality of all the entities related to Olcademy during or after your tenure of internship with the organization.
22. You acknowledge and agree that Company has offered you Internship based on the specific information and records furnished by you or on your behalf. You will provide or arrange to provide any information and/or grant any consent or permission required by Company and/or its agents from time to time to verify any such information and/or records and/or perform any background and/or reference checks. If, at any time, Company believes, in its sole discretion, that there is a discrepancy or inaccuracy in or with respect to any information furnished by you or on your behalf, including any information, documents or certificates provided as a proof of your qualifications and experience, or if you fail to cooperate with Company and/or its agents in conducting such verification and/or background and/or reference checks, Company may, in its sole discretion, elect to terminate or suspend your internship immediately.
23. Olcademy's Leave policy shall apply to your internship and may be modified by Company at any time, in its sole discretion, upon notice to you.
24. Upon Company's notice to you, if you are in breach of any of the terms contained herein or any of the Company's policies and you have failed to cure such breach within thirty (30) calendar days of notice of such breach.
25. Company may terminate your internship immediately, with or without notice, on the occurrence of:

## CENTRALIZED INDUSTRIAL VISIT REPORT

**CHANDIGARH & HIMACHAL PRADESH FROM 27<sup>TH</sup> DECEMBER 2019 TO 4<sup>TH</sup> JANUARY 2020**

### 1. Overview & Introduction

The much-awaited annual industrial visit of Fr. Conceicao Rodrigues College of Engineering, Mumbai took place with a centralized conglomerate of staff & students to Chandigarh, Shimla & Manali from the 27<sup>th</sup> December 2019 to 4<sup>th</sup> January 2020 with proposed industrial visit sites scheduled at Rajiv Gandhi Information Technology (IT) Park at Chandigarh, Micro Turners Group at Baddi, (Himachal Pradesh) & Jay Bee Transformers at Panchkula (Haryana). The industrial visit was organized by the technical councils of the college viz. IEEE-WIE, SAE, ACM & CSI who handled every detail – right from the planning to execution. Leading the group were student Ricky Stanley of B.E. (Electronics Engineering), Akshay Dixit of T.E. (Production Engineering) & Sahil Gupta of T.E. (Computer Engineering).

A total of 145 students, mainly comprising from second year, third year & final year engineering from all four branches viz. electronics, production, computer & information technology were accompanied by the following staff members :-

- Dr. Brijmohan S. Daga, Professor & Head, Computer Engineering Department
- Dr. Nilesh M. Patil, Assistant Professor, Information Technology Department
- Prof. Unik B. Lokhande, Assistant Professor, Information Technology Department
- Prof. (Mrs.) Supriya S. Kamoji, Assistant Professor, Computer Engineering Department
- Prof. (Mrs.) Dipali Y. Koshti, Assistant Professor, Computer Engineering Department
- Prof. Jayen Modi, Assistant Professor, Electronics Engineering Department
- Mr. Yogesh Chavan, Non-teaching staff (Peon)

The complete arrangement of the tour was outsourced by the students' council to Mr. Nitish Parab of 'Around the Globe (ATG)' holidays who accompanied the group along with four of his associates. The journey began on morning of 27<sup>th</sup> December 2019 with the entire group assembling at Bandra Terminus Railway Station to catch the 12:45 pm Garib Rath Express (12216) which disembarked at Sarai Rohilla Railway Station, Delhi next day at 12:30 pm. The return journey was from Hazrat Nizamuddin Railway Station, New Delhi by Garib Rath Express (12910) on the afternoon of 3<sup>rd</sup> January 2020 at 03:35 pm. The whole group reached Mumbai safely in the late morning of 4<sup>th</sup> January 2020.

## **2. Objectives of Industrial Visit**

Usually the underlying objective of any industrial visit is for students to gather a first-hand experience of how the professional working methodology, various industrial processes, machinery & other related equipment are in place so that once they enter into the professional field, after the completion of their respective courses, so these industrial tours are an effort to bridge this gap of practical exposure. Typically benefits of any industrial visits are generally (but not confined to the following) :-

- It help students gain first hand information regarding functioning of the Industry
- Provides an insight into the real working environment of the Industry
- Helps them to see their future place in the working world
- This also serves as a relation building process between institutes and industry
- Many of the companies also use it as tool for building brand awareness
- Helps to enhance their interpersonal skills and communications
- Helps to understand the do's and don'ts of the industrial practice

## **3. Visit to Visions Software Pvt. Ltd. (Chandigarh)**

With over two and a half decades of work experience in technology Visions Software Pvt. Ltd. is focused on understanding client's requirements, providing quality work & being result oriented.

#### **4. Visit to Auscan Academy of Information Technology (Chandigarh)**

The A2IT Pvt. Ltd. is one of the most reputed group for technological education and research in Chandigarh. Known for its strong relations with the industry, the A2IT Mohali has always been a favorite destination of recruitment for many firms. The Corporate Relations & Placement Department plays a very important and key role in counseling and guiding the students of the Institute for their successful career, which is a crucial interface for the students between the stage of completion of academic programs of studies and entry into the professional life. The department coordinates various activities related to the placement of the students. The company provides the following services :-

- **Telecom Network Integration:** Providing Telecom and Network Solutions from last 10 years in Industries and also providing corporate training in Network, Cloud Computing, CCNA, CCNP, CCIE, Network Security and Telecom Sector.
- **Mechanical Engineering Solutions:** A2IT Mohali Mechanical design services on offer, range from concept design right through to detail engineering, analysis & prototyping, using industry best practices for CAD, CAM and CNC Turning & Milling.
- **Software Engineering Solutions:** Organizations need to adopt agile, pioneering and outgoing approach to strategically address complex web application issues and simultaneously increase revenues while reducing operational costs. A2IT Mohali proven & practical standards of tailored (web applications development, mobile applications development, desktop applications development) on different technologies.
- **Embedded & Automation Solutions:** A2IT Mohali has created a niche for itself in Industrial automation domain. We also execute projects in real time product development using variety of operating systems such as Embedded Linux, Embedded Robotic, Raspberry Pi, Arduino, HMI & Automation Technologies.

Mr. Rajiv Kumar, the resource person at A2IT Pvt. Ltd. briefed about ethical hacking to the students. He informed students about the Kali Linux OS and Parrot OS, the tools available in these OS etc. Students

**FR. CONCEICAO RODRIGUES COLLEGE OF ENGINEERING**  
**Office of Cultural & Student Affairs**

were also guided with shell-phishing using Kali Linux. Mr. Rajiv Kumar demonstrated the spoofing attack in security by spoofing the email ids of HR in IBMIndia.com and Google.com. Using these email ids, emails were sent to the students in the form of offer letters granting jobs in these companies. Demonstration was also given by hacking the social accounts in mobile phone by simply using the email ids of user. Using the email IDs alone, information like name of the user, their social account password, IP address of the phone, developer of the device, which ISP service is used were revealed. The session was highly informative. We fall short of time.

**5. Visit to Micro Turner Group, Baddi (Himachal Pradesh)**

Micro Turners Group is one of the largest integrated automotive component manufacturers in India. It has 12 world class manufacturing facilities mainly located in North & West India. With the infrastructure and technology platform developed over 40 years, the Group is well positioned in the Indian Auto and Non-Auto component markets. With over 1600 various components, Micro Turners is mainly into the manufacturing of Transmission Gear Train Assembly, Kick Start Mechanism, Gear Shifting Towers & Forks, All types of Sprockets, Ratchets, Pinions, Special Engine Fasteners, Clutch Shafts, Armature Shafts, Spline Shafts, Balancer Shafts, Bearing Races & Rings, 2 WHD Chassis Assembly, Fabricated Frames, Muffler Assembly, Swing Arms, 2 WHD Axles, Precision Ground Bushes and Special Turned Components. Moving with a growth rate of 11% CAGR, the company has posted a turnover of USD \$225 million in last year. Micro Turners mainly aims at expanding their business across the globe through technological excellence.

For both the production & the electronics engineering students, this visit helped bridge the gap between curriculum & industry since they were exposed to various real-life industrial processes previously seen only in text-books. While the production engineering batch got a glimpse of various manufacturing processes & tools, the electronics engineering students could identify various electronic systems that pertained to power electronics, electrical machines & drives, instrumentation & automation. Micro Turner Group (MTG) was one of the core industries for both these engineering disciplines.

## **6. Visit to Aar Kay Shawl Industries, Bhuntar – Kullu (Himachal Pradesh)**

The group also witnessed traditional small scale industries under small & medium enterprise (SME) by visiting Aar Kay Shawl Industries at Bhuntar, Kullu (Himachal Pradesh). This industrial visit was indeed in stark contrast to the modernisms displayed at the Rajiv Gandhi Information Technology Parks in the form of IT, electronics & automation industries. Due to confidential issues photography wasn't permitted yet the group witnessed first-hand account of traditional shawl making & other garments manufacturing using simple automated machines & processes. Majority of students also purchased several products.

## **7. Rest, Relaxation & Leisure Excursions**

Along with a tightly packed schedule, a sense of rest, relaxation & leisure excursion also prevailed as the entire group took some time off & went for local sight-seeing in Shimla & Manali. This included visits to Kufri, the Mall Road (Shimla) & St. Stephen's Church. In Manali, the group visited Hadimba Temple, the Mall Road (Manali), Solang Valley where they indulged in several fun-filled activities. The staff & students also visited the local markets & indulged in local delicacies along the way. A few adventurous students took a shot at river rafting in Kullu; though it was optional in the itinerary.

## **8. Outcomes, Takeaways & Conclusion**

Industrial visits offer a great source to gain practical knowledge. Students can observe and learn as to how theatrical concepts are put to into action, thereby aiding their practical learning. Students are exposed to real working environment and shown how things are done in an organization. From the details about the management to the targets they achieve, everything is covered in these visits.

An industrial visit is first-hand experience to anything related to students' career. It helps gain an active learning experience. Traditional engineering colleges cannot afford to show the real methodologies of companies. Therefore, industrial visits are a great way to gain as much as practical and technical knowledge on area of interest. Be it challenges involved in a particular area of interest or nuances to master the field or scope, everything is covered in an industrial visit.

The gap between theoretical learning and practical exposure is actually bridged by industrial visits. The importance of industrial visits is such that it has been made mandatory in many institutions. Also, students are always curious about what kind of work they would be doing after entering their favorite industry. Through industrial visits, they can clarify their doubts and silence their curiosities. They can communicate with people and organizations to get a clear idea of their dream job.

### **4. Introduction to ISDI – School of Design & Innovation by Mr. Vishal Samal**

Mr. Vishal Samal, Vice President – Outreach, Admissions & Marketing warmly welcomed all the students & staff members for inauguration of the session hosted exclusively for Fr. Conceicao Rodrigues College of Engineering. He started off with introducing the Indian School of Design & Innovation (ISDI) – the institute, admissions, programmes, internships, placements, infrastructure, opportunities etc. His introductory note resonated well with the students as it gave them a sneak peek into the academic & professional world beyond the engineering domain. He aptly mentioned that majority of students have opted for the elective subject 'Electronic Product Design' for which they can be shown an altogether different perspective in product design which is not from the typical engineering point of view. Students would also learn about Aesthetics, Ergonomics, Usability & other factors instrumental in final product design at ISDI. As faculty members, we would benefit from learning in different ecosystem about design thinking. Vishal's message set the ball rolling for the latter half of the session. This lively interaction also paved a way where most of the students interacted with him to know more regarding ISDI. He concluded by mentioning that ISDI's academic focus is leadership, design thinking & innovation, business & data analytics, entrepreneurship, management & digital marketing.

**5. Leapfrog from Engineer to Innovator by Prof. Amit Kundal**

Prof. Amit Kundal – Faculty of Design, introduced all the staff & students to an extremely interesting & invigorating session titled ‘Leapfrog from Engineer to Innovator’. This session is a part of ISDI’s DICE Bootcamp which empowers individuals to become a creative catalyst with a systematic approach to design thinking / innovation, whether one works in the engineering space, digital area, business, healthcare & education or in Non-Profit organization, hands-on workshop in the core principles of design thinking, big data and entrepreneurship will help to initiate students’ thoughts & directing them to solve ‘wicked’ & perplexing challenges with ease. His talk focused more on making students realize that there are several other non-technical aspects (apart from routine engineering parameters) which are also equally important in designing any product. He advised students to think out of the box & be unique in their approach while considering solutions to some of the common problems facing the society & industry at large.

**6. Campus Tour for Staff Members**

Department of Electronics & Computer Science

## 7. Conclusion & Acknowledgements

The educational visit to the Indian School of Design & Innovation (ISDI) threw open an altogether different perspective for engineering students about 'life beyond the traditional technical domain'. It also gave them a deep insight as to how non-technical factors equally matter when it comes to innovation & product designing. The undersigned would like to thank Dr. Sapna Prabhu, Professor & the Head of Department, Mr. Vishal Samal & Prof. Amit Kundal; the latter both of ISDI for making this educational visit a reality.

To Whomsoever it may concern,

This is to inform you that **Sakshi Sanjay Dave** interned at our organization from **June 6 to July 12, 2019** (she will be working part time for the last week due to college commencement).

We run a new age Ayurvedic products brand called Dr. Vaidya's ([www.drvidyas.com](http://www.drvidyas.com) for more information). **Sakshi** was a highly energetic and driven member of our team. The focus during this period was **sales, marketing and business development through a variety of tasks including events, customer interactions influencer engagements, project management and digital activities**. **Sakshi** showed immense maturity at handling a variety of situations. I was most impressed at her ability to see any situation or hurdle through to its completion even at such a young age. Whether it was going to events, converting customers or working with a team – she was a very high performer in our team. We were unhappy to have her go as he had become a very integral part of our team and set up.

We really enjoyed working with **Sakshi** and hope to have her back at our organization again for another internship/long term stint.

## LETTER OF RECOMMENDATION

20<sup>th</sup> January, 2020

To whom it may concern,

I am writing this recommendation letter for **Harkirat**, who did an internship at my company, The Ecosattva Store, which is a marketplace for sustainable products. He interned with us for a month and worked on Digital Marketing and Event Marketing.

Harkirat helped us promote our products during a two events where we were a part of the sustainability partners. He has great communication skills and can quickly pick up details by observing other people around him.

I am happy to recommend him for his sales and marketing skills.

Warm Regards,  
Kriti Tibrewal Deora  
Founder – The Ecosattva Store

In appreciation for your successful work as Web Developer intern at Crimp News from 3rd Dec '19 to 3rd Feb '20

To Whomsoever it may concern,

This is to inform you that **Mareena** interned at our organization from 10<sup>th</sup> June to 14<sup>th</sup> July 2019.

We run a new age Ayurvedic products brand called Dr. Vaidya's ([www.drvidyas.com](http://www.drvidyas.com) for more information). Mareena was involved and helped the team in marketing and customer service and operations! She was responsible for content platforms like Practo where she did the research, wrote the content and managed the listing on the platform. She also managed to improve the visibility of the brand on Practo in such a short time period. In addition to this she was part of a winning team for an Instagram creative competition.

She worked on processing orders, customer confirmation calls and was a huge help to our CRM and operations team!

We really enjoyed having Mareena and she will be missed!
