ELECTRONICS & COMPUTER SCIENCE (ECS)

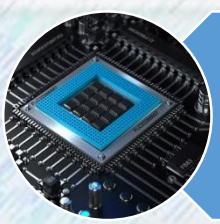
ORIENTATION PROGRAMME FOR SELECTION OF ELECTIVES IN SEMESTER V – T.E. (ECS)

Saturday, 12th June 2021
09:30 am IST on Google Meet

Software Testing & Quality Assurance

Sensors & Applications

Information Theory & Coding



ASIC Verification

Google Meet link will be emailed to all students on latest by Friday, 11th June 2021. Please note that attendance is compulsory.

The orientation programme gives formal introduction to the various elective subjects offered by the Electronics & Computer Science Department. It helps out students to make an informed decision in choosing a particular elective also with addressing of queries if any.

ORIENTATION FOR ELECTIVE SUBJECTS

T.E. (Electronics & Computer Science)

Semester V for Academic Year 2021 – 2022

Department of Electronics & Computer Science

Fr. Conceicao Rodrigues College of Engineering, Bandra (W), Mumbai – 400050.

ORIENTATION FOR ELECTIVE SUBJECTS

Dr. Sapna Prabhu

Professor & Head of Department

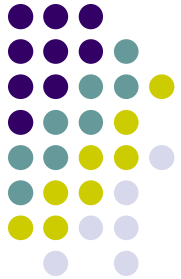
Jayen Modi

Assistant Professor

Department of Electronics & Computer Science

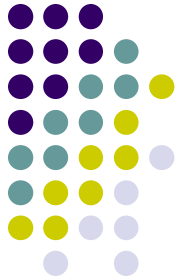
Fr. Conceicao Rodrigues College of Engineering

AGENDA / OVERVIEW



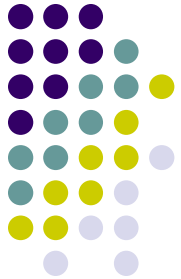
- What are electives ?
- Career tracks / domains towards Industry 4.0
- Electives on offer @ECS – Semester V (T.E.)
- Proposed course contents of all electives
- Pre-requisite subjects of all electives
- Relevance to future subjects of all electives
- Choosing an elective
- Question & Answer (Q&A) session

WHAT ARE ELECTIVES ?



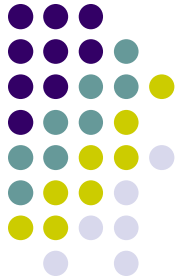
- Chosen by students from number of optional subjects or courses in a curriculum
- Elective courses – specialized courses
- Requisite skill set in particular technological domain or area of interest
- Knowledge depth in particular chosen area
- Student can continue further studies or look for employment opportunities in that domain

CAREER TRACKS / DOMAINS TOWARDS INDUSTRY 4.0



- **Track # 1 – Soft Computing**
- **Track # 2 – Web Technologies & IT Infrastructure**
- **Track # 3 – Information & Signal Processing**
- **Track # 4 – Embedded Systems & VLSI**
- **Track # 5 – Robotics & Industrial Automation**
- **Students can orient their studies & eventually their careers towards any of the above tracks; thereby meeting requirements for Industry 4.0 !**

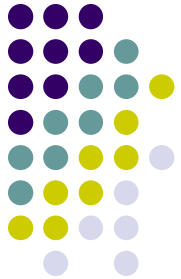
ELECTIVES ON OFFER @ ECS SEMESTER V (T.E.)



- **Software Testing & Quality Assurance**
- **ASIC Verification**
- **Information Theory & Coding**
- **Sensors & Applications**
- **Department Level Optional Course – I**
- **Students have to select ANY ONE of above from the options offered (selection process to be discussed later on)**

1. Software Testing & Quality Assurance

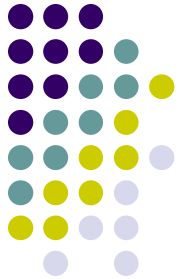
1. Software Testing & Quality Assurance



PROPOSED COURSE CONTENTS

- Software Testing Methodologies
- Software Testing Techniques
- Test Process Management
- Software Testing Automation Process
- Testing for Specialized Environment
- Quality Issues, Management & Assurance
- Documentation & Report Generation

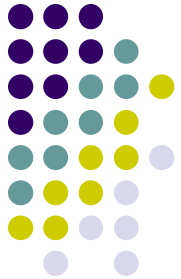
1. Software Testing & Quality Assurance



PRE – REQUISITE SUBJECTS

- Structured Programming Approach (C/C++)
- Object Oriented Programming (JAVA)
- Python Programming
- Data Structures & Algorithms
- Discrete Structures & Automata Theory
- Database Management Systems
- Fundamentals of Software Engineering

1. Software Testing & Quality Assurance



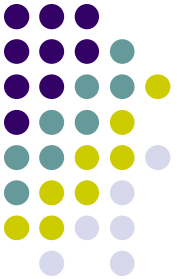
RELEVANCE TO FUTURE SUBJECTS

- **Data Warehousing & Mining (Semester VI)**
- **Skill Based Lab – Linux (Semester VI)**
- **Advanced Database Management Systems (Semester VII)***
- **Advanced Algorithms (Semester VIII)***

**** offered as electives in their respective semesters***

2. Application Specific Integrated Circuit (ASIC) Verification

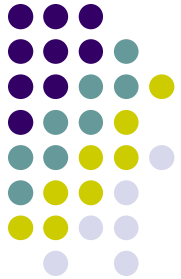
2. Application Specific Integrated Circuit (ASIC) Verification



PROPOSED COURSE CONTENTS

- Programmable Devices
- Basics of Verification Process
- Concept of ‘Test Bench’ set-up
- OOP – Classes & Objects
- Very High Speed Integrated Circuit Hardware Descriptive Language (VHDL)
- Verilog & VHDL Programming

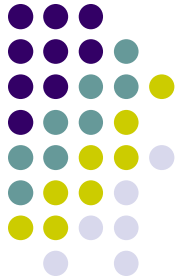
2. Application Specific Integrated Circuit (ASIC) Verification



PRE – REQUISITE SUBJECTS

- Concepts of Object Oriented Programming
- Digital Electronics
- Knowledge of C/C++
- Data Structures & Algorithms
- Electronic Devices & Circuits
- Application of Engineering Mathematics

2. Application Specific Integrated Circuit (ASIC) Verification

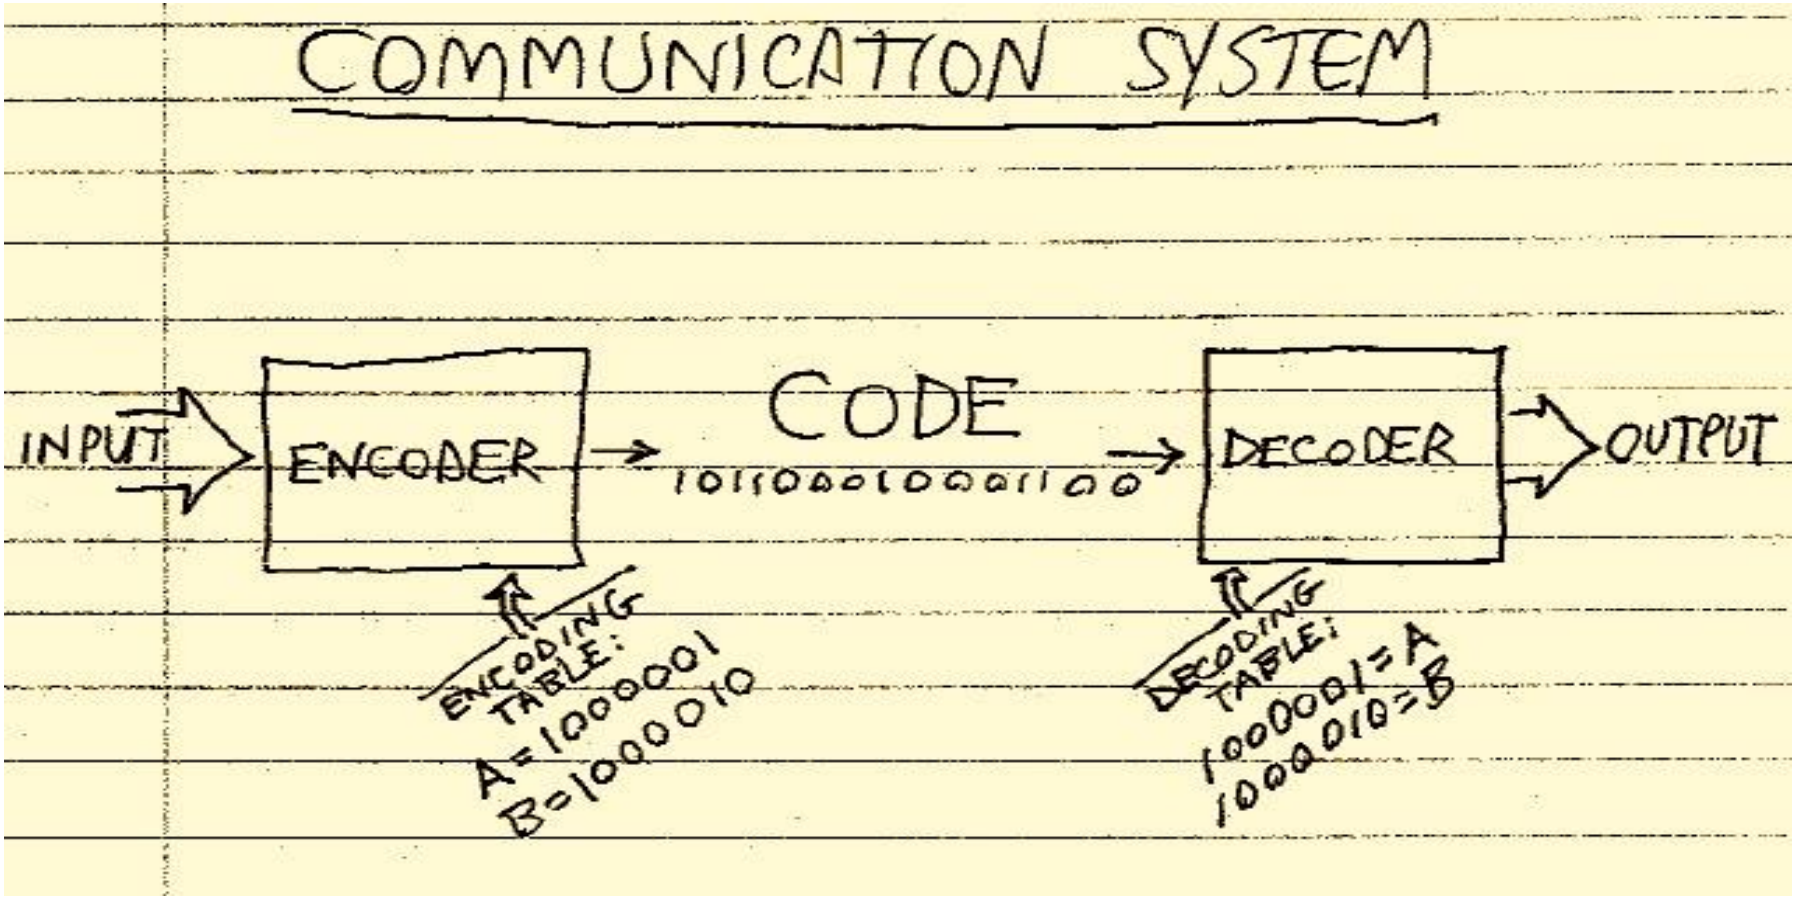


RELEVANCE TO FUTURE SUBJECTS

- **Embedded Systems & RTOS (Semester VI)**
- **Electronic Product Design (Semester VI)***
- **VLSI Design (Semester VII)**
- **Internet of Things (Semester VII)**
- **MEMS Technology (Semester VIII)***

**** offered as electives in their respective semesters***

3. Information Theory & Coding



3. Information Theory & Coding

PROPOSED COURSE CONTENTS

- Concept of Information & Data
- Introduction to Communication System
- Principle of Encoding & Decoding Technique
- Data Compression
- Error Detection & Correction in Data
- Multimedia (Audio & Video) Encoding & Decoding Techniques

3. Information Theory & Coding

PRE – REQUISITE SUBJECTS

- Electronic Devices & Circuits
- Digital Electronics
- Applications of Engineering Mathematics (Probability Theory & Random Variables)
- Control & Instrumentation (Signals & System)

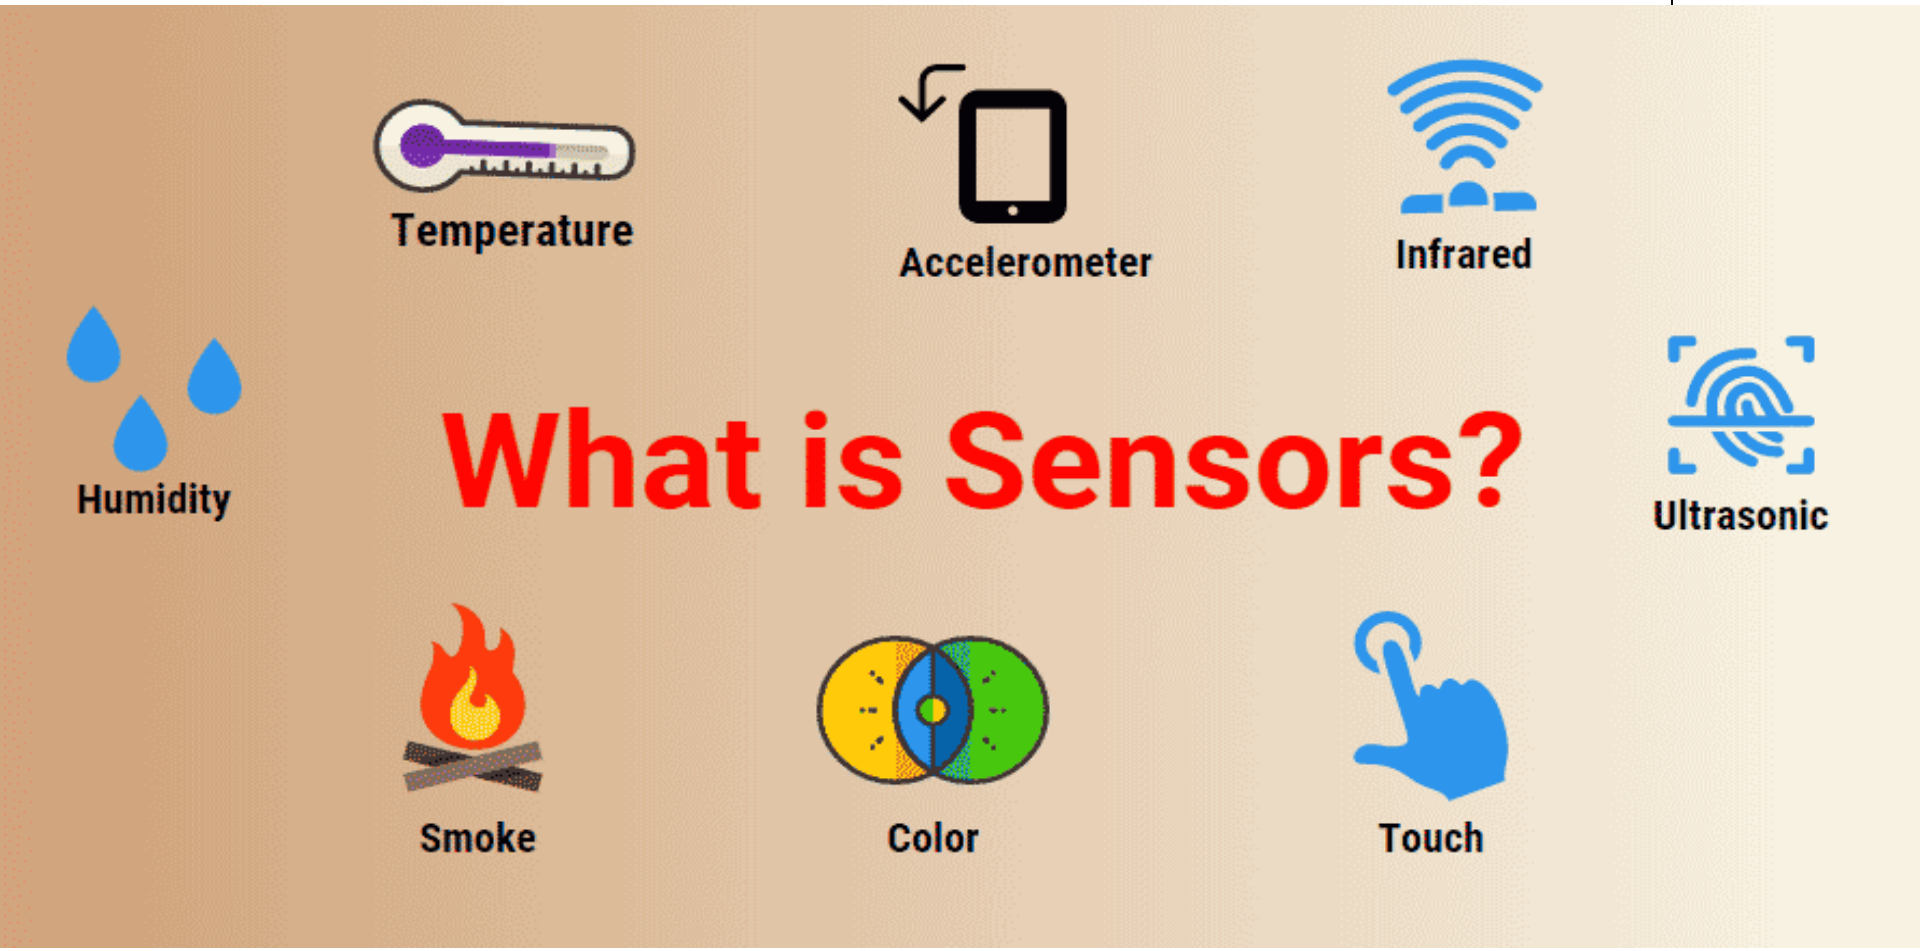
3. Information Theory & Coding

RELEVANCE TO FUTURE SUBJECTS

- **Digital Signal Processing (Semester VI)***
- **Image Processing (Semester VII)***
- **Mobile Communication (Semester VII)***
- **Natural Language Processing (Semester VIII)***

**** offered as electives in their respective semesters***

4. Sensors & Applications



4. Sensors & Applications

PROPOSED COURSE CONTENTS

- Introduction to Sensors
- Physics of Sensor Operation
- Characteristics & Specifications of Sensors
- Application Domains of Sensors
- Interfacing of Sensors
- Principle of ‘Smart’ Sensors
- Industry Standards & Calibration of Sensors

4. Sensors & Applications

PRE – REQUISITE SUBJECTS

- Electronic Devices
- Electronic Circuits (Operational Amplifiers)
- Control & Instrumentation
- Applications of Engineering Mathematics

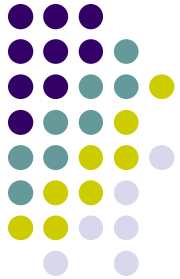
4. Sensors & Applications

RELEVANCE TO FUTURE SUBJECTS

- **Industrial Automation (Semester VI)***
- **Electronic Product Design (Semester VI)***
- **Internet of Things (Semester VII)**
- **Robotics (Semester VIII)**
- **MEMS Technology (Semester VIII)**
- **Major Project – I & II**

**** offered as electives in Semester VI***

CHOOSING AN ELECTIVE

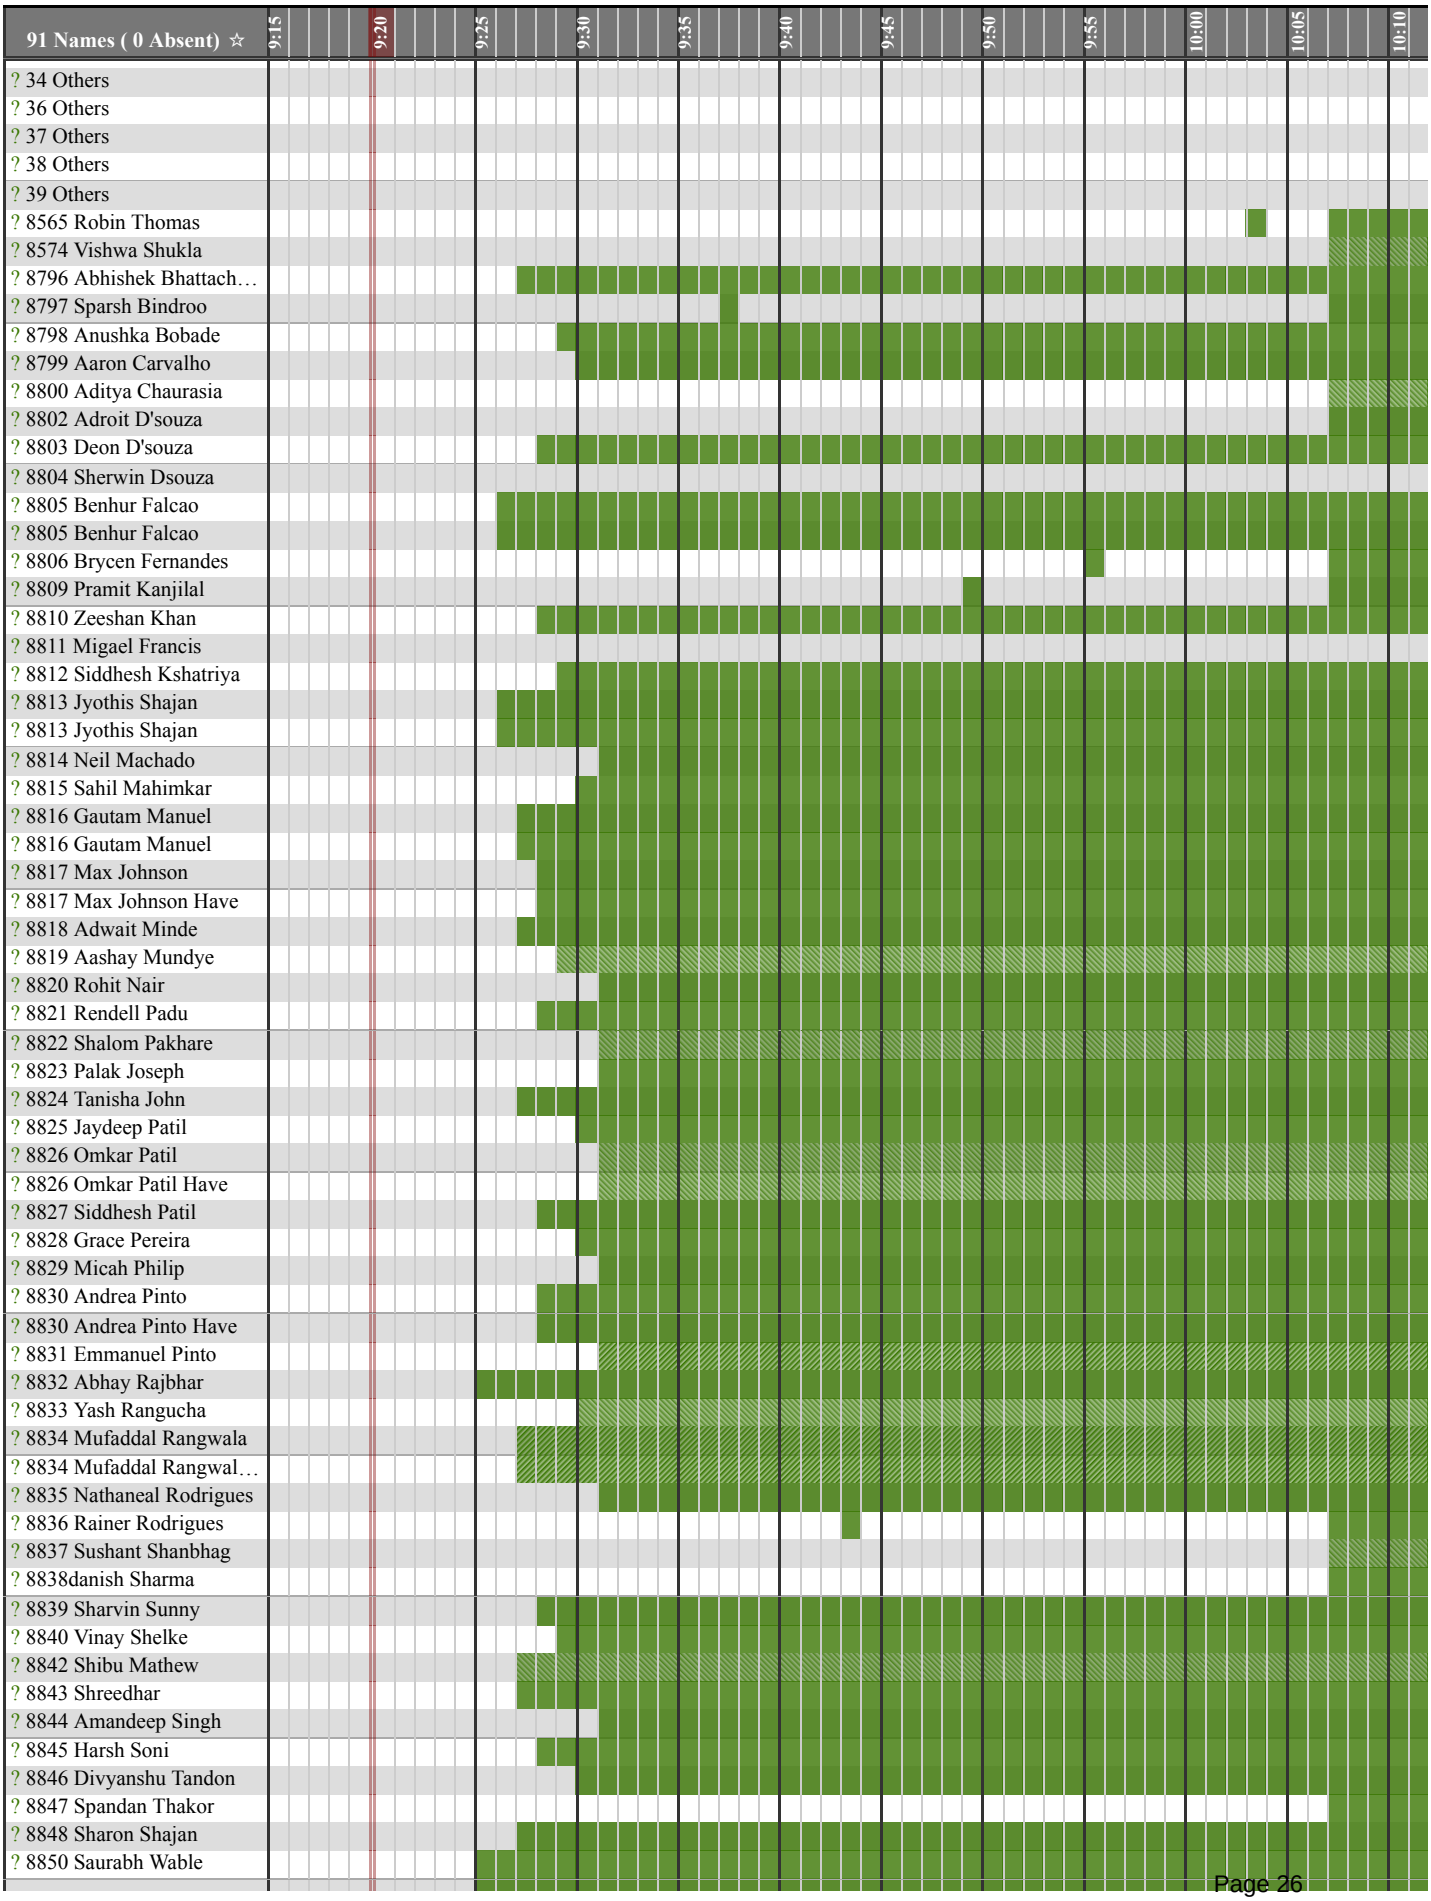


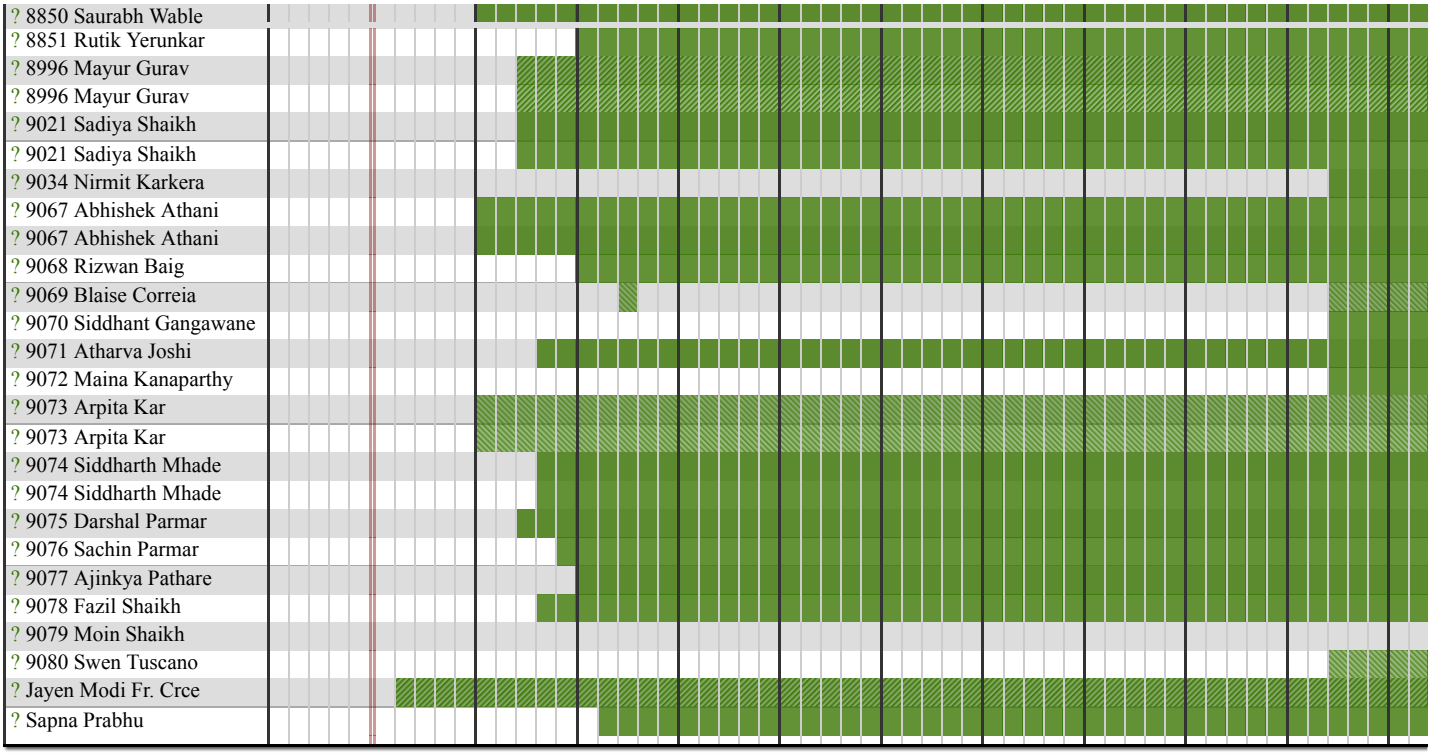
- **Choose an elective which interests you for further course of study & career prospects**
- **Check out the syllabus**
- **Pick up your area of interest**
- **Refer online for the scope of each elective**
- **Consult with your respective staff mentors**
- **Be on your own – your friends aren't going to write the exam for you, nor submit term work or give the viva so don't follow them in choices !**

ALL THE BEST !

Daily Attendance Report for electives-orientation-for-t.e.-(ecs)---semester-v: 2021-06-12

Class Name:**electives-orientation-for-t.e.-(ecs)---semester-v** Meet ID: **met-tibh-jub** Date: **2021-06-12** Earliest Arrivals: **09:20** Start: **9:20**
End: **10:50** Duration: **90** min





Daily Attendance Legend:

✓ The student was present then exited, rejoined, then exited again, and rejoined again, etc., etc.
The alternating background patterns indicate that the student may have left and rejoined the Meet
✓ The student was marked present by the teacher (but did not shown up in the Meet window)
The student missed the entire class
Help videos:
To help your eye follow across the page, the table rows alternate between white and grey backgrounds which leads to two subtly different shades of green for the times when the student was present
NB - If you want a printed copy of this report, make sure that the 'More settings' → 'Background graphics' checkbox is checked in the Print dialog

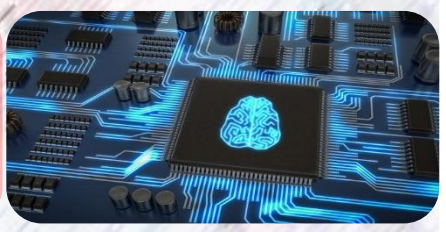
Generated by the Google Meet Attendance extension (v1.5.2)

RANKINGS | AFFILIATION | ACCREDITATIONS | APPROVALS

ELECTRONICS & COMPUTER SCIENCE (ECS)

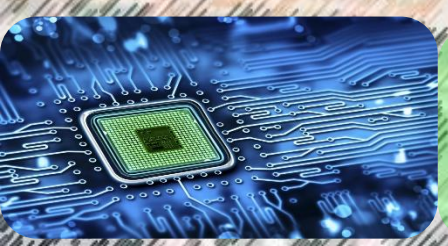
All students can orient their studies & accordingly select their careers towards any of 'career tracks' as mentioned below; thereby meeting the requirements of Industry 4.0 thus subsequently opening up new horizons; not only for their growth as professionals but also for future studies !

TRACK # 1 – SOFT COMPUTING



TRACK # 2 – WEB TECHNOLOGIES, IT INFRASTRUCTURE & MANAGEMENT

TRACK # 3 – COMMUNICATION, INFORMATION & SIGNAL PROCESSING



TRACK # 4 – EMBEDDED SYSTEMS, VLSI & INTERNET OF THINGS (IOT)

TRACK # 5 – ROBOTICS, INDUSTRIAL AUTOMATION & PRODUCT DESIGN

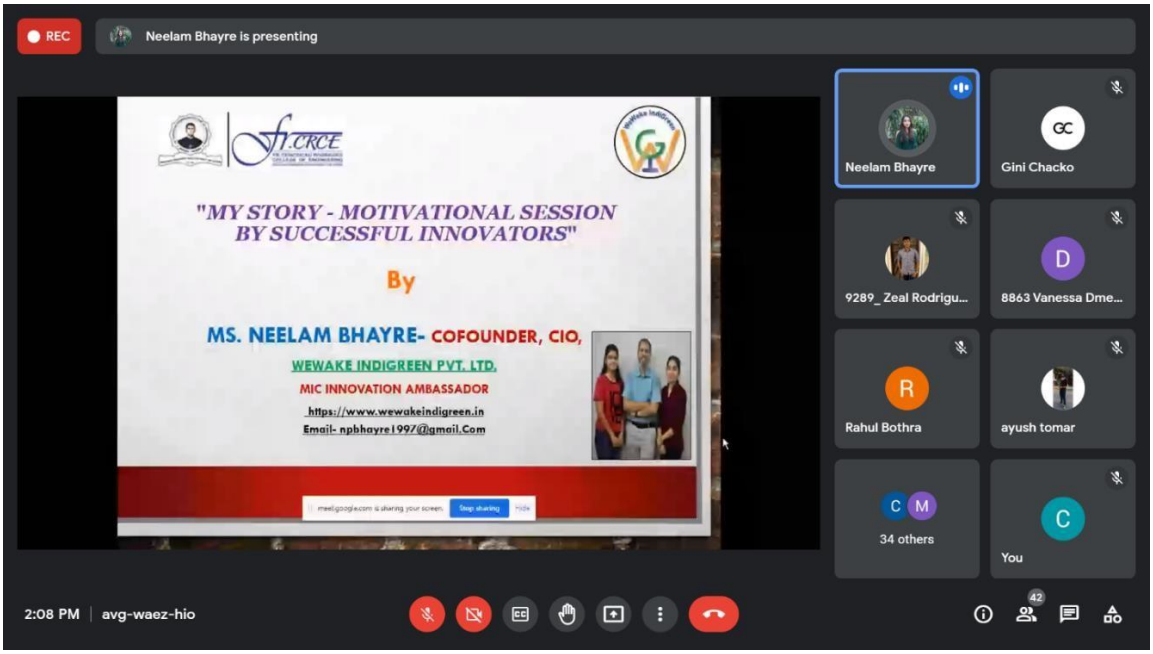
CSI-CRCE organized
My Story – Motivational Session By Successful Innovators

Event Name : My Story – Motivational Session By Successful Innovators

Date **:** 25th September, 2021

Platform **:** Google Meet

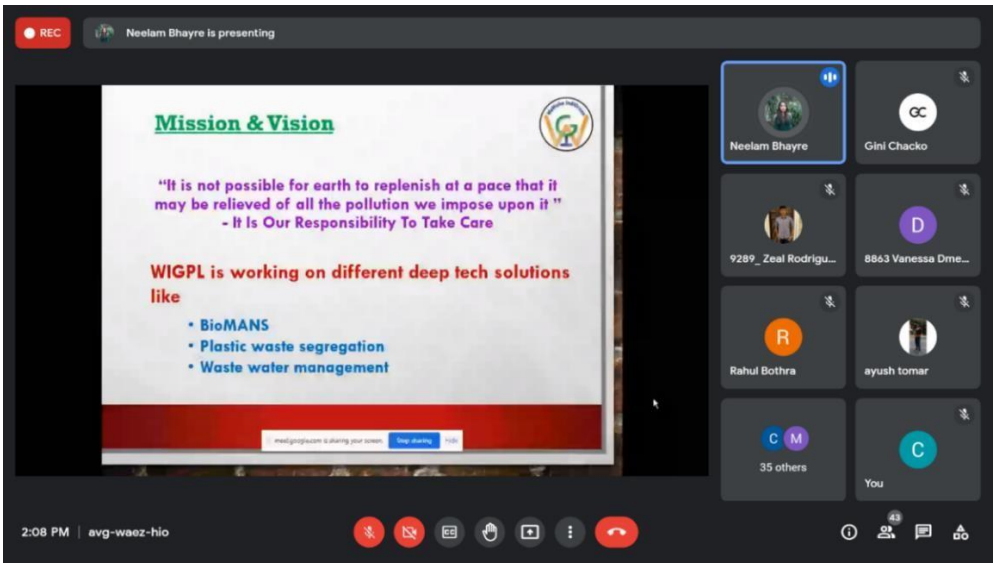
The Computer Society of India(C.S.I.), FR. C.R.C.E. organized a session on My Story - Motivational Session By Successful Innovators on 25th September, 2021. The objective of the event was to enlighten the young minds about entrepreneurship and startups.



A total of 48 students from SE and TE and 2 faculty members attended the meet. The mode of session delivery was Google Meet.

Ms. Neelam Bhayre (speaker)

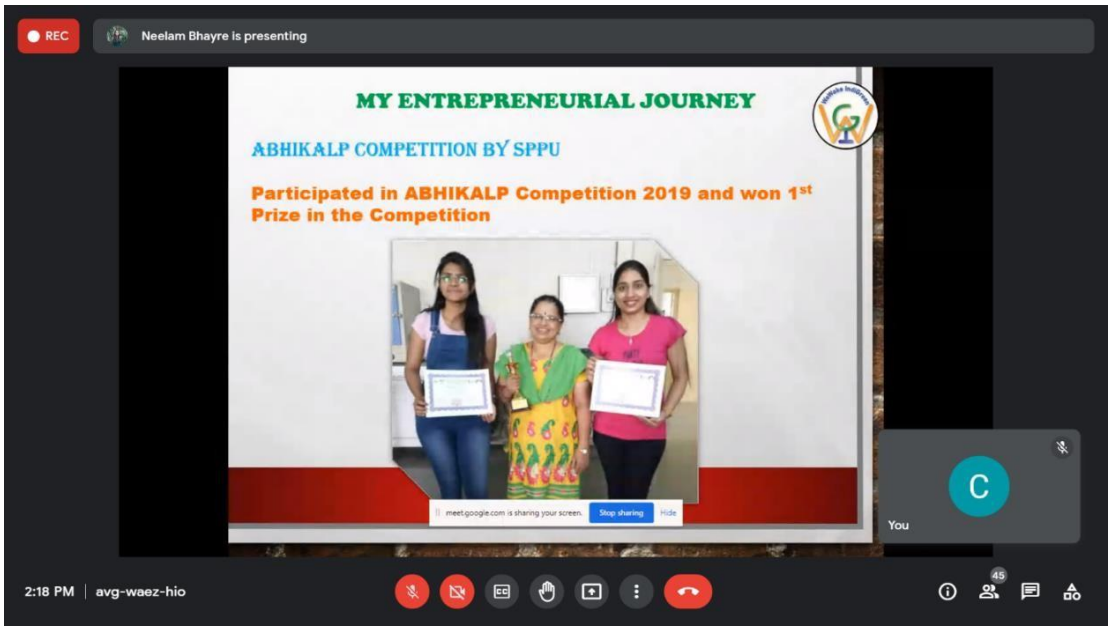
The speaker for the session was Ms.Neelam Bhayre. She is the Co-founder & CIO of WeWake IndiGreen Pvt. Ltd. WeWake IndiGreen Pvt. Ltd. is a technology company developing sustainable solutions from environmental challenges. From Sinhgad College of Science she completed her M.Sc. in Microbiology. She was awarded as topper of the year in 2019 from Sinhgad College of science. For her innovation in 2020, she was also awarded as MIC Innovation Ambassador by the AICTE's MIC Innovation Cell. She has also been awarded as Event manager of the year from NIEM (2018). Ms. Neelam Bhayre has given seminar and entrepreneurship sessions to the different institutions like IIT Mandi, DPU etc.



The session began with Ms. Neelam Bhayre narrating her story of being a successful innovator. She shared the visions she and her team had in their minds since the start for their program and the challenges they faced in their journey. The first half of the session included a detailed explanation about

- The innovation idea and motivational key behind Ms. Neelam Bhayre's program
- The necessary points that one needs to take into consideration while starting out their startups
- How a prototype should be simple and friendly
- How to develop one's innovation by understanding customer's need and the trends from the future
- The Do's and Dont's that play a major role in shaping one's career as an entrepreneur
- Entrepreneurship skills in every student
- The many factors such as framing a convincing pitch, visual design , story delivering pitches, self leadership qualities that can help one become a better speaker in business meetings

In the second half of the session the speaker spoke about her entrepreneurial journey, how her team grasped every opportunity given to them and turned them into successful outcomes. She shared the great knowledge and experience she gained from the "National Boot Camp and Exhibition" program where their innovation was given the rank of 10.

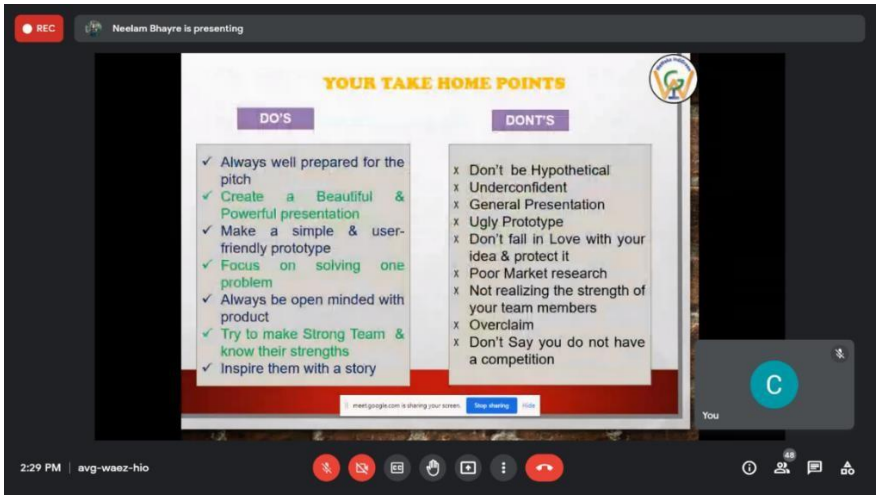


Later Ms. Neelam Bhayer spoke about her learning experience at "International Market Exposure" and "International Startup Exposure" where she and her team got the mentorship to improve their media, market and funding exposure skills as well as how to pitch in 10 secs , how you should maintain your body language in a business meeting, how to frame a convincing pitch etc . which later helped them immensely in their startup.

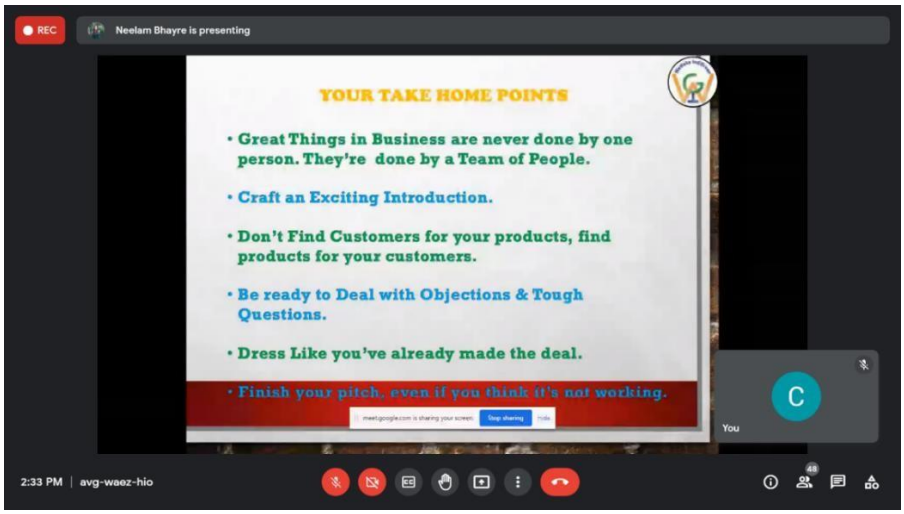
After their successful international exposure programs, the team received many funds and kept walking on their success path. In 2019 Ms. Neelam and her team received their first media coverage for their innovation. Last year the team won the Competition Of Himalyan Startup Trek where they gracefully completed the phase 1. In 2020 Ms Neelam Bhayer got a media coverage by WOMENSHINE for her motivational work.

Towards the end of the session Ms Neelam explained the audience in detail the skills that are essential for anyone who aspire to be an entrepreneur such as maintaining good network connections, discussing innovation ideas with everyone around you in order to get a reality check, to be open minded, to have confidence in their innovation idea, stay updated with the market, as well as the do's and dont's that should be taken into consideration while starting entrepreneurship.

The outcome of the event was that all the students learned a lot about entrepreneurship and it also made the audience realize that the nation needs more job creators than job seekers. The session helped the students understand the skills that play an important role while starting out their own start ups. The session motivated all the students to be an employeer rather than a employee.



A positive feedback was received from all the participants. Participation certificates were also provided to the participants by the CSI-CRCE team. An active participation by the speaker, council members and the participants made the My Story – Motivational Session By Successful Innovators workshop a grand success!



List of Participants

CSI-CRCE organized a session on Cyber Security : Career and Business Opportunities

Event Name : Cyber Security : Career and Business Opportunities

Date : 3rd October, 2021

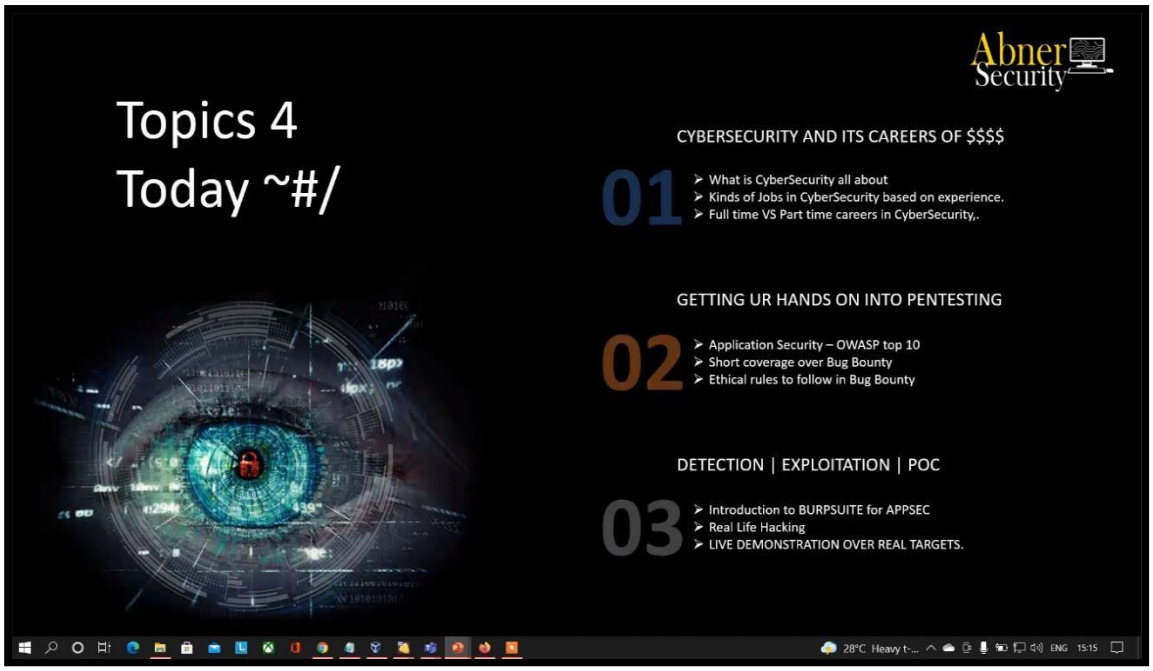
Platform : Microsoft Teams

The Computer Society of India(C.S.I.), FR. C.R.C.E. organized a session on Cyber Security : Career and Business Opportunities on 3rd October, 2021. The objective of the session was to expose the young minds to the entrepreneurship and startup ideas in Cyber Security domain.

A total of 39 students from SE, TE and BE and 2 faculty members attended the meet. Out The mode of session delivery was Microsoft Teams.

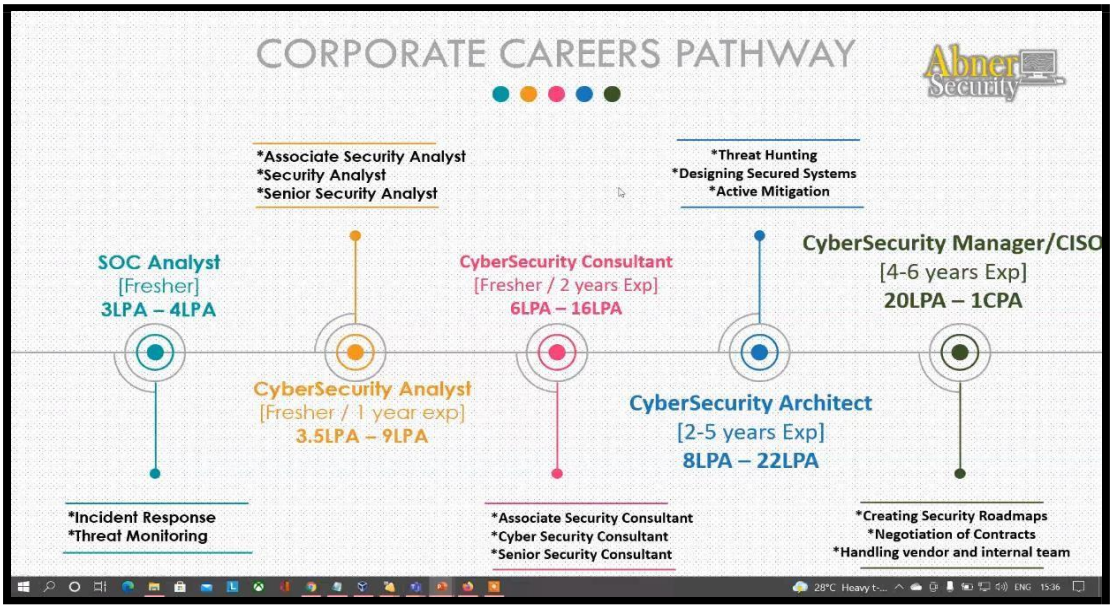
Mr. Shuvamoy Roy (speaker)

The speaker for the workshop was Mr. Shuvamoy Roy. Mr. Shuvamoy Roy is the founder & CEO of Abner Security. Abner Security is a company that has its roots into cyber security and also diversifies into different other sectors of the IT industry. Mr Roy has received his Network Security Specialist certificate from ICSI, UK. He is a Certified Network Security Specialist, Fortinet Network Security Associate and NSE2 Network Security Expert. He has achieved Hall of Fame in Microsoft and SONY, Best startup project of the year from TISL and ECELL ST. XAVIERS and has received various recommendation and appreciation letters from many other companies and IT services. Mr. Roy trains students, provides them with the world class training with real hands on over live websites along with cybersecurity solutions to other companies.

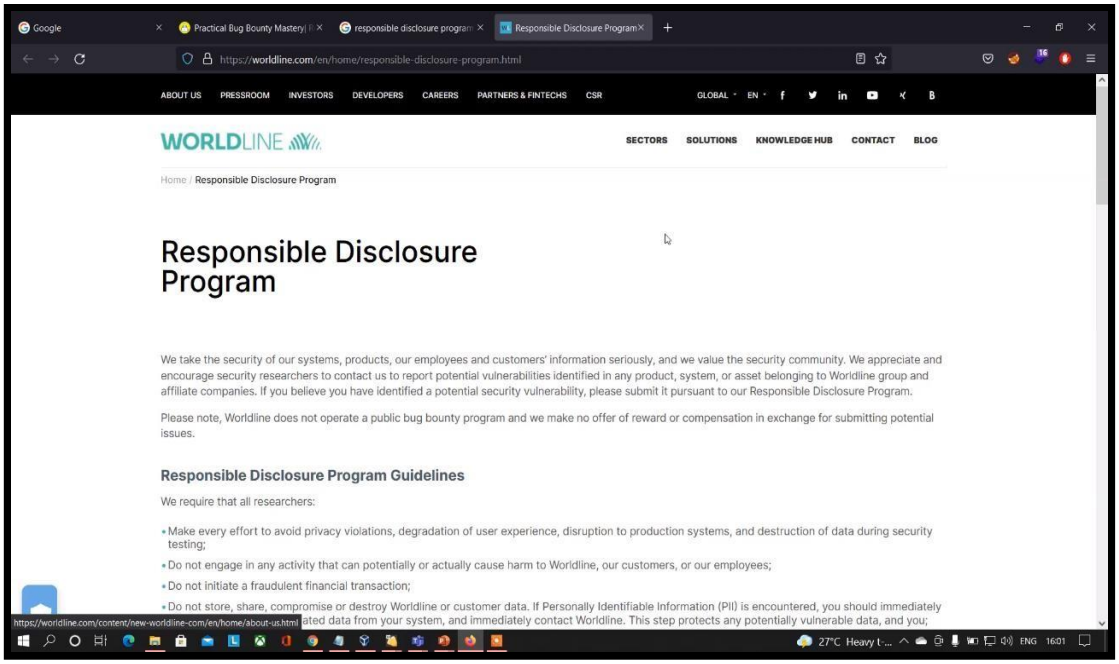


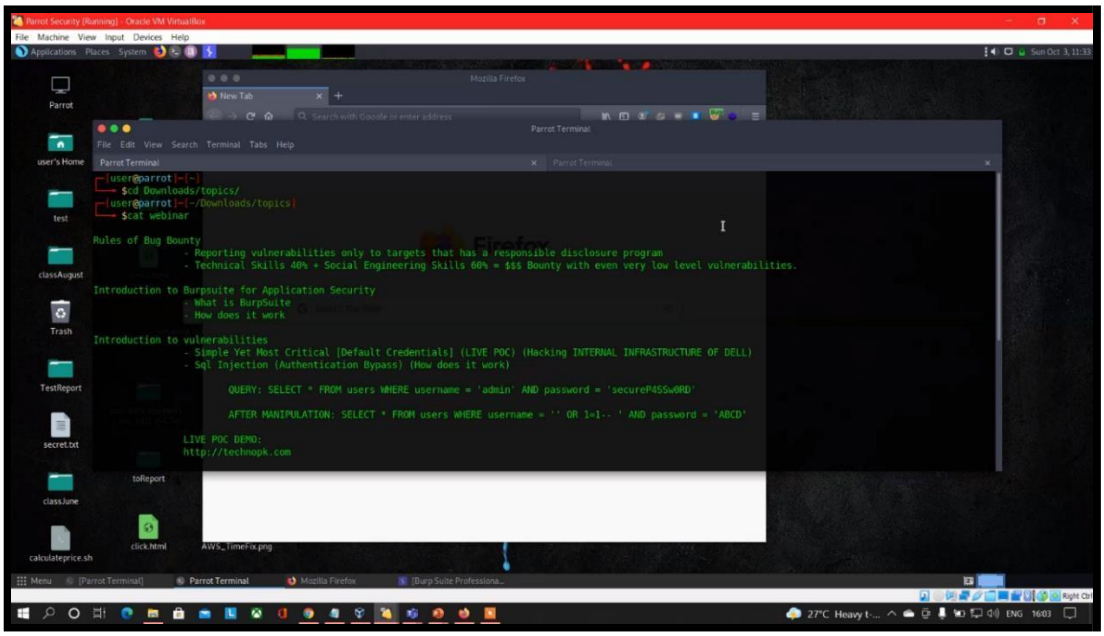
The workshop began with Mr. Shuvamoy Roy talking and explaining about how his company functions. The tasks his company is currently focusing on. He shared about the factors that motivated him to start working in the cyber securitydomain. The first half of the session included a detailed explanation about

- The startup and entrepreneurship ideas that are new and blooming in this field
- The skills that are necessary in an individual to start their own startups
- The business success ratio and opportunities present in this domain
- What is cyber security and hacking in reality
- How cyber security plays a major role in today's world
- The kind of jobs and experience one can get in Cyber Security
- How jobs are structured on the basis of one's experience and skills
- Job scopes in India for Cyber Security professionals
- How is cyber security reshaping the modern society
- What is Pentesting
- What is Bug Bounty Hunting
- The skills needed to become a professional in Bug Bounty Hunting Domain



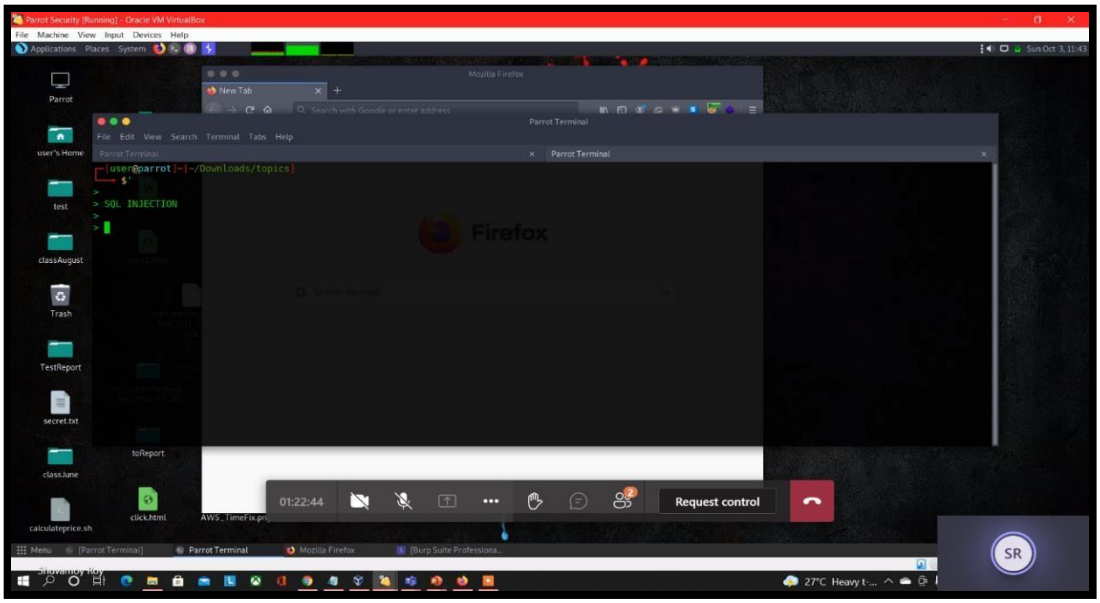
In the second half of the session Mr. Roy explained more about how real life Pentesting and Bug Bounty Hunting are done. The career and job opportunities that are present in Bug Bounty Hunting. He explained about what is meant by critical access in hacking and the ethical rules that should be followed in Bug Bounty Hunting. The speaker gave the audience a brief explanation about "Responsible Disclosure Program".



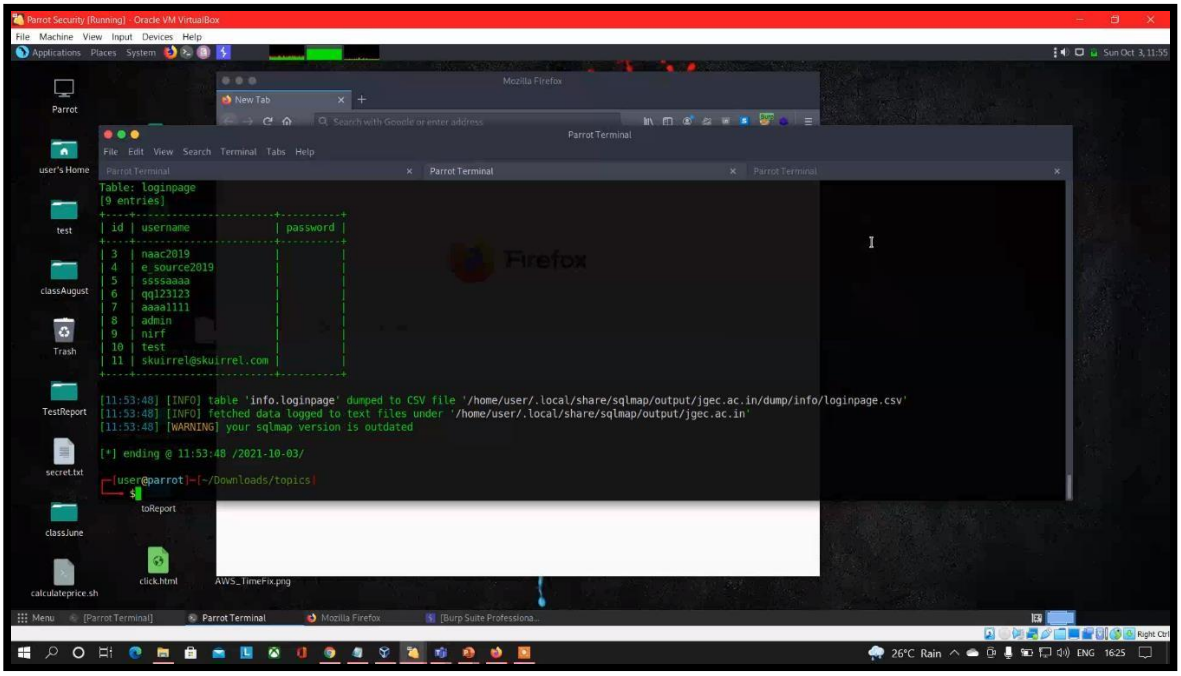


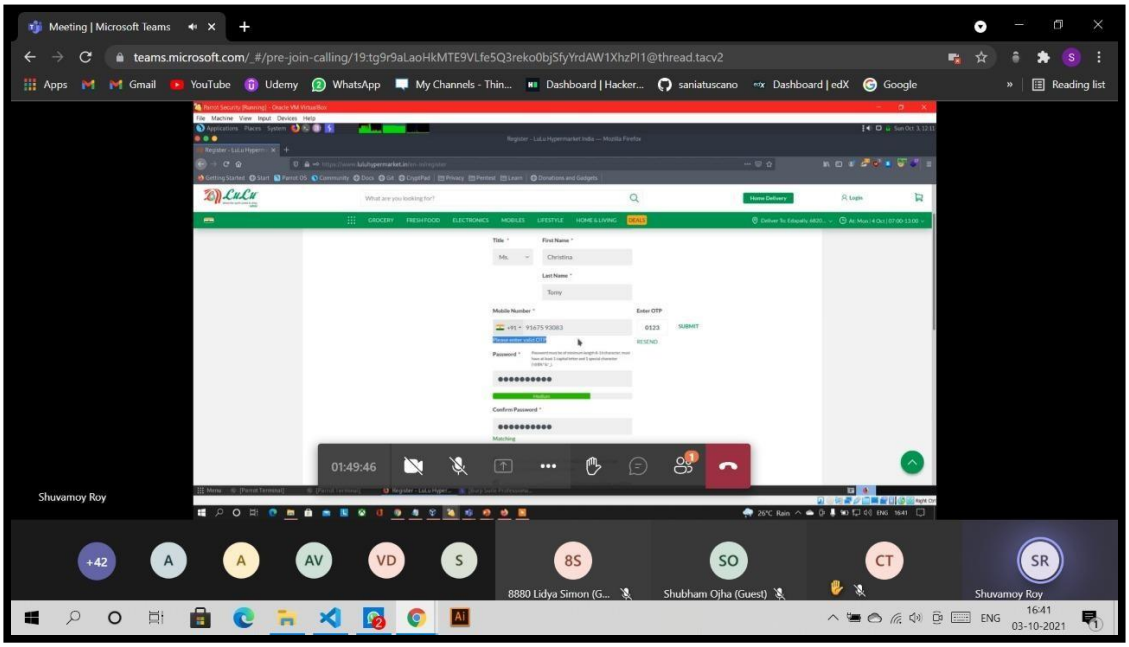
Later Mr. Roy explained in detail about

- The job opportunities that are present in Vulnerability Assessment
- What is SQL injection
- How does SQLmap work
- Burpsuite for Application Security and how it works
- What are vulnerabilities
- How vulnerabilities are discovered, checked and fixed in real life sites

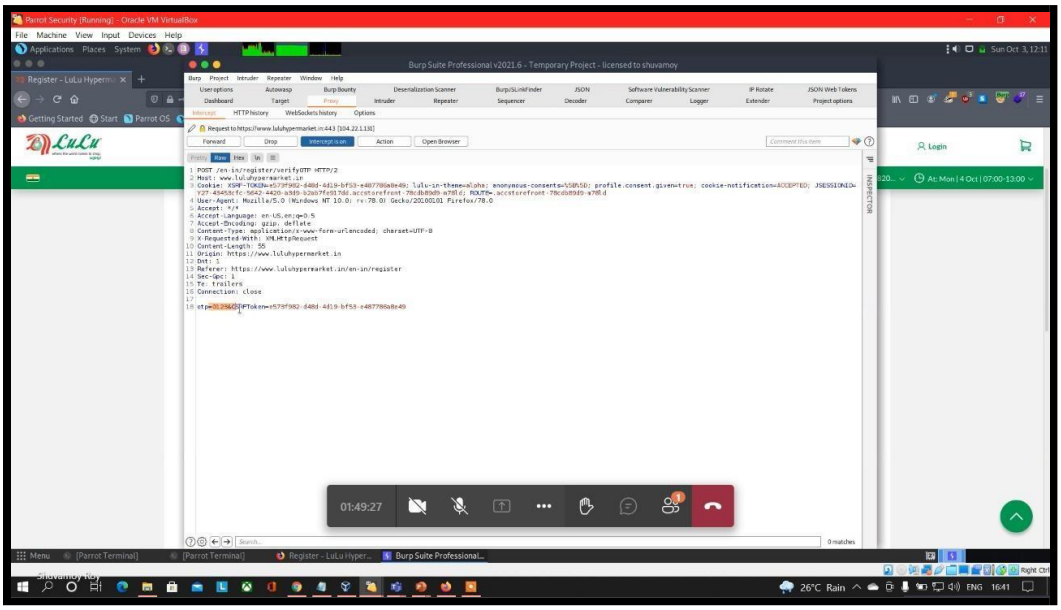


Mr. Roy used the online website of the "Jalpaiguri Government Engineering College" to explain how SQLmaps are used in penetration testing to detect and exploit SQL injection flaws. He used live examples to show how SQLmap automates the process of detecting and exploiting SQL injection, as well as how SQL Injection attacks can take control of databases that utilize SQL.





Towards the end of the workshop the speaker explained about 2 factor authentication through the online supermarket login verification example. While explaining this example the speaker took the help of the attendee for better understanding. He explained the other vulnerabilities that are found in real life sites. The speaker gave many other web application examples. He briefly explained how each of these skills play a major role in shaping one's career and creating more future startup and entrepreneurship opportunities for them.



The outcome of the workshop was that all the students learned a lot about the startups and business opportuinites in cyber security and hacking domain. The session helped the students understand the skills that play an important role while starting out their own start ups. It enlightened the students about what theyshould do in future and that to be a successful entrepreneur they need to begin right from the college days. The session motivated all the students to start developing their own ideas for startups in this domain.

A positive feedback was received from all the participants. Participation certificates were also provided to the participants by the CSI-CRCE team. An active participation by the speaker, council members and the participants made the Session On Cyber Security : Career and Business Opportunities a grand success!

CSI-CRCE organized
Workshop on Prototype/Process Design and Development - Prototyping

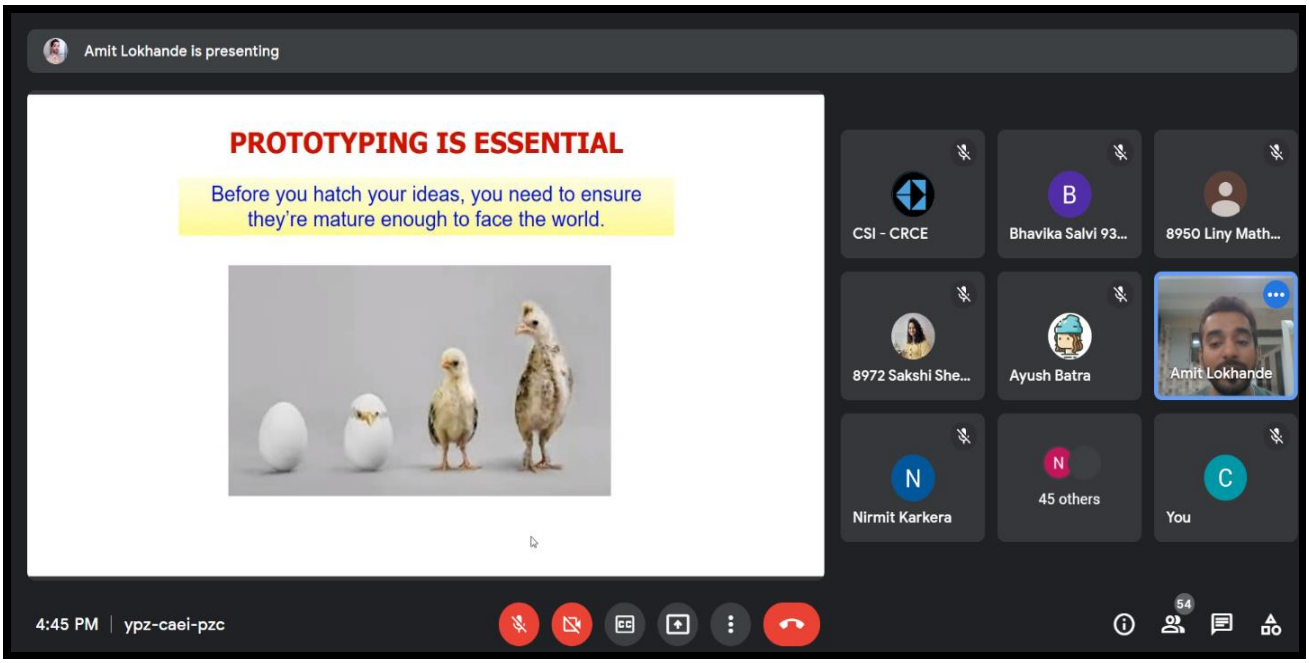
Event Name : Workshop on Prototype/Process Design and Development - Prototyping
Date **:** 9th February, 2022
Platform **:** Google Meet

The Computer Society of India (C.S.I.), FR. C.R.C.E. organized a Workshop on Prototype/Process Design and Development - Prototyping on 9th February, 2022. The objective of the event was to help the students to understand what really is process design and development (Prototyping) and also to enlighten the young minds about entrepreneurship and start-ups by developing their own ideas and achieving success in it.

A total of 56 students from FE, SE, TE and BE attended the session. The mode of session delivery was Google Meet.

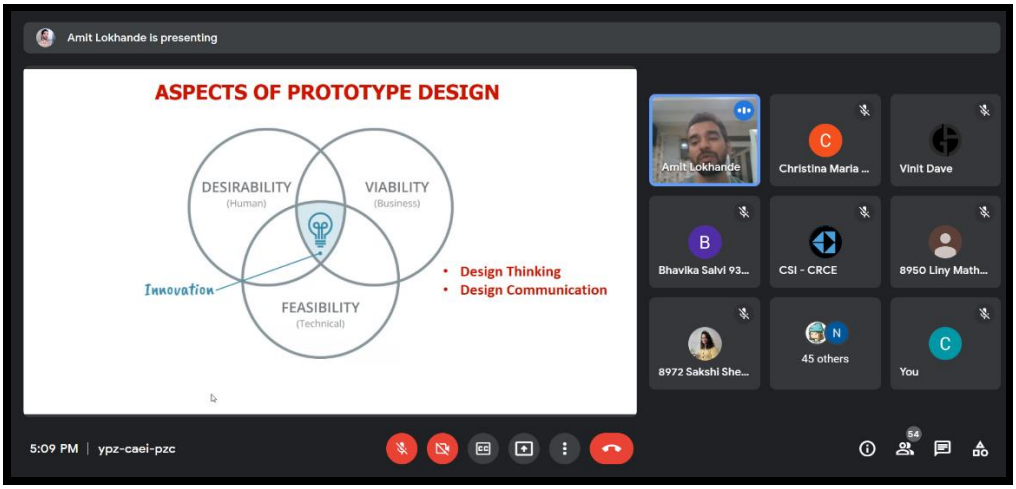
Mr. Amit Sanjay Lokhande (speaker)

The speaker for the session was Mr. Amit Sanjay Lokhande. Mr Amit Sanjay Lokhande is currently pursuing PhD Tech. Pharmaceutics at Department of Pharmaceutical Sciences & Technology, Institute of Chemical Technology (ICT), Mumbai. His research involves the development of innovative and affordable targeted drug delivery systems against intracellular infections and Innovative strategies for tackling antimicrobial resistance. Another area of his research is the point of care, affordable diagnostic systems for human and veterinary use. He is a nominated AICTE/MHRD's Innovation Ambassador Govt. of India. Innovator cum Entrepreneur, supported through India- South Korea Startup Exchange Program 2020, & recipient of Technology Incubation Start-up Grant 2020 from MHRD Govt. of India. Amit is an inventor of 5 Indian patent applications, published 3 articles and 3 book chapters. Amit also received over 40 awards and recognitions during his PhD tenure and his achievements received news and media attention. Amit has mentored over 15 undergraduate and postgraduate research projects and is a recipient of Special research mentor Award 2017 and 2020 from Marathi Vidnyan Parishad Mumbai India. Amit also delivered over 20 invited talks at various institutions in India and motivating many student innovators, entrepreneurs in association with Institution Innovation council.

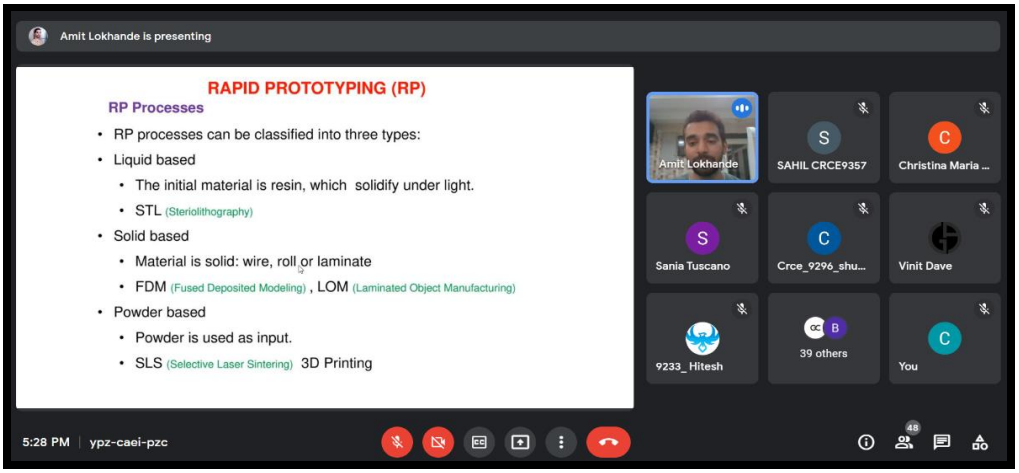


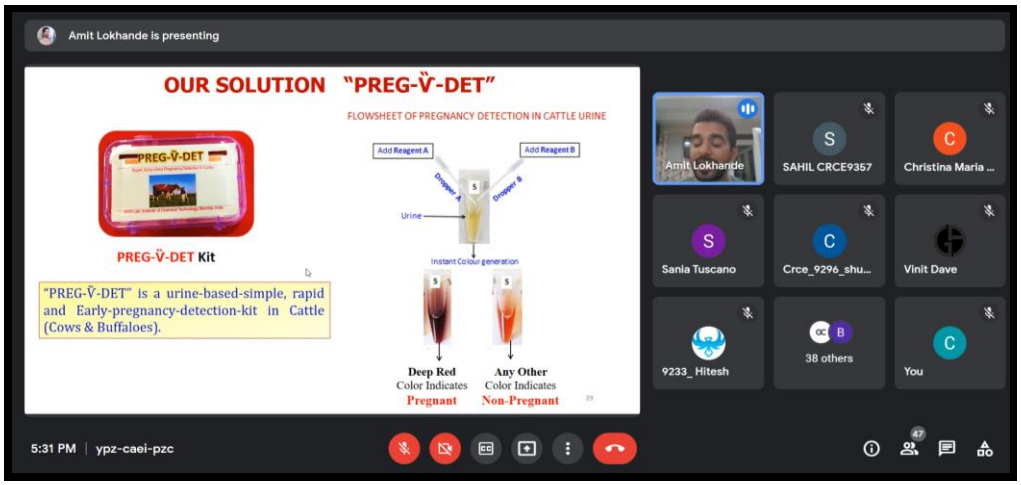
The session began with the speaker explaining in detail about

- What are the requirements needed in formation of prototype designing
- Stages of turning an idea into an innovation
- What is prototyping
- What is the need of prototyping
- How a prototype should be simple and user friendly
- How to develop one's idea to a business idea and finally achieving a market place (Building things which people love)
- A Business Idea example (Sugar Level Calculating Meter)
- Prototyping should not be very costly and time consuming
- How to develop one's innovation by understanding customer's need and the trends from the future
- Prototype design should not have many technical aspects
- How creativity plays an essential while working on prototype
- What is product

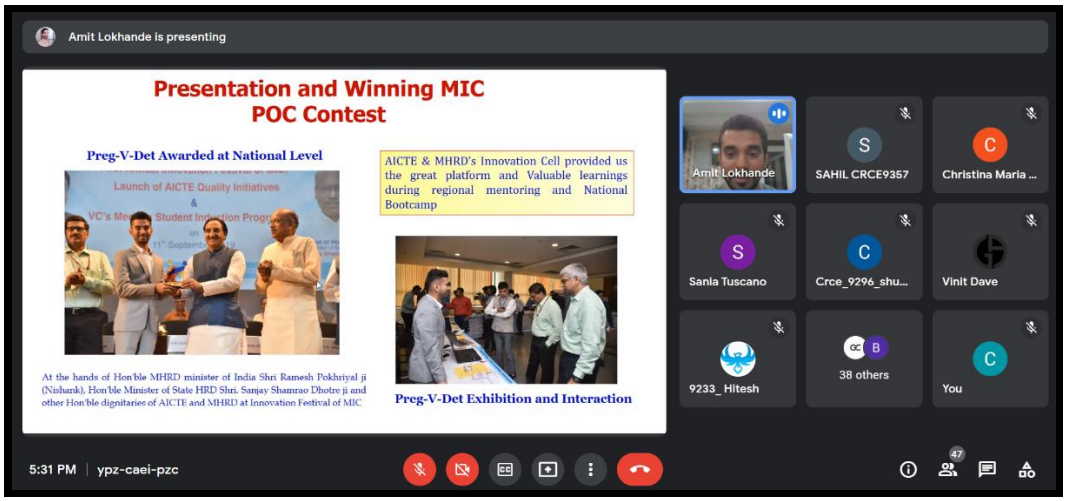


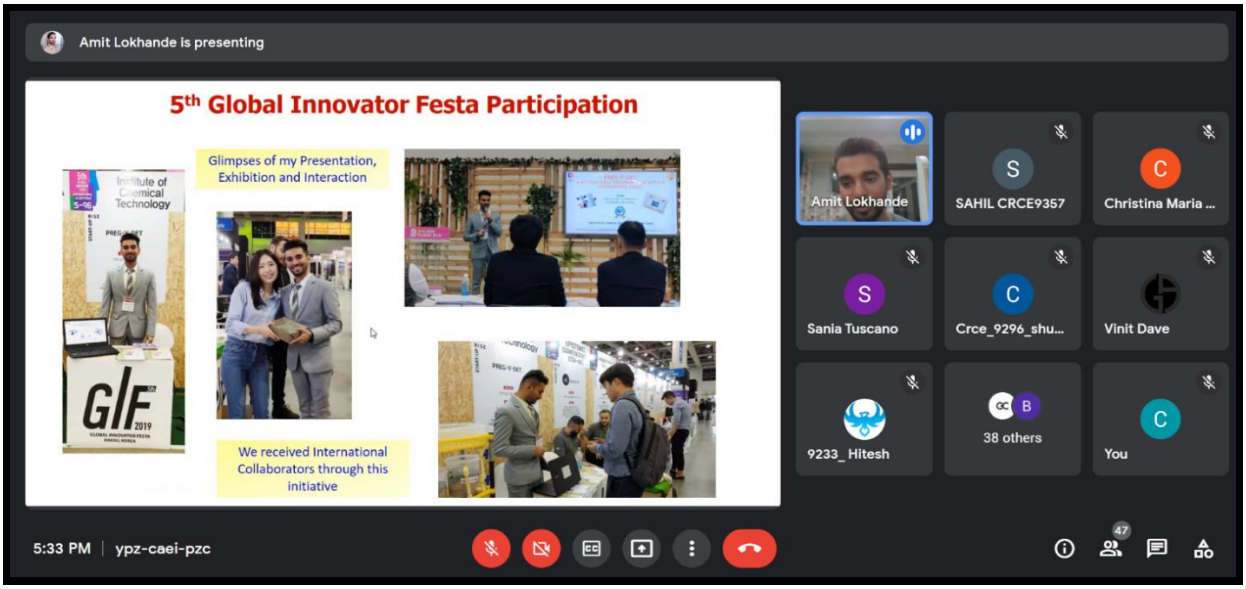
- How has prototype designing evolved each passing decade – (Used the example of Prototype design of a mouse)
- The stages of prototyping – Stretching, Creating a 2D version of the design in any software platform, Giving the design a physical form
- Aspects of Prototype design
- Importance of Prototype Design
- Important points to be considered while developing a prototype
- Steps of Engineering a Prototype through design
- Rapid Prototyping
- Various innovation design engineering organization (IDEO) methods
- The Do's and Don'ts that is to be taken into account while developing a prototype





In the second half of the session, the speaker motivated everyone by stating his journey of entrepreneurship. The speaker spoke about the product he has developed, Preg-V-Det which is used to improve milk profitability using on-farm super-simple early urine pregnancy diagnosis in cattle. He also shared his wonderful experience at the 9th Global Commercialization Workshop, about the South Korea start-up ecosystem, about his participation at the 5th Global Innovator Festa, and about his learnings from the global communication expert and coach for investor pitch. He has also appeared and has gained recognition in various media platforms for his renowned work. The speaker also spoke about his many other awards and achievements such as "Youth Inspirator Award 2018", "Special Honour For Research Performance", "Special Research Project Mentor Award 2017","Falling Walls Lab India 2018", "1st Prize at NanoSparX-2017", "Best-Able 2016 Award", which greatly motivated the young minds to also take such challenges in life.





At the end of workshop, the speaker motivated all the students to never give up on their innovative ideas and focus on giving those ideas a proper execution. The speaker later cleared all the doubts that the students had in their minds and encouraged everyone to move ahead with a positive mindset. Some of the questions asked included what comes after developing a prototype, how to collect funding for a project, are there any forums for fund collection, how can we beginners start prototyping, if money is a hindrance while developing a prototype how to go about it, how do you take your products negative feedbacks as (before it's a success), etc.

The outcome of the event was that all the students learned a lot about entrepreneurship and it also made the audience realize that the nation needs more job creators than job seekers. The session helped the students understand the skills that play an important role while starting out their own start-ups. The session also helped the students realize that college life is the best for start-ups and that a small idea can also be an excellent start-up. It enlightened the students about what they should do in future and that to be a successful entrepreneur they need to begin right from the college days. The session motivated all the students to develop their own innovative ideas in order to build their own prototype.

A positive feedback was received from all the participants. All the students were thrilled to learn and understand about prototyping from Mr. Amit Sanjay Lokhande. Participation certificates were also provided to the participants by the CSI-CRCE team. An active participation by the speaker, council members and the participants made the workshop on Prototype/ Process Design And Development a grand success!

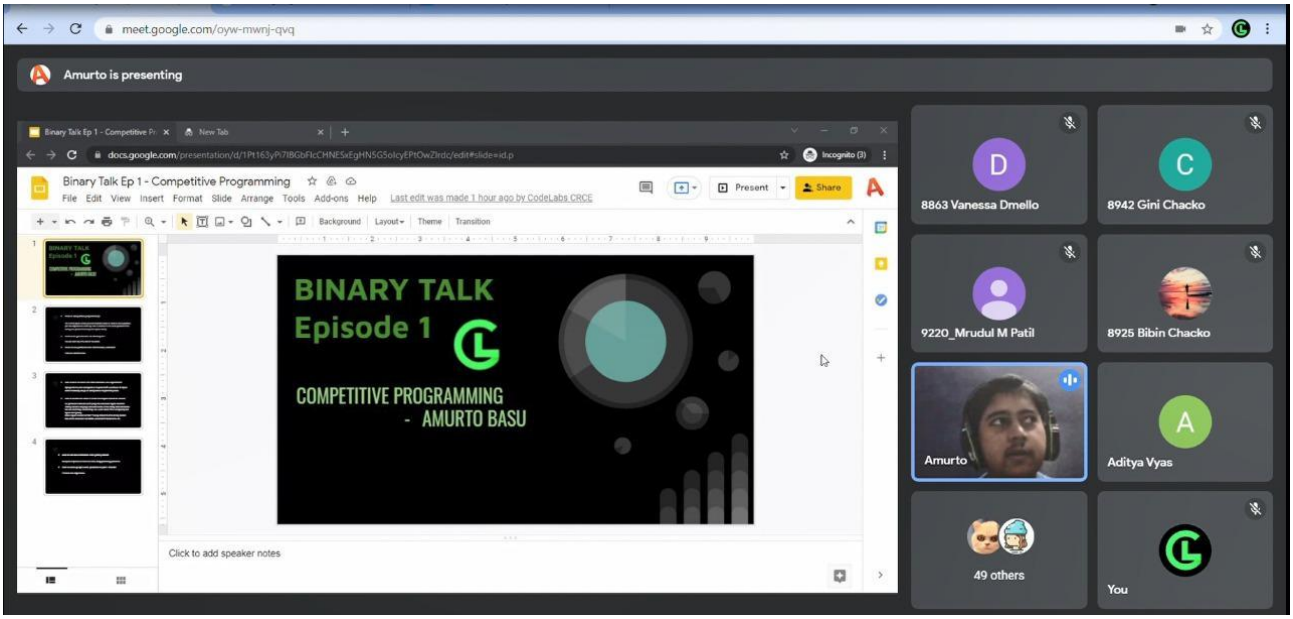
CodeLabs CRCE

Binary Talk Episode: 1
Competitive Programming with Amurto Basu

Mumbai, 26th September 2021

We, CodeLabs CRCE, the forefront technical council of Fr. Conceicao Rodrigues College of Engineering, works for the development of students' logical thinking and to increase their technical skills. In order to fulfill our goal, we conducted the most awaited Binary Talk Event Episode: 1 on Competitive Programming on 26th September 2021 from 4 to 5 pm. Amurto Basu, Candidate Master on CodeForces and owning 6 stars on CodeChef was the speaker of the event.

We hosted this event for the second and third year students to encourage them to start competitive coding. Such events motivate students to think unorthodoxically and come up with new techniques to find solutions to existing problems.

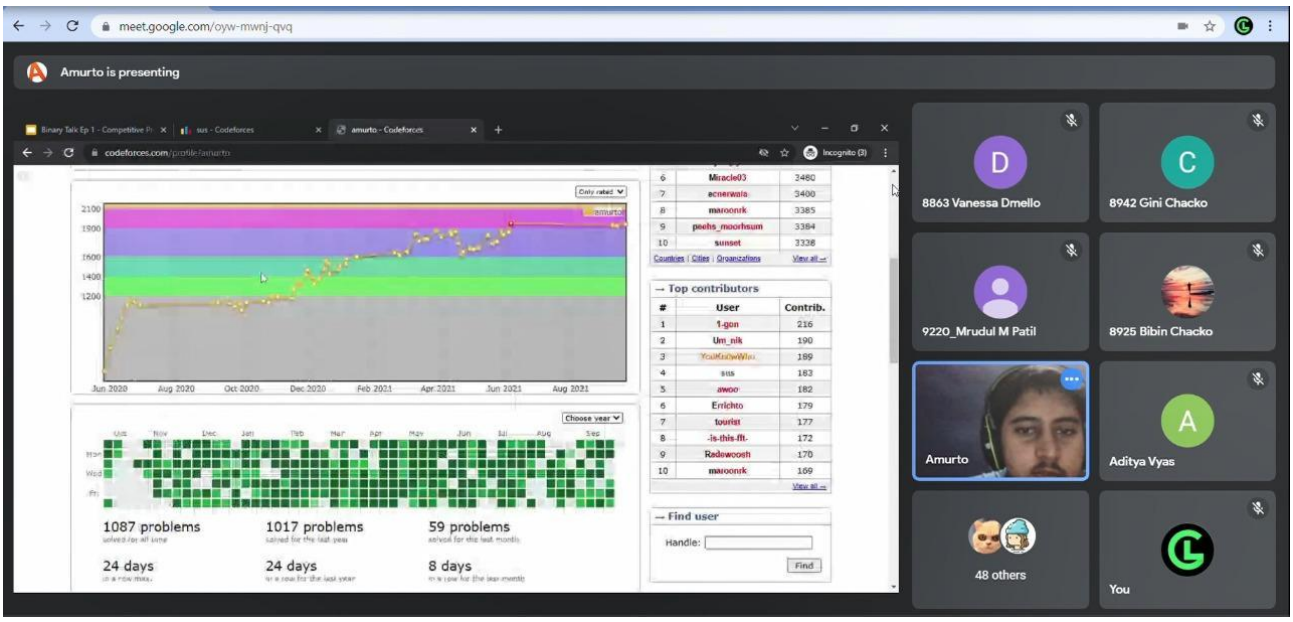


Ms. Vanessa D'mello, Vice Chairperson of CodeLabs CRCE started this session with a brief introduction of the speaker. The speaker then gave a quick gist of the topic of what Competitive Programming actually is. It's a mind sport, where you can turn discrete ideas to code to solve

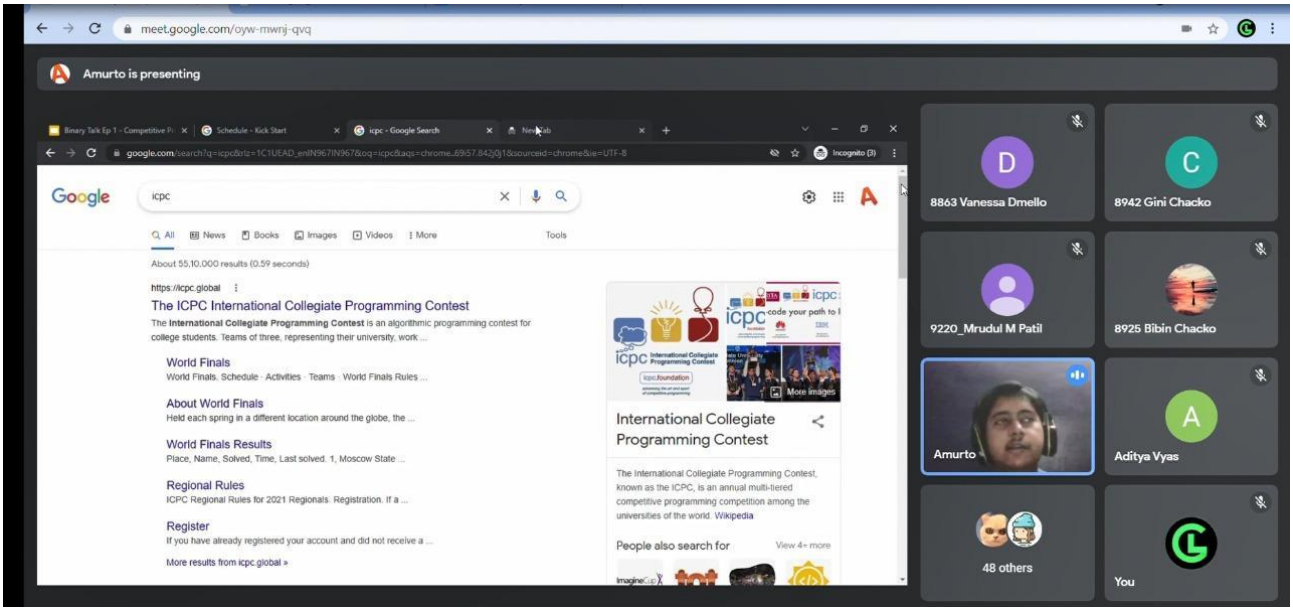
puzzles. You are expected to come up with a solution in the least possible time using your problem solving and logical ability. And the best time to start competitive programming is right now. Earlier the better. He discussed the different programming languages and the advantages and disadvantages of the same. He also spoke about the importance of data structures and algorithms and the ability to apply these concepts in the problems given. Some of the websites for reference are cp-algorithm.com, Competitive Programmer's Handbook, Geeks for Geeks, Blogs on Competitive Programming sites, CSES website to start from the beginning, Hackerearth (Codemonk), etc.

The session spoke on the importance of competitive coding in the corporate world and the importance of thinking innovatively. The session gave the students an idea of how to start competitive coding and the resources required to get better in coding. LeetCode is one of the websites for coding interview preparation. Software companies generally have a competitive coding round where students are judged on the basis of innovative solutions.

Some of the websites for competitive programming are Codechef, Atcoder and CodeForces. Logging into these websites and practicing will give you an idea how the problems are framed. Achieving rank and points will motivate y'all to keep going on. Adding to it, the speaker said it is not always the case that you will be able to solve all the problems. You should not get demotivated if you are not able to solve or if it is taking time. Last not but not the least, don't be jealous if you see others solving a problem very easily. Try harder! Giving an example of his own journey, he showed the graph on CodeForces which depicted his coding growth in one year. For three to four months the growth was constant but practicing more and more accelerated his growth.



Moreover, participating in Coding Contests helps increase confidence. Few of the coding contests conveyed by him were Google KickStart (Round A,B,C,D) , ICPC (International Coding Programming Olympiad) which consists of 3 team members. The rounds conducted are as follows: 1. Online qualifier 2. On-site competition in India 3. On-site Asia West competition 4. World Finals.



Question and Answer session at the end are as follows:

1. Which data structures are frequently used in contests?

A. GCD, DFS, BFS, Binary Search, Number Theory, Combinations.

2. How much time should we dedicate to a particular problem?

A. Initially, you may take more time but practicing more and more will improve your coding skills.

3. Is participating in coding competitions essential?

A. Yes

4. Is LINUX important for competitive programming?

A. No

5. How many hours a day?

A. Depends on your capability.

6. Which language is better?

A. You can practice coding in any language you are comfortable with.

7. Which YouTube channels would you recommend?

A. 1. Colin Galen
   2. Errichto
   3. Utkarsh Gupta
   4. CodeForce EDU – Good amount of videos

8. Should we study any Mathematical Concepts before starting competitive programming?

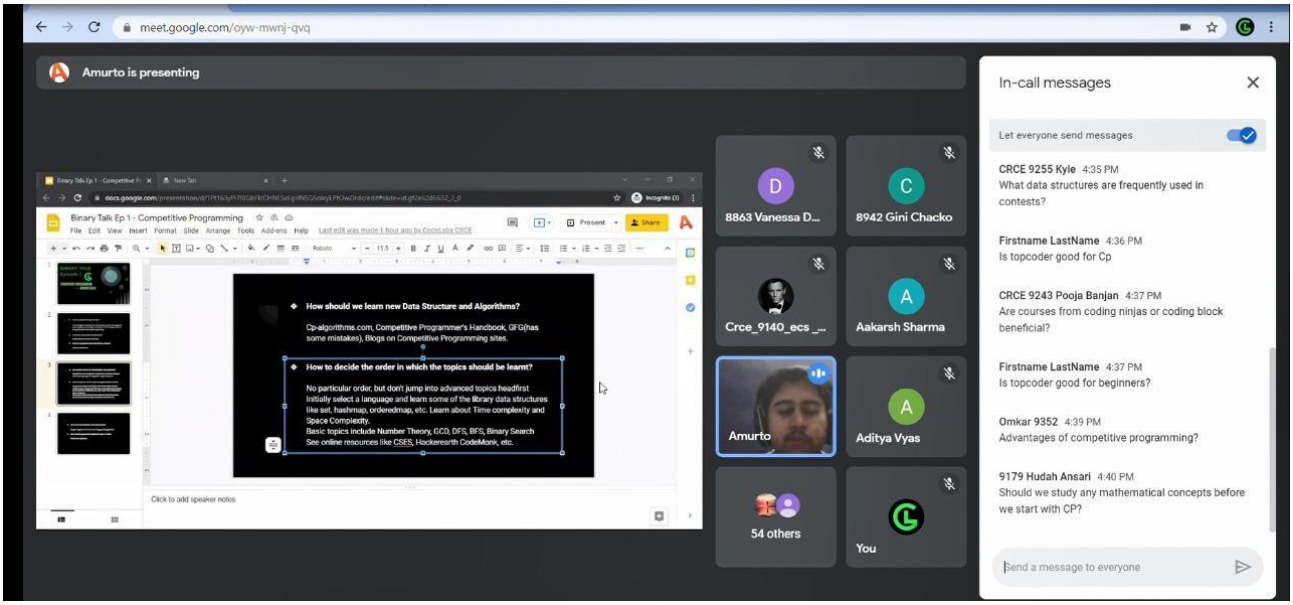
A. Discrete Structure subjects in your curriculum will be enough.

9. Is coding important to get internships?

A. Some of the companies prefer to take a test on coding.

10. Are courses from Coding Ninjas or Coding Block beneficial?

A. Particularly, No.



The objectives of the event were:-

1. to help students begin competitive programming and sharpen their coding skills.
2. to prepare students for placements in top companies for software development roles.
3. to encourage students to think innovatively and to find new solutions to the existing problems.

At the end of the session Mr. Aakarsh Sharma, SE Representative of CodeLabs CRCE gave a Vote of Thanks to the speaker. A total of 80 enthusiastic participants attended the Binary Talk Event. This session helped them to get insight into corporate coding. Question and Answer sessions at the end helped students clear their doubts.

We got a great response from the participants and a sense of encouragement to conduct more such events in the future.

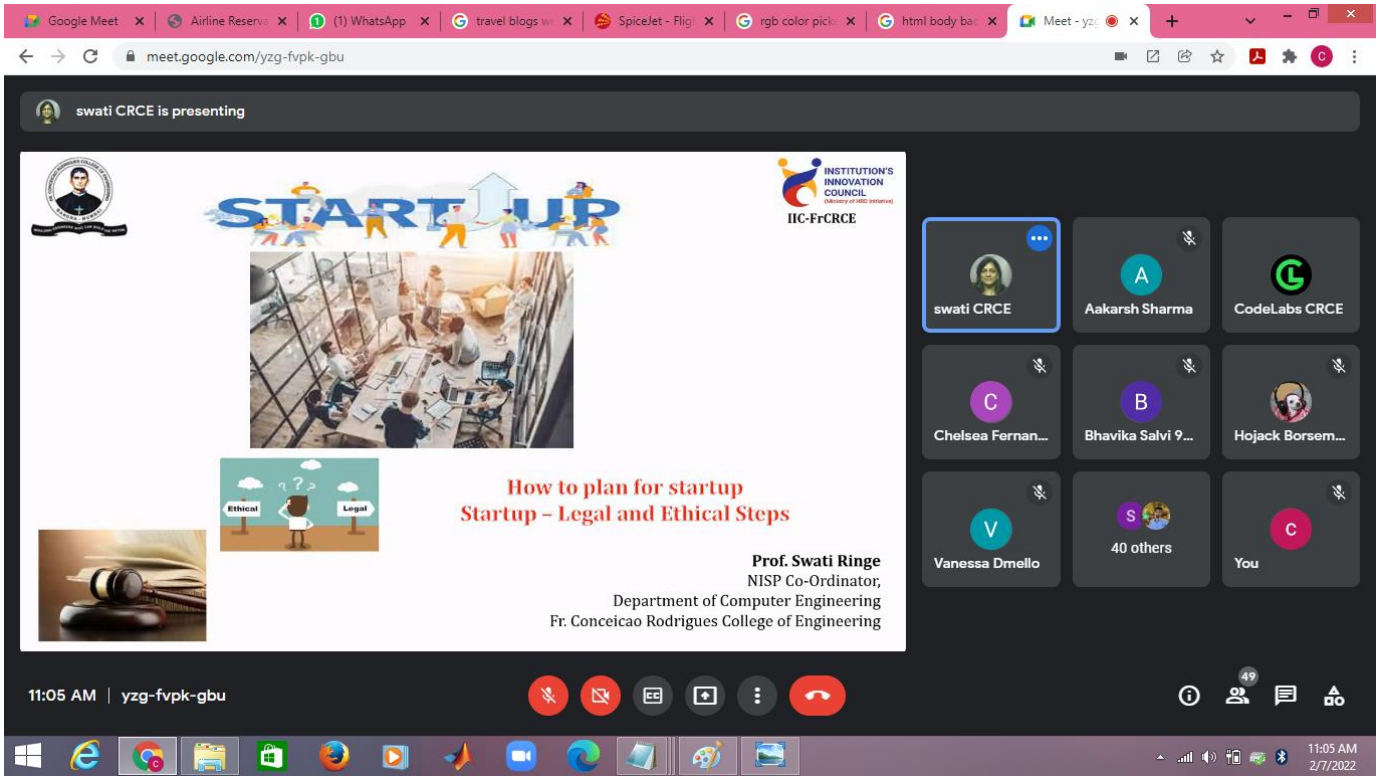
Webinar on How to plan for Start-up and Legal & Ethical Steps

Event Name: Session on How to plan for Start-up -and Legal & Ethical Steps
Date : 7th February 2022
Platform : Google Meet

We, CodeLabs CRCE, technical council of Fr.CRCE organized a webinar on how to plan for Start-up and Legal & Ethical Steps on 7th February 2022 from 11 to 12 pm. Prof. Swati Ringe, NISP Co-ordinator, member of Institution Innovation Council (IIC) and Assistant Professor of Fr. CRCE was the speaker of the webinar. The objective of the event was to provide students an insight of Legal and Ethical Steps to be followed while running a start-up. Also to enlighten the young minds about entrepreneurship and startups by developing their own ideas and achieving success in it.



Mr. Aakarsh Sharma, SE Representative of CodeLabs CRCE started this session with a brief introduction of the speaker. The speaker then gave a quick gist of the topic. Startups evolved in the year 2008. Due to recession, IT companies fired their employees, due to which the concept of startup started growing. Companies like Policy Bazaar, Zomato, Flipkart and many more startups came into limelight. Real boost to start-up approached when our Honorable PM – Narendra Modi launched the Start-up India Initiative in January 2016. Policy to provide a legal framework for startups was published. This initiative aimed to build a robust startup ecosystem and transform India into a country of job creators instead of job seekers.

According to startup founders, there are several key features of startup:

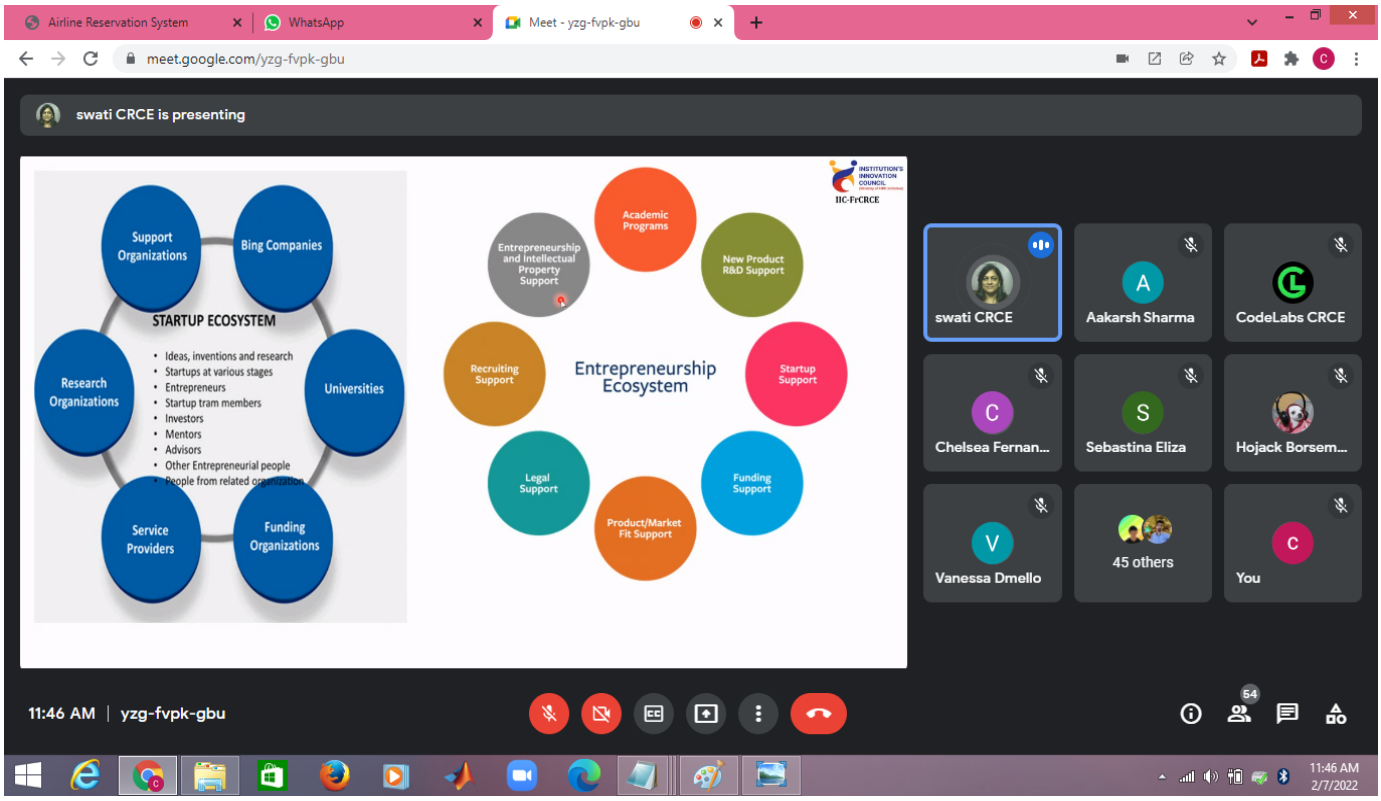
- Risk Taking
- Global Presence
- Atmanirbhar Bharat – Make in India initiative
- Improving Digitization
- Implementing idea and converting it to value

Startup is going to be there in the next decade! Many Unicorns have come up recently. Meesho, CRED, Groww, PharmEasy, ShareChat and Gupshup are few of the startups in Unicorn Club in 2021. India continues to be the third largest startup ecosystem in the world today. Three pillars of startups to be followed are:

1. Simplification and Handholding
2. Funding Support and Incentives
3. Industry-Academia Partnership and Incubation

The National Innovation Contest provides a 360-degree cycle of learning and understanding the process of innovation and start-up. It is designed in such a way that each team will traverse a path from problem identification and Ideation to building models and finally entering the phase of enterprise development in a period of one year.

Ensuring business ethics while running a startup is essential. At every point in life, decisions have to be taken on the basis of ethics and values. In 2016, an IIT Graduate from Kharagpur developed a Super Tatkal App for faster ticket booking IRCTC platform. It had 1 lakh users and he generated revenue through the pro version of the app. As the software was illegal, an IIT Graduate was booked.



Right approach:

1. Identification of problem
2. User Acceptance
3. User friendly app
4. Target market was huge

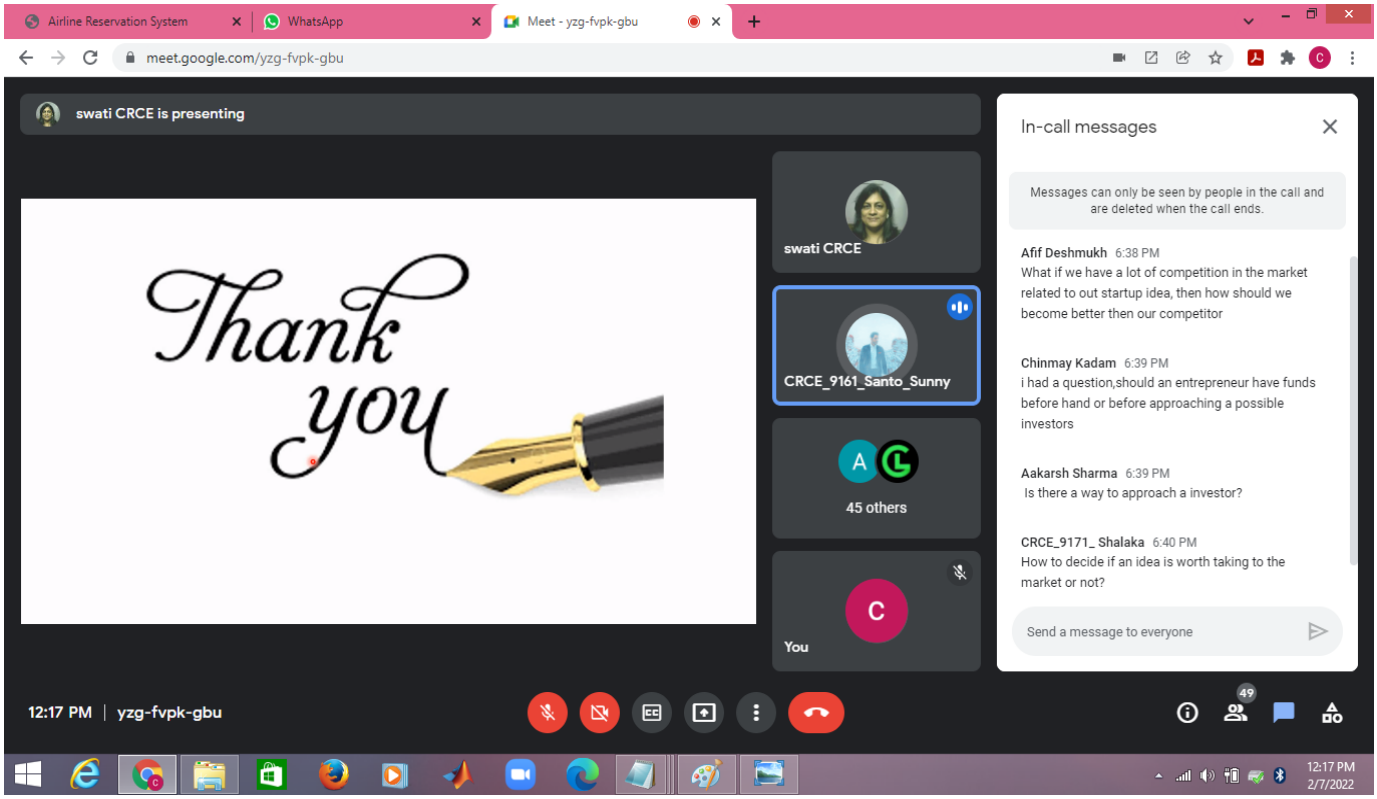
5. Real time problem solving

Wrong Approach:

1. Did not take legal expert advice
2. Ignorance of Law
3. No proper Approval

In a Startup journey, the founder's dream is to be a Unicorn. It is essential to be legal and ethical for a successful startup.

At the end of the workshop, the speaker cleared all the doubts that students had in their mind. This event helped students to improve their mindset and put their best foot forward to achieve their dreams.



A total of 55 students from SE, TE and BE attended the event. The mode of session delivery was Google Meet. A good feedback was received from all the participants. An active participation by the speaker, council members and participants made the webinar a grand success!

WEBINAR REPORT: AWARENESS OF HIGHER STUDIES BY THE GYAN FOUNDATION
DATE: 05/03/2021

Report:

Name of the event:	**Awareness of Higher Studies**
Date of event:	*March 05th 2021, 5.00PM-6.15PM*
Platform of the event:	*Google Meet*
Sponsoring organisation:	*The Gyan Foundation and E-Cell*
Total number of participants:	55

The webinar organized by E-CELL FRCRCE was a live session for "**Awareness of Higher Studies**" conducted by an eminent speaker **Mrs. Saraswati V** from The Gyan Foundation, on March 05th. The objective of this webinar was to make students aware of the career opportunities available after their graduation specifically for pursuing their masters abroad in countries like the USA and Canada. Ma'am talked about information that can be obtained from various websites, blogs about various universities. Further, she highlighted that it is essential to do well at academics to get into a better university. There are standardised tests like the GRE that deal with Maths, English, Analytical thinking and Logical aptitude. It would be better if students can maintain a decent GPA throughout their engineering. Adopting a right strategy is the key to ace, she said, activities on resume, profile building, internships, published papers should be an add on to a student to get into MS. Students should plan out their finances with parents and if need be take funding from financial institutes.

It was an exceptionally brilliant and highly informative session. It was concluded by a Q&A phase where students expressed their doubts and concerns about their further education and all their doubts were gracefully answered by Sarawati Ma'am.

SESSION REPORT: LEAN START-UP AND MINIMUM VIABLE PRODUCT BY MR DINESH ISRANI

DATE: 05/05/2021

Report:

Name of the event:	***LEAN START-UP AND MINIMUM VIABLE PRODUCT***
Date of event:	*May 05th 2021, 3:30PM-5.20PM*
Platform of the event:	*Google Meet*
Sponsoring organisation:	*Naman Angels India Foundation, IIC-FrCRCE and E-Cell*
Total number of participants:	45

The session organized by E-CELL FRCRCE was a live session for "**Lean Start-up and Minimum Viable Product**" conducted by eminent speakers **Mr. Gunarjun Chawla** and **Mr. Dinesh Israni** from Naman Angels India Foundation, on May 05th.

Firstly, Mr. Gunarjun Chawla expressed his views and discussed his entrepreneurial journey. He started his entrepreneurial journey from the Start-up club of SPIT College for short distance travel by using the public bicycle sharing system in UK and France. Another one was the technology and automation healthcare at Cooper Hospital. The important point he stated was "The need to help people and learn from them".

The next speaker, Mr. Dinesh Israni spoke about Business Modelling and the steps involved. He used graphical representation in blocks to explain the Business Model Canvas. Customer segments, Different types of markets for customers, Value for the Product, Distribution Channels, Customer relationships, Revenue Streams, Key Resources, Key activities, Key partners, Cost structure, Seed funding for investment were the topics discussed in the Business Model. Students can register at Start-up India Registration Center. He also highlighted the need for startups among students as a lot of funds are being allocated and taken back as there are no good takers though there is a lot of support available. The team should be dedicated and focused while building up a start-up even though the idea is not very strong.

It was a highly informative and interactive session. It was concluded by a Q&A phase where students expressed their views about Start-ups and their doubts were answered by Mr. Dinesh Israni sir.

Workshop REPORT: DESIGN THINKING FOR WEB BASED PROJECTS
DATE: 02/10/2021

Workshop Schedule/Session Plan:

Sr.No.	Time	Contents
1	10.30AM-10.45AM	Introduction of WIE and Speaker
2.	10:45 AM- 1.45PM	Online webinar
3.	1.45PM-2.00PM	Vote of Thanks

Workshop Report:

The workshop organized by Women in Engineering Council in association with MHRD's Innovation cell was a live session for "**Design Thinking for web based projects**" by Professor Kavita Devanand Bathe was a very informative and practical session

Name of the event: **Design Thinking for web based projects** by Professor Kavita Devanand Bathe

Date of event: *October 2nd 2021, 10.30AM-2.00PM*

Location of the event: *Platform : Google Meet*

Total number of students attended: **21**

Total number of Faculty members attended: **1**

On October 2nd 2021 a very informative and practical session was organised by WIE council of Fr. Conceicao Rodrigues college of engineering, Bandra. The main objective of this workshop was to introduce students to website building and design thinking for web based projects. This interactive session was presented by Professor Kavita Bathe (Asst.Professor at KJ Somaiya Institute of Engineering and Information Technology).

At the beginning Ms. Grace Pereira introduced the WIE council to the students and welcomed the speaker. Prof.Kavita began the session with a detailed explanation of the design thinking in website building and the tools required. The speaker encouraged the participants to build a portfolio website. The participants built their own website along with the speaker and later presented their works.

The following topics were covered in the session:

1. Website building using HTML.
2. Wamp download and usage
3. Using CSS to beautify the website.
4. Using bootstrap in HTML CSS files.

The workshop ended with a vote of thanks by Ms. Sadiya Shaikh.

The Following is a registration form sample built by the participants.

WEBINAR REPORT: PROCESS OF INNOVATIVE DEVELOPMENT
DATE: 6/01/2022

Webinar Report:

The webinar organized by E-cell FrCRCE was a live session on **"Process of Innovative Development"** by Mr. Dinesh Israni, engineer & entrepreneur, from Naman India Angels Foundation was an exceptionally brilliant and truly inspirational session.

Name of the event: **"Process of Innovative Development"** by Mr. Dinesh Israni

Date of the event: **6th January 2022**

Platform of the event: **Google Meet**

Sponsoring organisation: **E-cell and Institute Innovation Council (IIC)**

Total number of participants: **53**

The webinar began with an introduction of the speaker to the participants by **Ms. Esha Sharma**, which was followed by a short briefing.

The webinar was then taken over by **Mr. Dinesh Israni** who gave us a very informative and helpful webinar on Process of Innovative Development. The objective of this webinar was co-creating a culture of innovation among students. Going forward with this, Mr. Dinesh Israni started speaking about what it takes to actually be innovative by simplifying the word "kar" into a mathematical equation where K stands for Knowledge, A for Action and R for the Result, and the complete equation looks like **K**nowledge + **A**ction = **R**esult.

Innovation process of Explore-Try-Do was further discussed and a question was put forward for the participants as a problem statement on why we don't innovate, i.e "Why risk it when we are doing fine", which was sufficiently answered with the statement that it is the buts that stop us from innovation. Sir also discussed why we should have a vision and a mission which creates an innovative background.

And perhaps the most important bit of the webinar was discussed next where sir talked about the seven considerations for co-creating a culture of innovation which were - Foundational Context, Trust, Environment, Know-How, Commitment, Collaboration and Risk & Failure. Sir then completed his bit of the session by aptly summarising the whole webinar, which was followed by a brief period of Q&A where sir to the best of his knowledge answered all the questions with the utmost of patience. The webinar was then concluded by a brief note of thanks by **Ms. Esha Sharma.**

The webinar was well received by the students and teachers alike. The objectives of E-cell for organizing the event can be said to be achieved due to precise answering of some of the important questions by speakers dealing on issues like such invention, innovation and entrepreneurship. Overall it was an amazing webinar and the E-cell and students would be eagerly waiting for further sessions provided by “Naman Angels India Foundation.”

WEBINAR REPORT

Session on

CREATIVITY

Innovation Ambassador

DATE: 24 January 2022

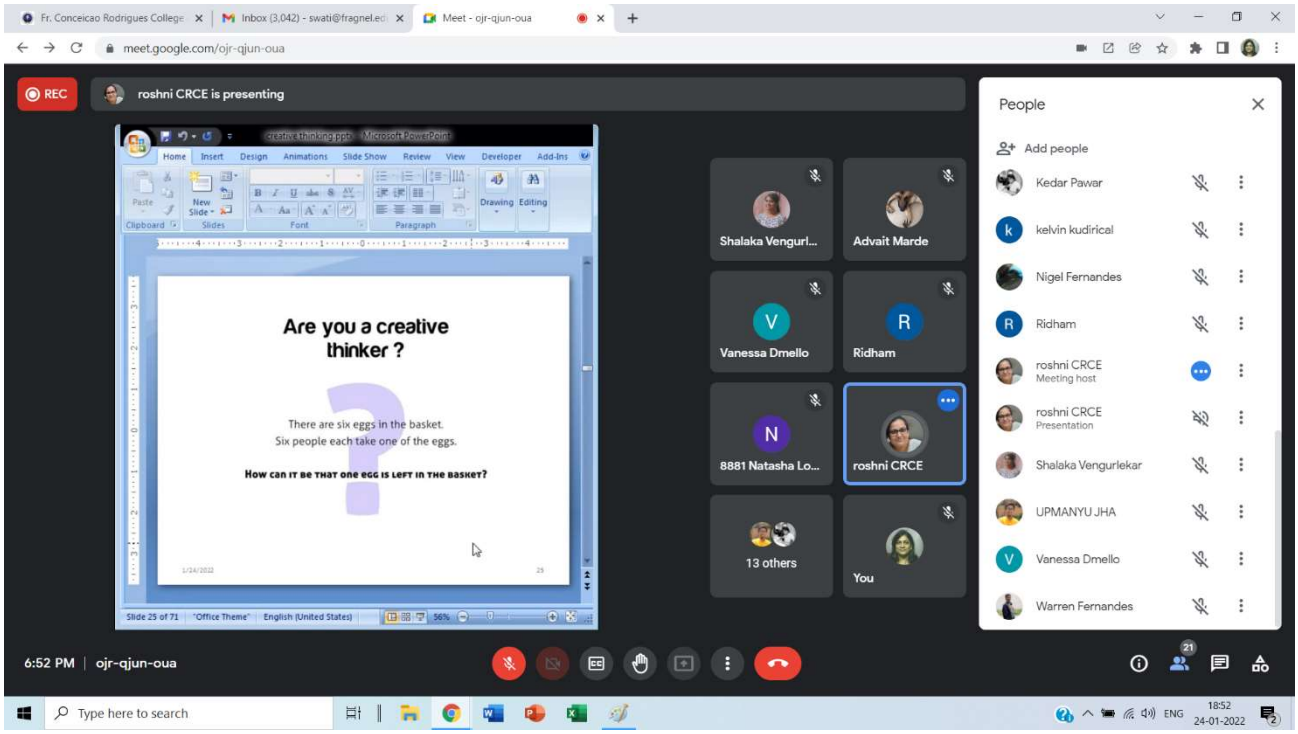
Event : Talk by Prof. Roshni Padate-Innovation Ambassador on the topic

"Activities for improvement of Creativity"

Date : 24th January, 2022
Platform : Google Meet

IIC organized a session on the topic: Activities for improvement of creativity on 24th January, 2022 from 6:30 pm to 7:30 pm. The objective of the event was to encourage students to improve their creativity and think creatively.
A total of 23 students attended the session from our college. The mode of delivery was Google Meet.

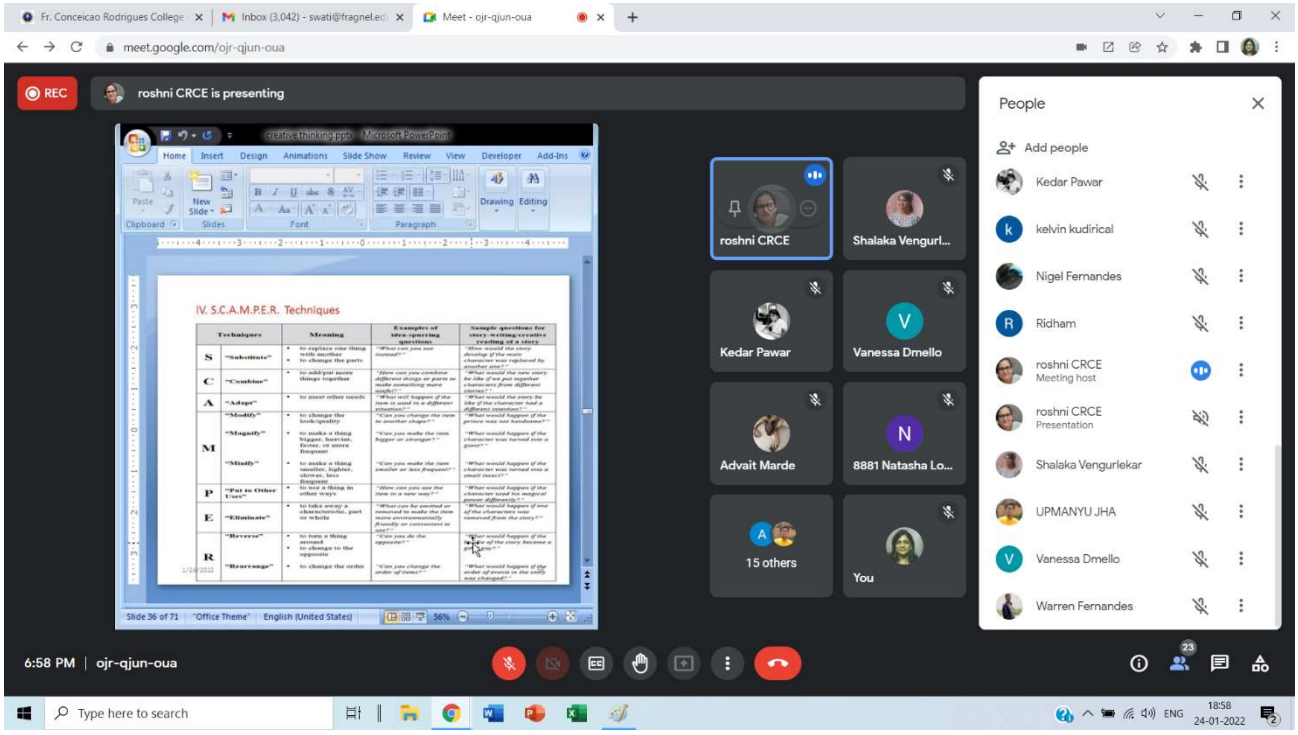
The speaker for the session was Prof. Roshni Padate, who is an Assistant Professor in Fr. Conceicao Rodrigues College of Engineering and is the IIC-Innovation Ambassador.

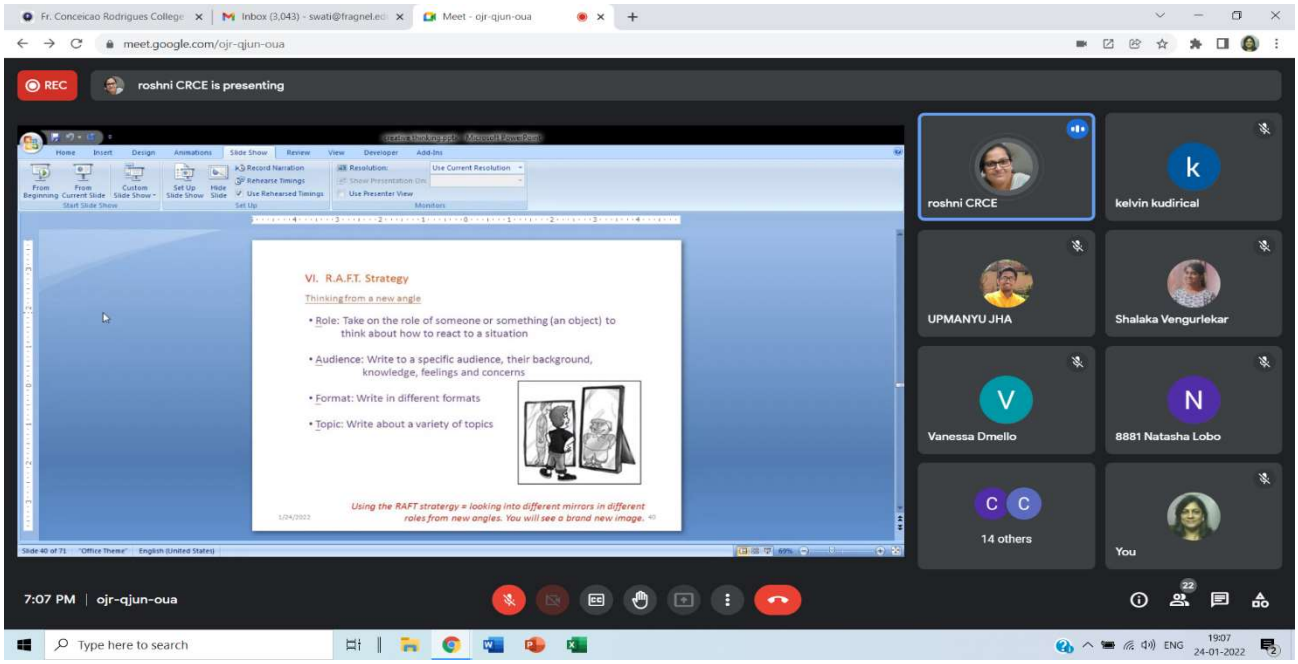


The session began with the speaker giving a brief outline of the session which included topics such as critical thinking, creative thinking, creative methods, creative thinking methods, critical thinking techniques.

The next topic was creative thinking, ma'am quoted Edward de Bono who described the meaning of creative thinking. Later ma'am discussed the differences between critical thinking and creative thinking.
Moving on, she discussed the characteristics of a creative person and creative methods which includes: Evolution, Synthesis, Revolution, Reapplication, Changing Direction and Negative attitudes that block creativity.

She then gave a brief description of what exactly critical thinking is and the features of critical thinking which consists of curiosity, creativity, skepticism, analysis and logic which was followed by a description of the various types of critical thinking activities like brainstorming, Mind Mapping, Morphological Matrix, SCAMPER techniques, Value Grid and RAFT strategy.





Ma'am then explained the audience 5 ways by which they could improve their creative thinking which includes the following:

1) Create three if's (questions deciding what could happen if we did something)
2) Practice dreaming
3) Make time for cohesive creative thinking.
4) Learn to pitch your ideas
5) Bounce ideas to others

Moving on ma'am gave an example to check the creative thinking of the audience. She then took a case study conducted on creative thinking which was conducted on 9th grade students which depicted the creative thinking ability of the students.

Ma'am then displayed a video in which it was shown how to improve creative thinking techniques following which she when on to discuss five exercises to make audience smarter, theyare as follows:

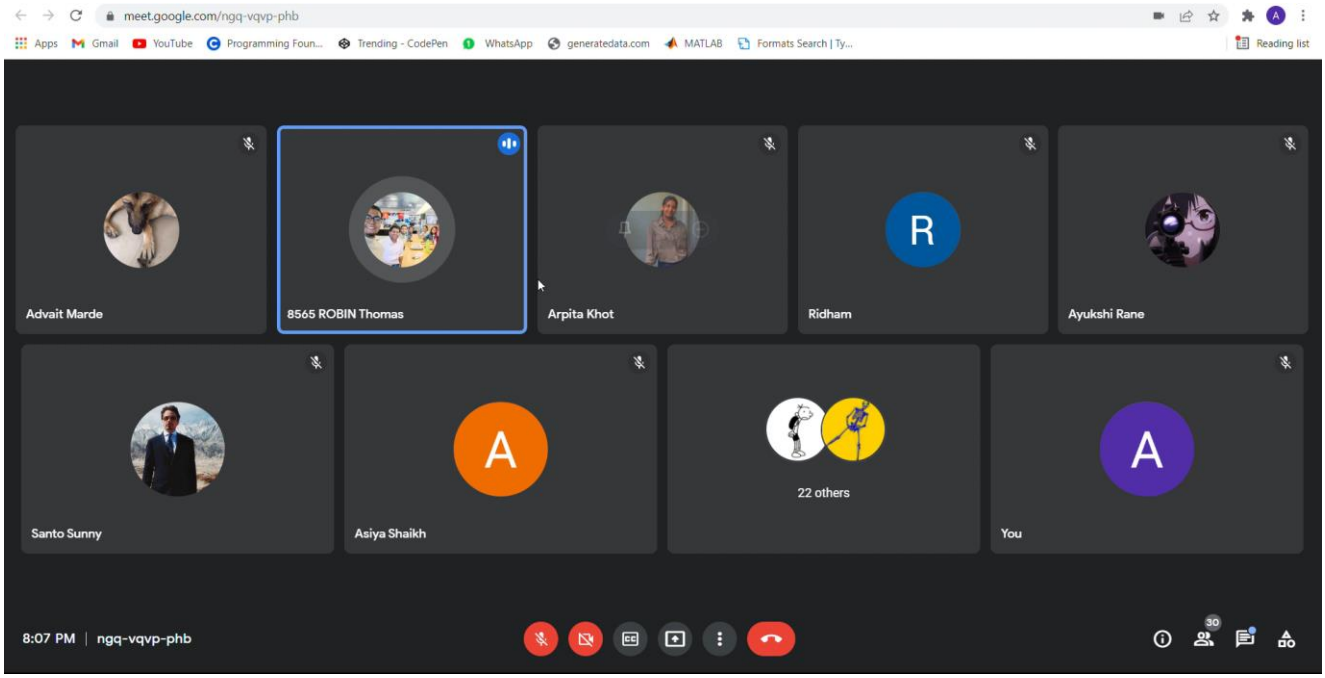
1) Paper clip test- write down 20 uses of a paper clip
2) Upside down image- draw an image(example: picture of elephant) in an upside downmanner
3) 5 by 5circles- draw any objects/symbols in the circles
4) Complete the image using a partial image
5) Nine dots- connect the dots using minimum number of lines and without lifting the pencil.

The outcome of the event was that all the students understood the various activities for improvement of creative thinking. An active participation by the students made the event a grand success.

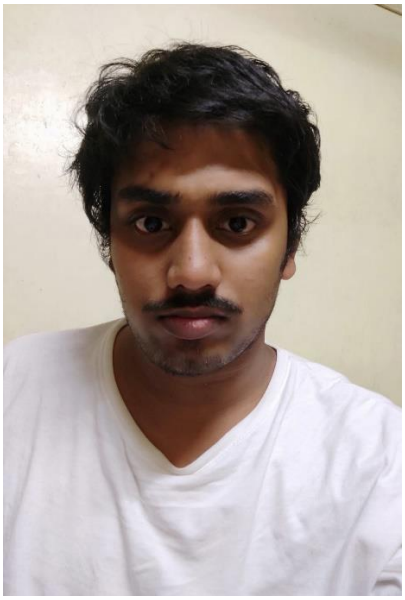
IEEE - CRCE organized a webinar on Successful Startup Founders

Webinar Name: Successful Startup Founders
Date : 11th March 2022
Platform : Google Meet

Institute of Electrical and Engineers (IEEE) and Women in Engineering (WIE), FR. C.R.C.E. organized a webinar on Successful Startup Founders on 11th March 2022 from 08:00 pm to 08:45 pm. The objective of the webinar was to present a road map of Mr. Mohammed Ahmed Bhati on startup and for the entrepreneur qualities. This webinar was more an QnA session or doubt session where participants asked their doubt's related to the startup project, ideas and finance. Our speaker for the webinar were Mr. Mohammed Ahmed Bhati.



A total of 40 participants attended the webinar. The mode of session delivery was Google Meet.



Mr. Mohammed Ahmed Bhati (speaker)

Our speaker for the webinar were Mr. Mohammed Ahmed Bhati. Mr. Mohammed Ahmed Bhati has completed his engineering his Fr. Conceicao Rodrigues College of Engineering. Our speaker has completed his internship In Indian Institute of Technology, Bombay. Mr. Mohammed Ahmed Bhati is currently Founder of Hridam Surgicals. Hridam Surgicals is a startup company who makes medical devices without compromising their accuracy.

The timing for the webinar was 08:00 pm where we started webinar at 08:10 pm as starting 10 minutes were given a buffer time to join all the participants. Our host of the webinar were Vice – Chairperson of IEEE Robin Thomas started the session by Welcoming to our speaker and all the participants. Our host introduced our speaker to all the participants.

Our speaker elaborated why he chose to startup a company, what drove it to be an entrepreneur, the challenges, problems and its solutions faced during that time. Mr. Mohammed Ahmed Bhati mentioned his college experience and the projects he completed during college years. He mentioned about his project "Panni Purri Vending Machine". He mentioned how he started the project, the research part and implementation idea, he also mentioned the economy crisis faced during the project completion. Our speaker mentioned the benefits for participating in the college clubs and council, college clubs helped him for a lot the projects.

Our speaker explained the qualities for entrepreneur like problem solving, modest, etc. He also mentioned that by making new projects and completing and debugging the projects will gain the above qualities.

One of the participants asked a query related to finance, our speaker humbly replied his query through his past experience that the idea behind the project should be unique in the market. The product should be fully completed and also there should be least number of errors or faults. The product also should be cost effective for the manufactures which means there should satisfy amount of gross margin. Founder of any company should be clear while making a product. While expanding the company, the founder should have an investor on the desk of the company. This makes easy for the company to grow as the company will have amount for the other purposes. He also concluded this question by that you should be always clear while making a project, the investor will invest in the product.

A participant asked a question about the patent and certifications of the product or project. Mr. Mohammed Ahmed Bhati replied him by mentioning about some certifications related to the healthcare. He also mentioned that the certifications vary upon the domain of the product and in some domain the certifications are negligible but some domain it is required like medicals and healthcare. He mentioned that certifications and patent of product are the second step to ensure the product is fit and fine for the market. For certification, the product should properly work in different criteria's and in environment conditions because the product goes through multiple tests and various process of experiments.And for patent, it is easiest thing for the product as it can be done easily and the cost for the patent varies on requirement duration.

A participant asked a query that should we make a product which is trending and has more requirement. Our speaker replied that we should not build any application or product based on trending items because the trend changes as the time changes.

Even if you build any application or product which makes a new trend then you should try more effective and updating the product or application for more attachment with the user. If there is trending application and you decided to make an application like that then it includes more uniqueness and creativity. The motive should be same but there should be some differences like GUI, features, etc. He mentioned that the copyright is big thing in all this field. It should be avoided or else it will damage the company or application name.

Another participant asked is it necessary to hire a co – founder. Mr. Mohammed Ahmed Bhati replied Yes. There should be co – founder for the company and eventually it will benefit the company. He elaborated that the product can be build and completed by a single person but sell the product in market is a different quality. He mentioned also that there are other things while selling a product like marketing, to build proper distribution chain. For building a proper and managing Standard Operating Procedure (SOP), a company should also have co – founder. As said, a single man can do only two work at a time. He mentioned other challenges like to find and hire a proper co – founder because both the founders should have clear idea and vision of the company. They both should have common goal and mutual understanding in between.

Our host Vice – Chairperson of IEEE Robin Thomas concluded the webinar by appreciating and Thanking to our speaker Mr. Mohammed Ahmed Bhati and the participants present in the webinar. The outcome of the webinar is to get proper idea, challenges, problems and its solution from an experienced person. The webinar was a success where the all participants were got cleared and got better vision to build an company and better implementation ideas for the project or product.

CSI-CRCE organized
My Story- Landing A Dream Job And Living A Startup Dream

Event Name : My Story- Landing a dream job and Living a startup dream
Date **:** 7th April, 2021
Platform **:** Google Meet

The Computer Society of India (C.S.I.), FR. C.R.C.E. organized a seminar on My Story-Landing a Dream Job and Living A startup Dream on 7th April, 2021. The objective of the event was to help the students to understand and clear their doubts regarding placements and to get guidance on how they can land to their dream job and also enlighten the young minds about entrepreneurship and start ups.

A total of 46 students from FE, SE, TE and BE attended the session. The mode of session delivery was Google Meet.

Mr. Gaurav Sen (speaker)

The speaker for the session was Mr. Gaurav Sen. Mr. Gaurav Sen is the founder of Interview Ready, a company which provides course which helps you ace system design interviews and improve in software engineering. He is an alumni of FR CRCE and also a great content creator. He runs a YouTube channel on system design and algorithms that has crossed 300k subscribers. His experience includes being a former Software Development Engineer at Uber, former Platform Engineer at Directi and former IT Analyst at Morgan Stanley.

The session began with the speaker narrating his experiences and struggles that he went through the initial stage to get into what he is today. The first half of the session was enlightened upon Mr. Gurav Sen's journey of being so successful which encouraged the audience to challenge themselves and take up such challenges in life.

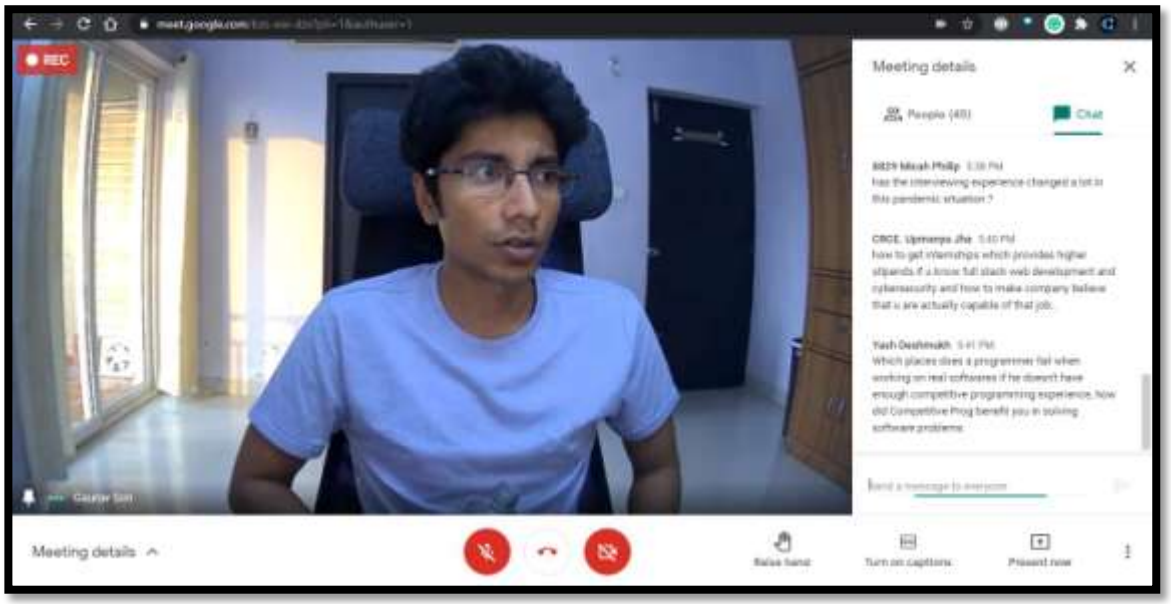
Mr. Gaurav Sen inspired everyone of us by stating his journey of engineering starting with a KT and landing to his dream job and living his startup dream. The speaker shared his experience right from his initial struggles in programming, interview rounds, college projects, internships, working experience in various companies, starting his own YouTube channel and finally starting his own startup Interview Ready. All the students were motivated for startup and to be an entrepreneur by sharing his experience. The speaker's thoughts and experiences enlightened our minds and showed all a new path which overall graced the occasion.

The second half of the session included a detailed Question and Answers session. The audience actively participated and interacted during the session and cleared all their queries they had in minds regarding jobs, placements, entrepreneurship and start ups.

The questions asked by the audience included such as

- How to crack online assessment of product based companies
- Various queries about the interview rounds in various companies
- How to prepare for interview rounds for a particular company
- Regarding the importance of projects and internships and it's role in career development and placements
- About how the interview rounds have changed in this current pandemic situation
- How to achieve internships with higher stipend
- How competitive programming help one in problem solving
- The importance of computer programming and mastering it
- On how to decide between higher studies and placements

The outcome of the event was that all the students learned and cleared their doubts regarding placements and the speaker also motivated them for being successful entrepreneur and to take challenges and starting their own startups by stating his experience and guidance. The session also helped the students realize how important is computer programming when it comes to achieving the dream job. It enlightened the students about what they should do in future and that to be a successful programmer or a entrepreneur they need to begin right from the college days.

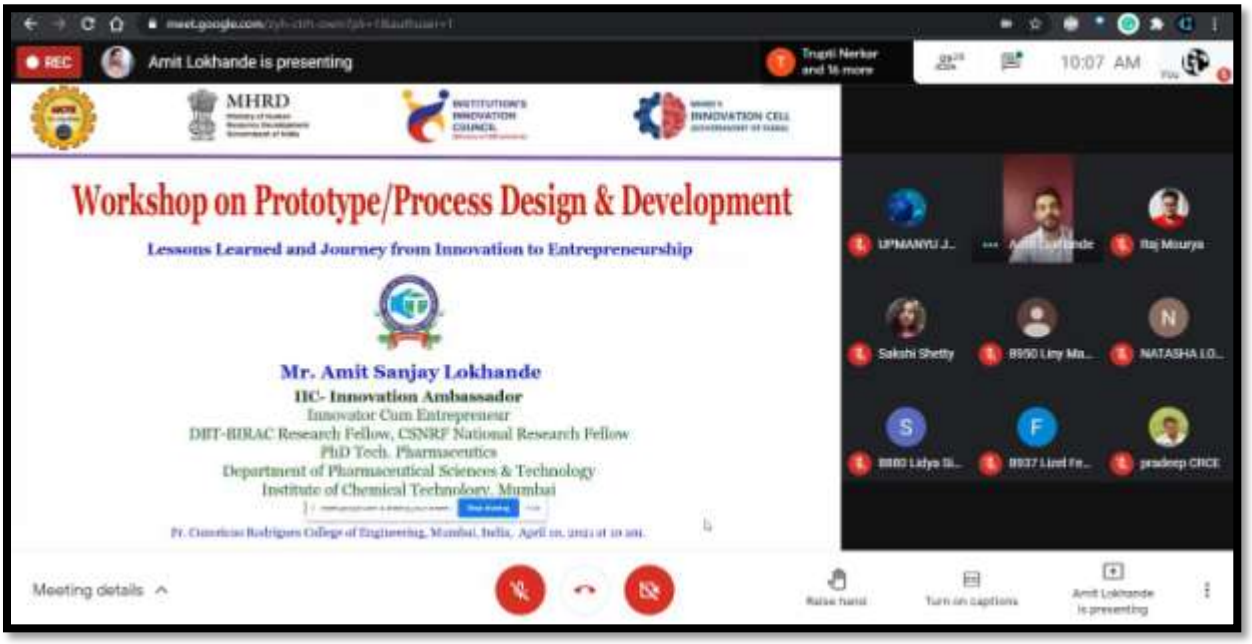


A good feedback was received from all the participants. All the students were thrilled to get the guidance from their favorite mentor Mr. Gaurav Sen. Participation certificates were also provided to the participants by the CSI-CRCE team. An active participation by the speaker, council members and the participants made the My Story-Landing a Dream Job And Living A startup Dream webinar a grand success!

CSI-CRCE organized
Workshop on Prototype/ Process Design And Development

Event Name : Workshop on Prototype/ Process Design And Development
Date : 10th April, 2021
Platform : Google Meet

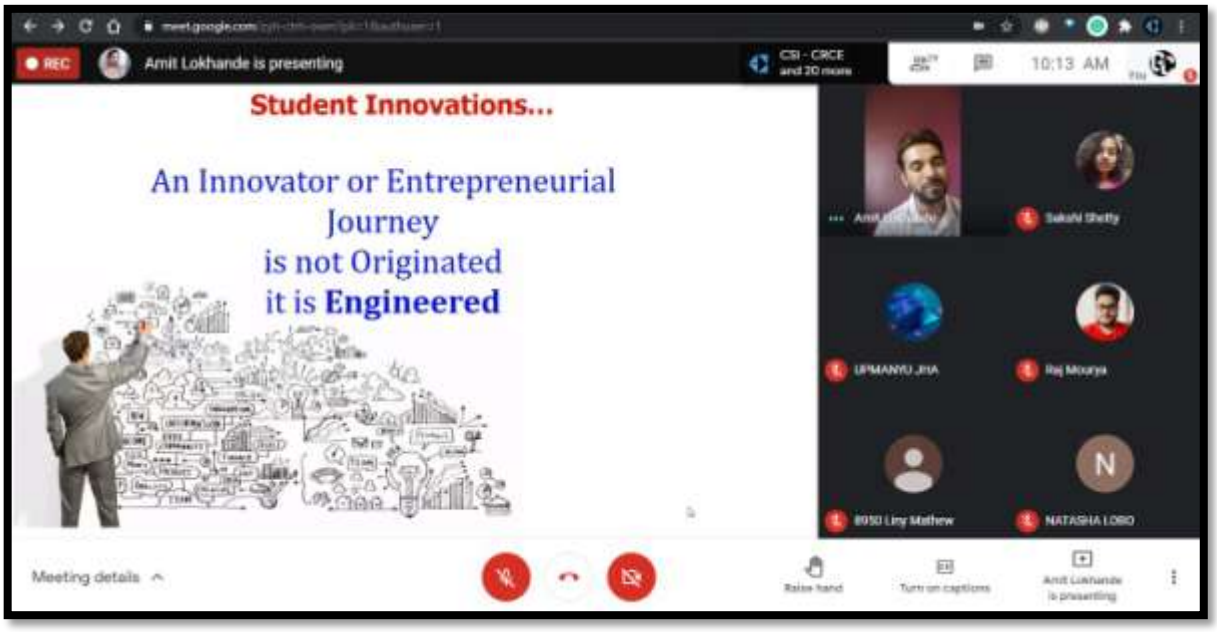
The Computer Society of India (C.S.I.), FR. C.R.C.E. organized a workshop on Prototype/ Process Design And Development on 10th April, 2021. The objective of the event was to help the students to understand what exactly is process design and development (Prototyping) and also to enlighten the young minds about entrepreneurship and start ups by developing their own ideas and achieving success in it.



A total of 30 students from FE, SE, TE and BE attended the session. The mode of session delivery was Google Meet.

Mr. Amit Sanjay Lokhande (speaker)

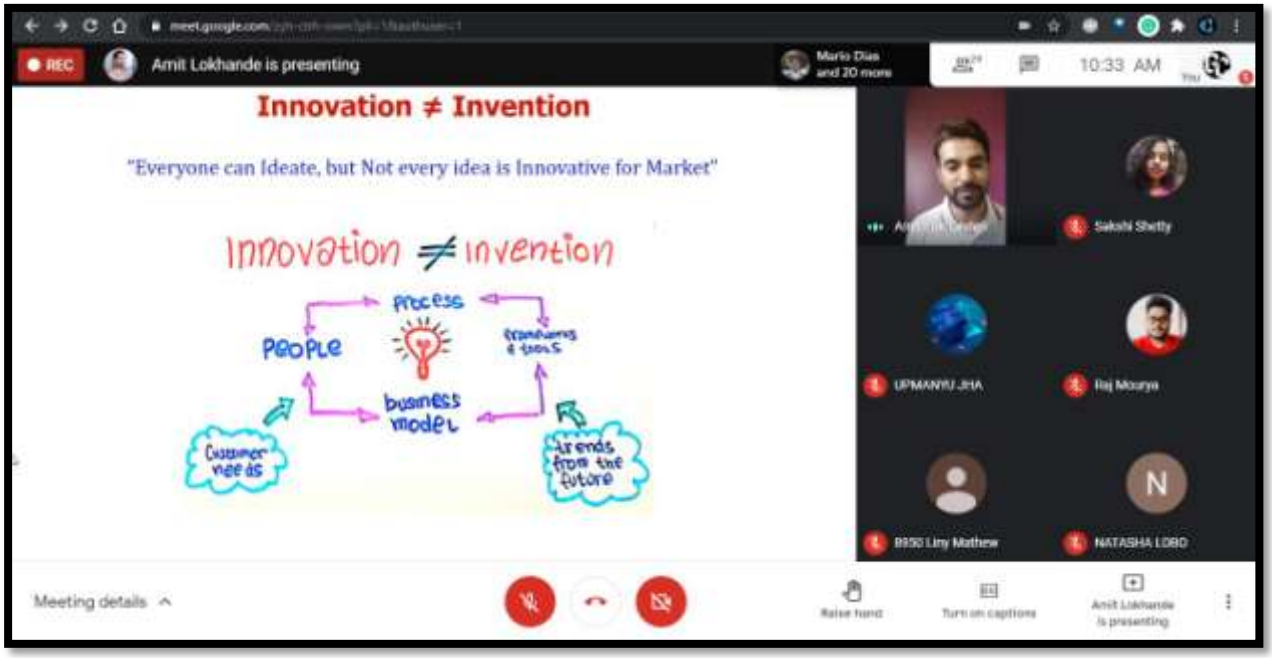
The speaker for the session was Mr. Amit Sanjay Lokhande. Mr Amit Sanjay Lokhande is currently pursuing PhD Tech. Pharmaceutics at Department of Pharmaceutical Sciences & Technology, Institute of Chemical Technology (ICT), Mumbai. His research involves the development of innovative and affordable targeted drug delivery systems against intracellular infections and Innovative strategies for tackling antimicrobial resistance. Another area of his research is the point of care, affordable diagnostic systems for human and veterinary use. He is a nominated AICTE/MHRD's Innovation Ambassador Govt. of India. Innovator cum Entrepreneur, supported through India- South Korea Startup Exchange Program 2020, & recipient of Technology Incubation Start-up Grant 2020 from MHRD Govt. of India. Amit is an inventor of 5 Indian patent applications, published 3 articles and 3 book chapters. Amit also received over 40 awards and recognitions during his PhD tenure and his achievements received news and media attention. Amit has mentored over 15 undergraduate and postgraduate research projects and is a recipient of Special research mentor Award 2017 and 2020 from Marathi Vidnyan Parishad Mumbai India. Amit also delivered over 20 invited talks at various institutions in India and motivating many student innovators, entrepreneurs in association with Institution Innovation council.



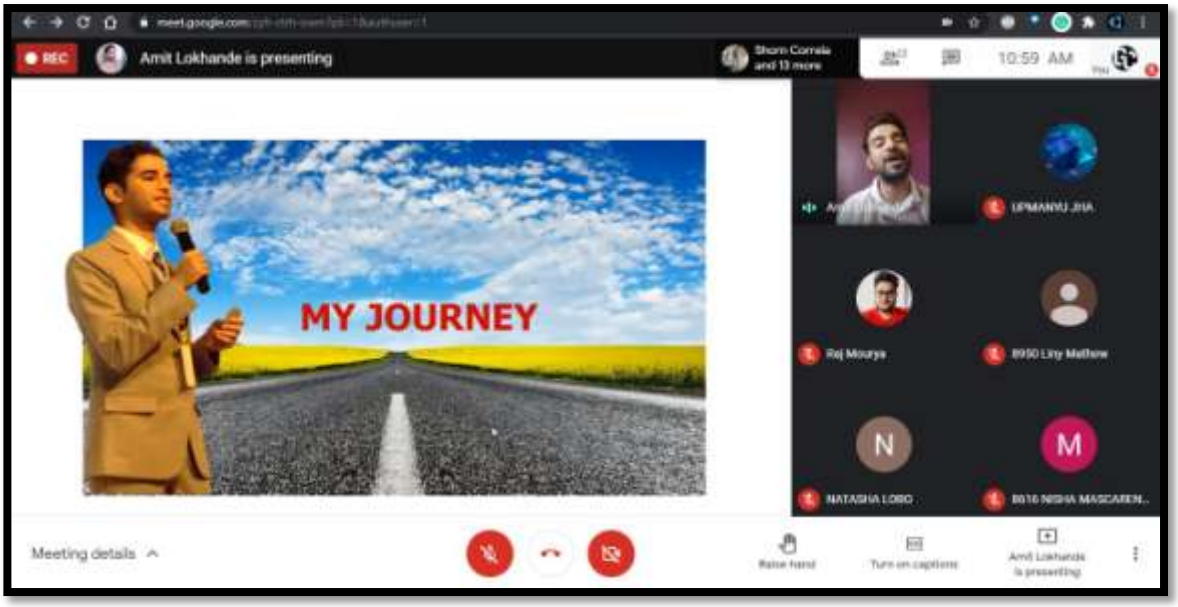
The session began with the speaker explaining in detail about

- What is a prototype
- Various student innovations
- How a prototype should be simple and user friendly
- How to develop one's idea to a business idea and finally achieving a market place (Building things which people love)
- A Businees Idea example (Fresher's Burger)
- How to develop one's innovation by understanding customer's need and the trends from the future
- An Innovatione Idea Example (Smart Watch Operation Using Wrist Gestures)
- An Idea of the speaker's own product (Swing Box)
- Regarding prototype or process design generation
- A prototype or process design generation example (Wedding Gifts)
- What is Entry Barrier

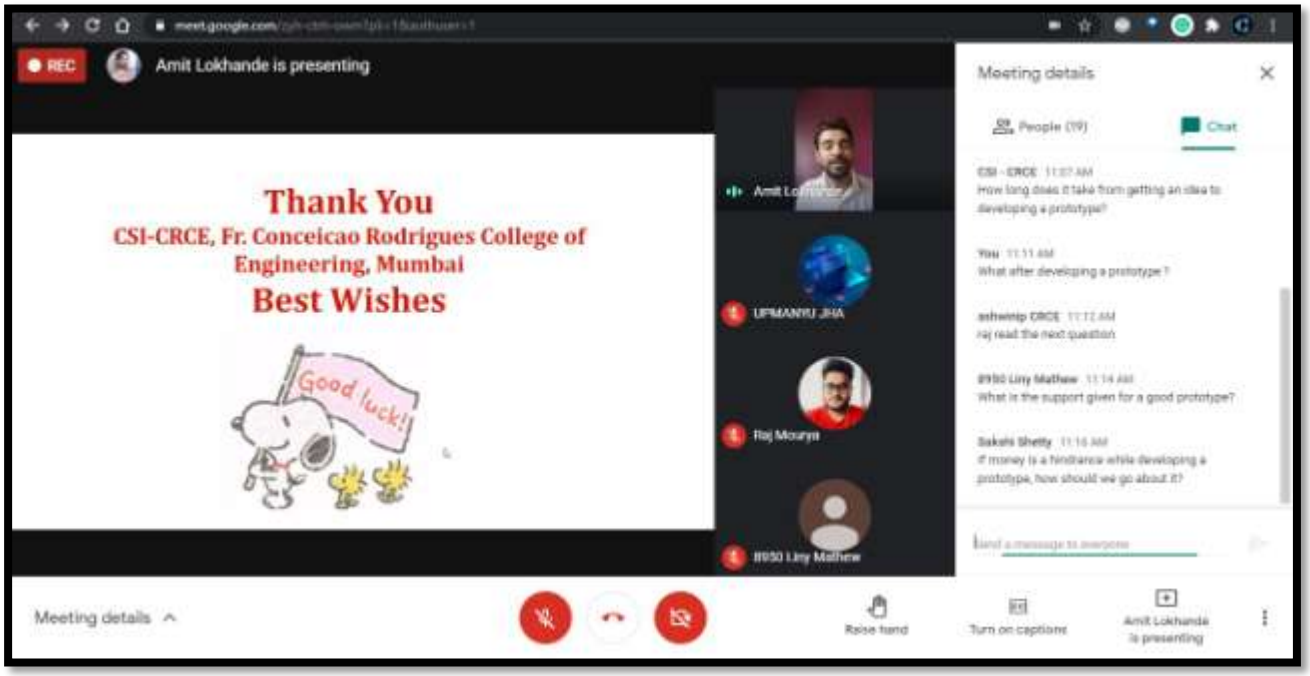
- Important points to be considered while developing a prototype
- Various innovation design engineering organization (IDEO) methods
- The Do's and Dont's that is to be taken into account while developing a prototype

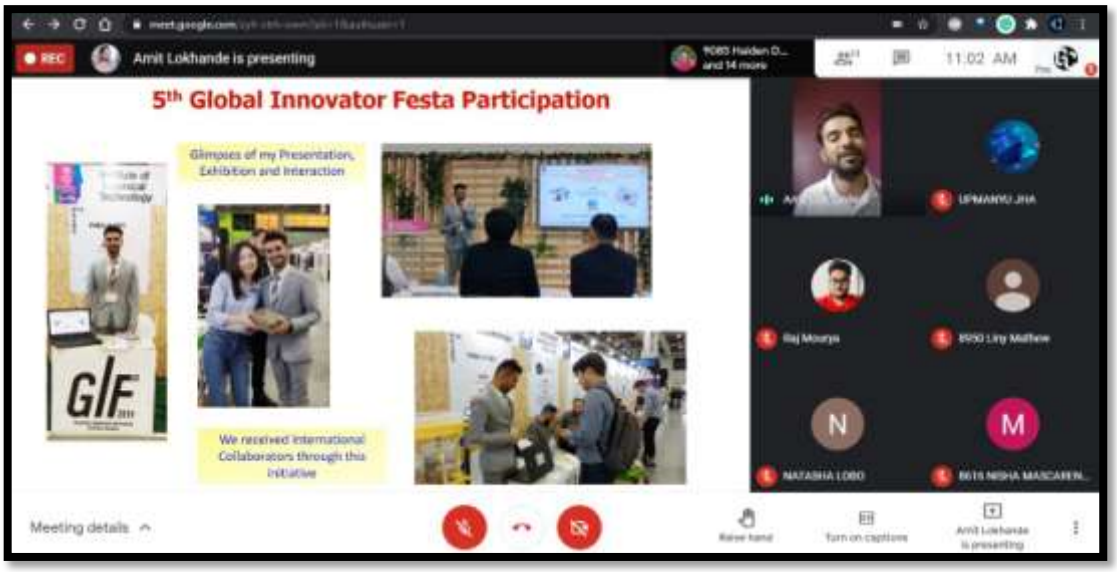


In the second half of the session, the speaker motivated everyone by stating his journey of being such a successful person. The speaker stated about the product he developed, Preg-V-Det which is used to improve milk profitability using on-farm super-simple early urine pregnancy diagnosis in cattle. He also shared his wonderful experience at the 9th Global Commercialization Workshop, about the South Korea start-up ecosystem, about his participation at the 5th Global Innovator Festa and about his learnings from the global communication expert and coach for investor pitch. He has also appeared and has gained recognition in various media platforms for his renowned work. The speaker also spoke his struggle in developing his own company Amkron Technologies Private Limited which motivated the young minds to also take such challenges in life.

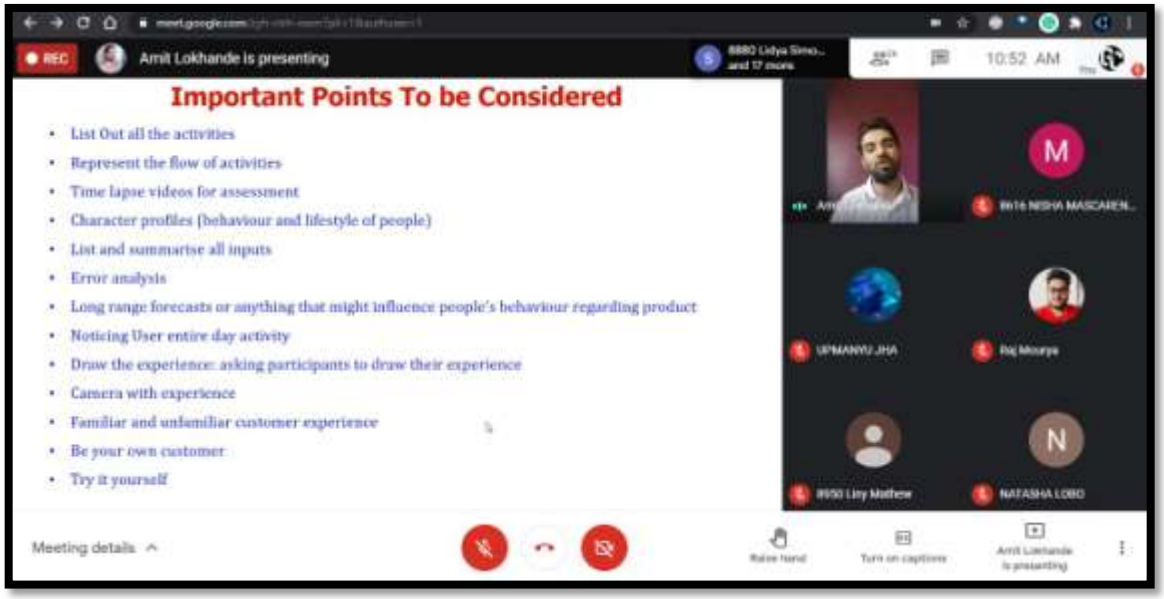


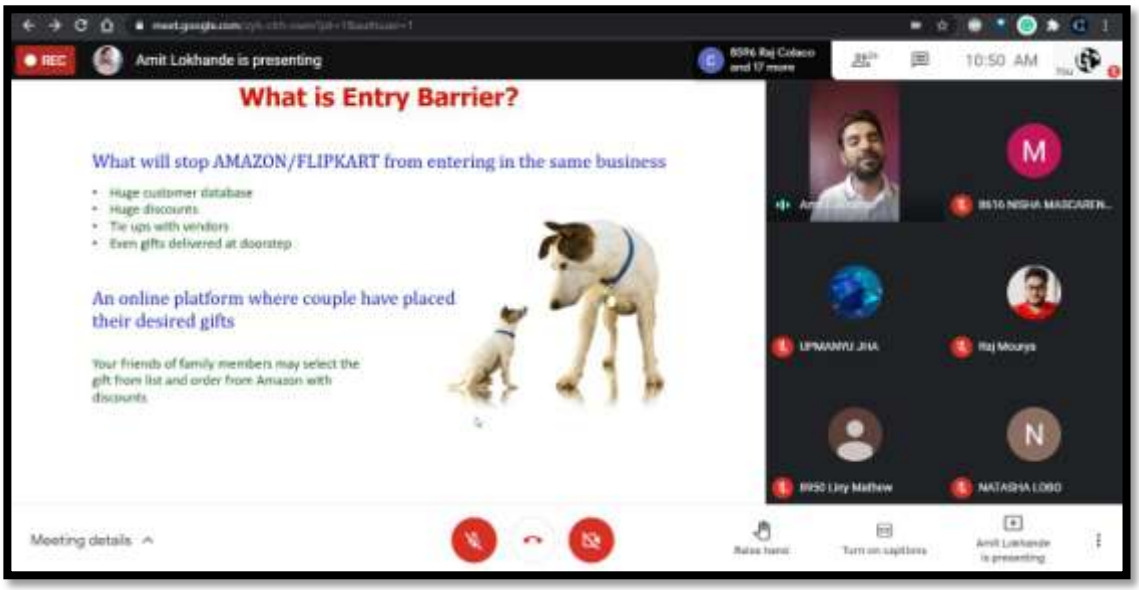
At the end of workshop, the speaker cleared all the doubts that the students had in their minds and also made them think out of the box. Some of the questions asked included how long it takes from getting an idea to developing a prototype, what after developing a prototype, what is the support given for a good prototype, how to go about if money is the hindrance in developing a prototype, etc.





The outcome of the event was that all the students learned a lot about eentrepreneurship and it also made the audience realize that the nation needs more job creators than job seekers. The session also helped the students realize that college life is the best for start ups and that a small idea but with a proper proof can also be an excellent start up. It enlightened the students about what they should do in future and that to be a successful entrepreneur they need to begin right from the college days. The session motivated all the students to be develop their own innovative ideas to built their own prototype.



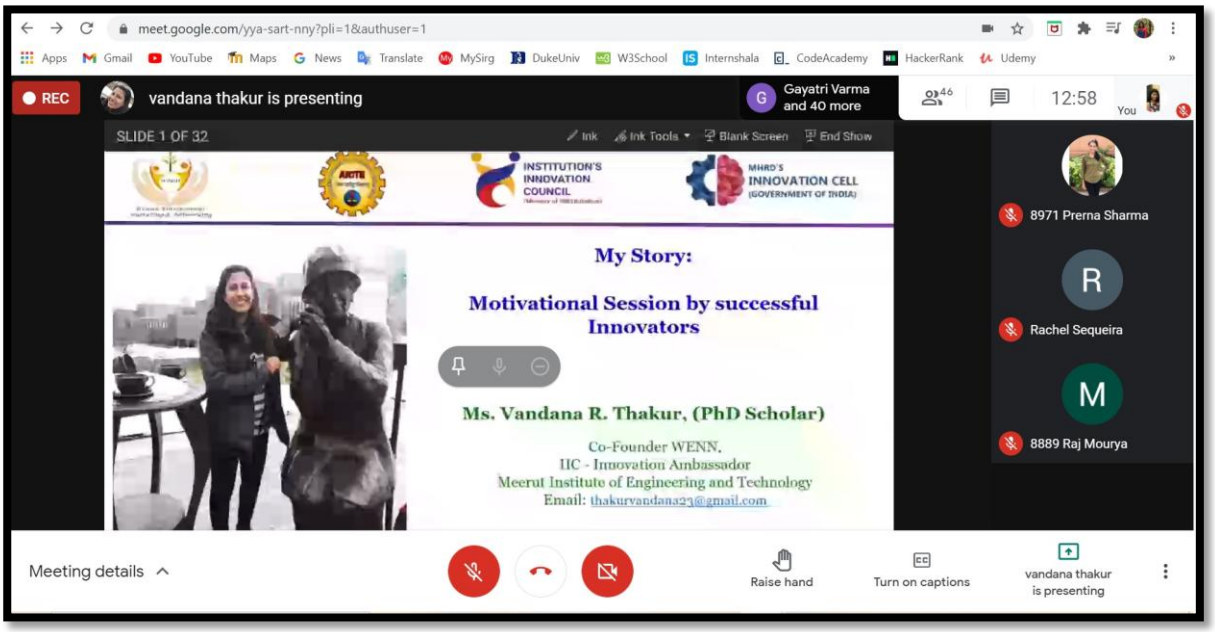


A good feedback was received from all the participants. All the students were thrilled to learn and understand about prototyping from Mr. Amit Sanjay Lokhande. Participation certificates were also provided to the participants by the CSI-CRCE team. An active participation by the speaker, council members and the participants made the workshop on Prototype/ Process Design And Development a grand success!

CSI-CRCE organized
My Story – Motivational Session By Successful Innovators

Event Name : My Story – Motivational Session By Successful Innovators
Date : 28th November, 2020
Platform : Google Meet

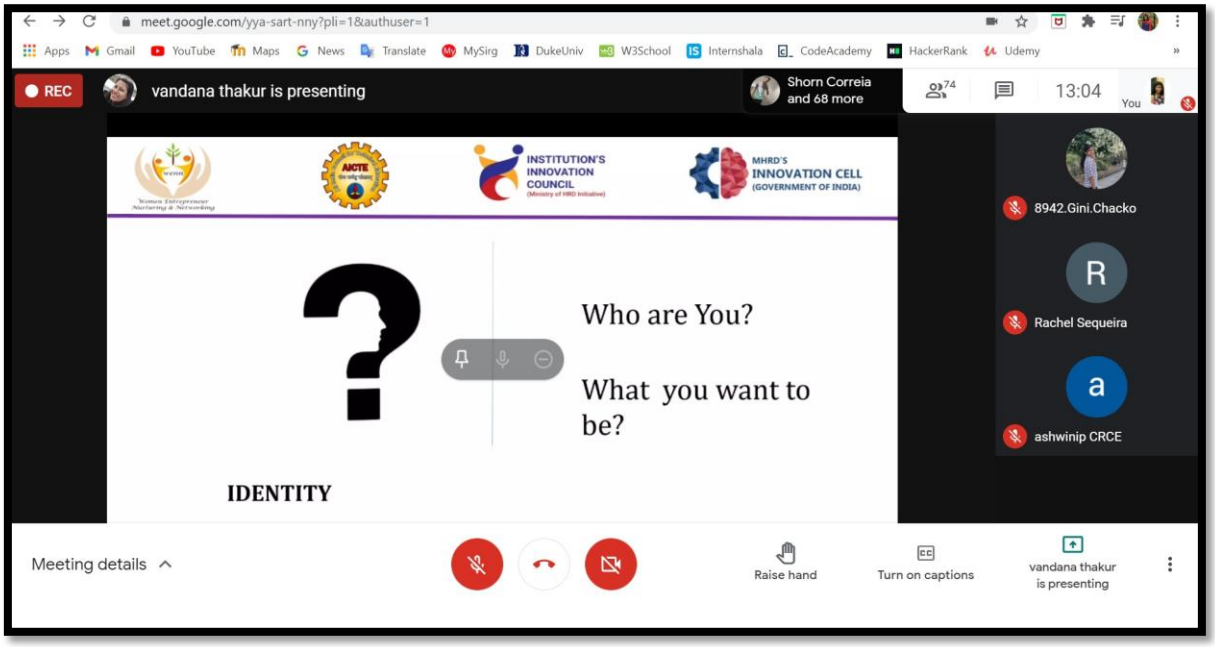
The Computer Society of India(C.S.I.), FR. C.R.C.E. organized a session on My Story – Motivational Session By Successful Innovators on 28th November, 2020. The objective of the event was to enlighten the young minds about entrepreneurship and start ups.



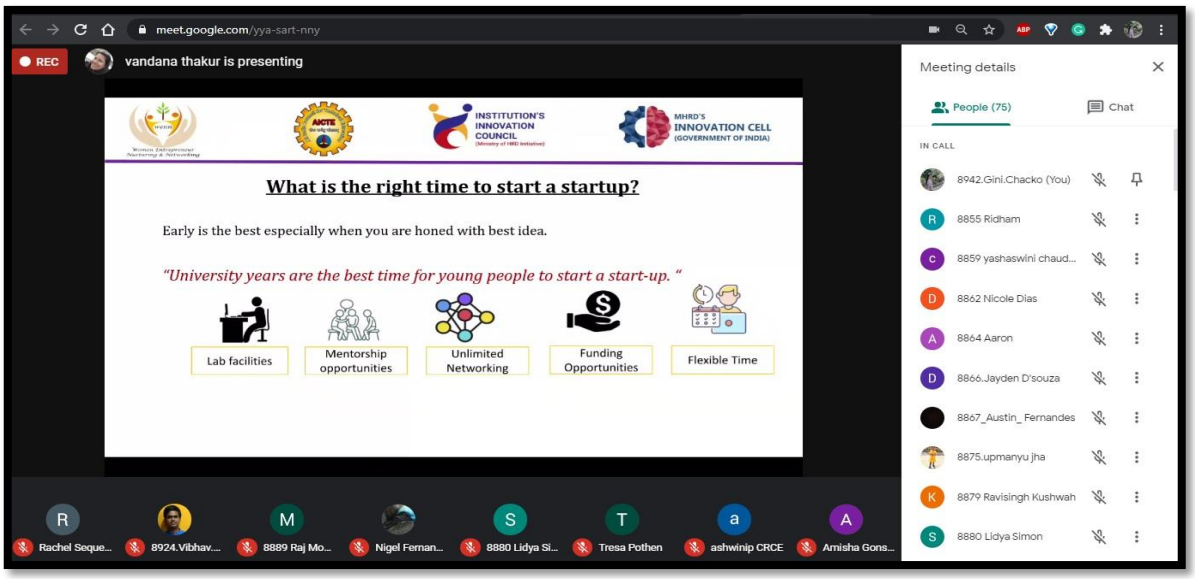
A total of 73 students from SE and TE and 2 faculty members attended the session.The mode of session delivery was Google Meet.

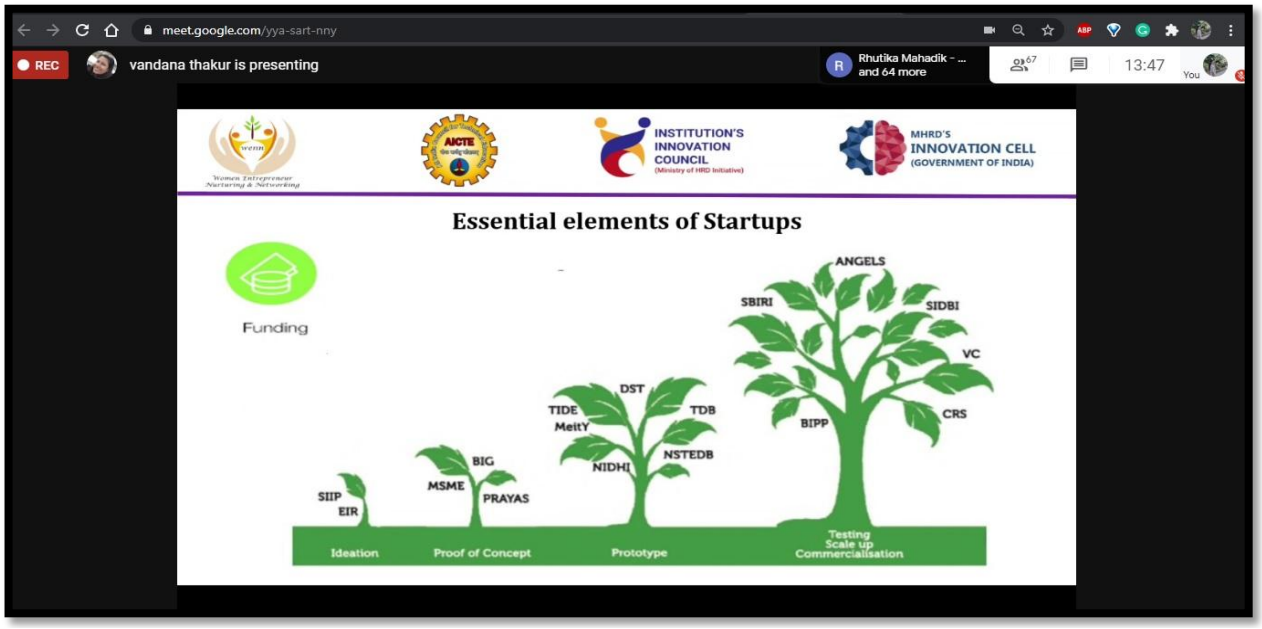
Ms. Vandana Thakur (speaker)

The speaker for the session was Ms.Vandana Thakur. She is a PhD Scholar from L.M. College of Pharmacy, Ahmedabad. Also an Innovation Ambassador of MHRD Innovation Cell (MIC) and an IIC Innovation Ambassador, Meerut Institute of Engineering and Technology, Meerut, U.P. She is also a Co-founder of WENN, a Female Innovator cum Entrepreneur also the winner of the National Innovation Contest 2019, IIC-MIC, AICTE. She is also a Part of female entrepreneur delegation to Canada, through Canada India Acceleration Program (CIAP) 2020. Ms. Vandana Thakur is also a Patent owner and worked on 3 innovations in Healthcare Sector, associated with - Institution Innovation Council (IIC), at L.M. College of Pharmacy, Ahmedabad. She is a Mentor too at Meerut Institute of Engineering and Technology (MIET), Meerut. She has a great expertise on Research Based Innovations which motivated, encouraged and enlightened the students.

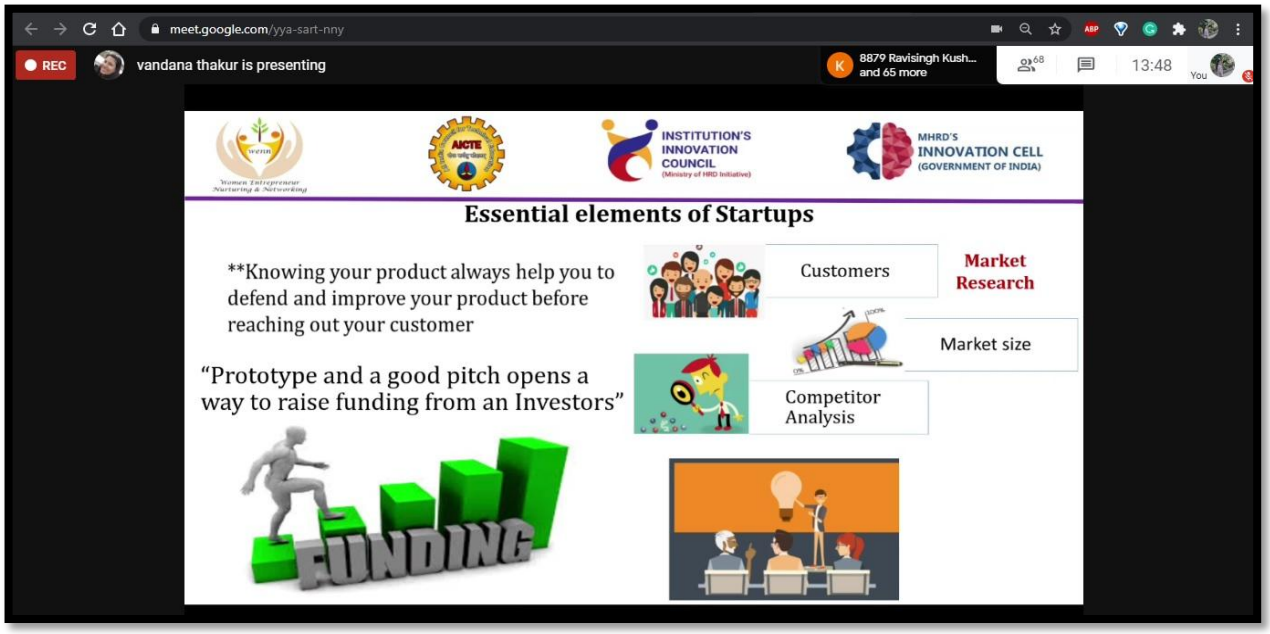


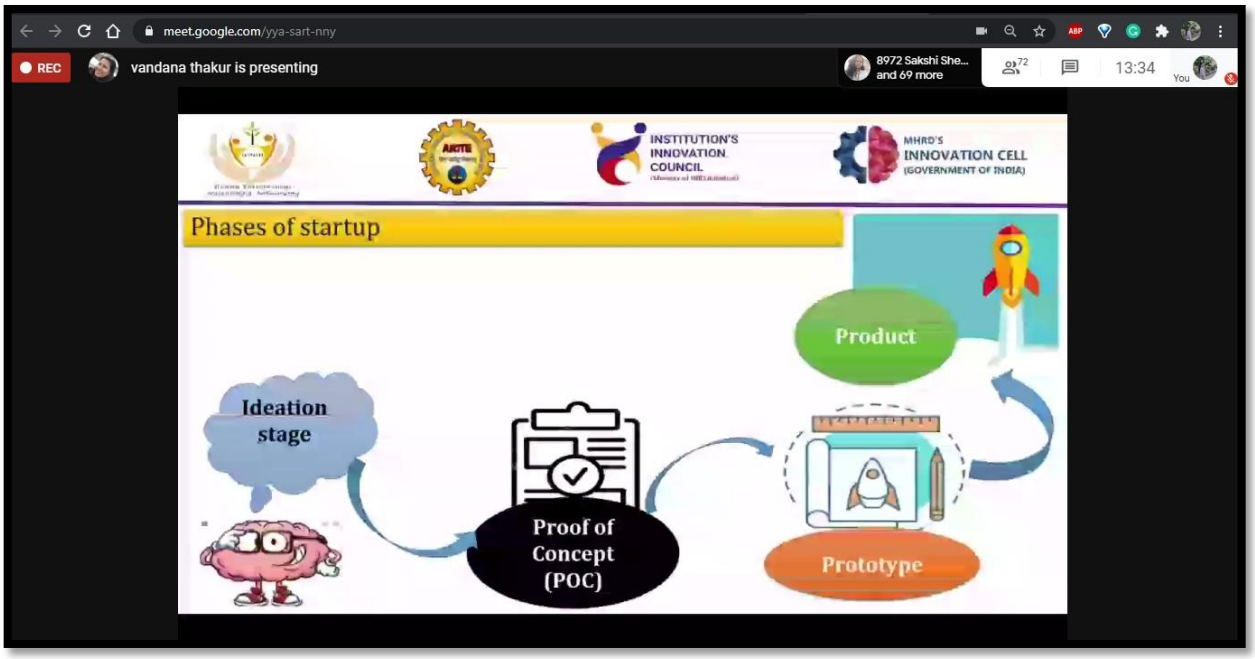
The session began with the speaker narrating her story of being a successful innovator. The first half of the session was enlightened upon Ms.Vandana Thakur's entrepreneurial journey of being so successful which encouraged the audience to challenge themselves and take up such challenges in life.



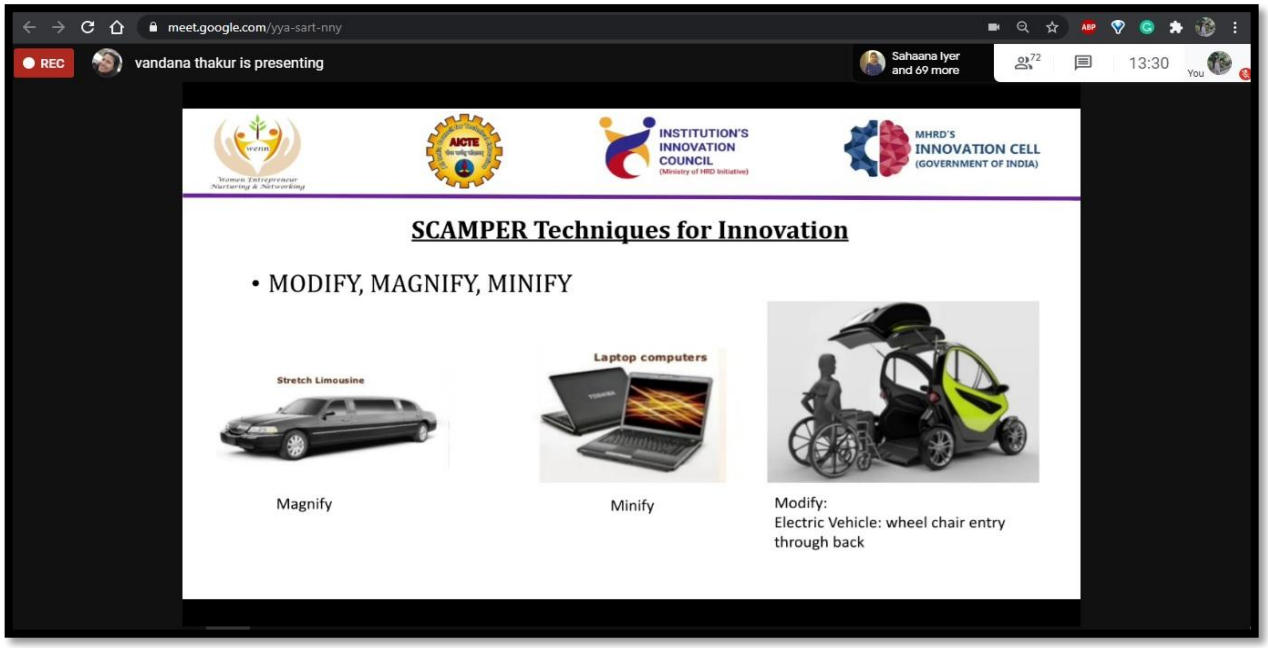


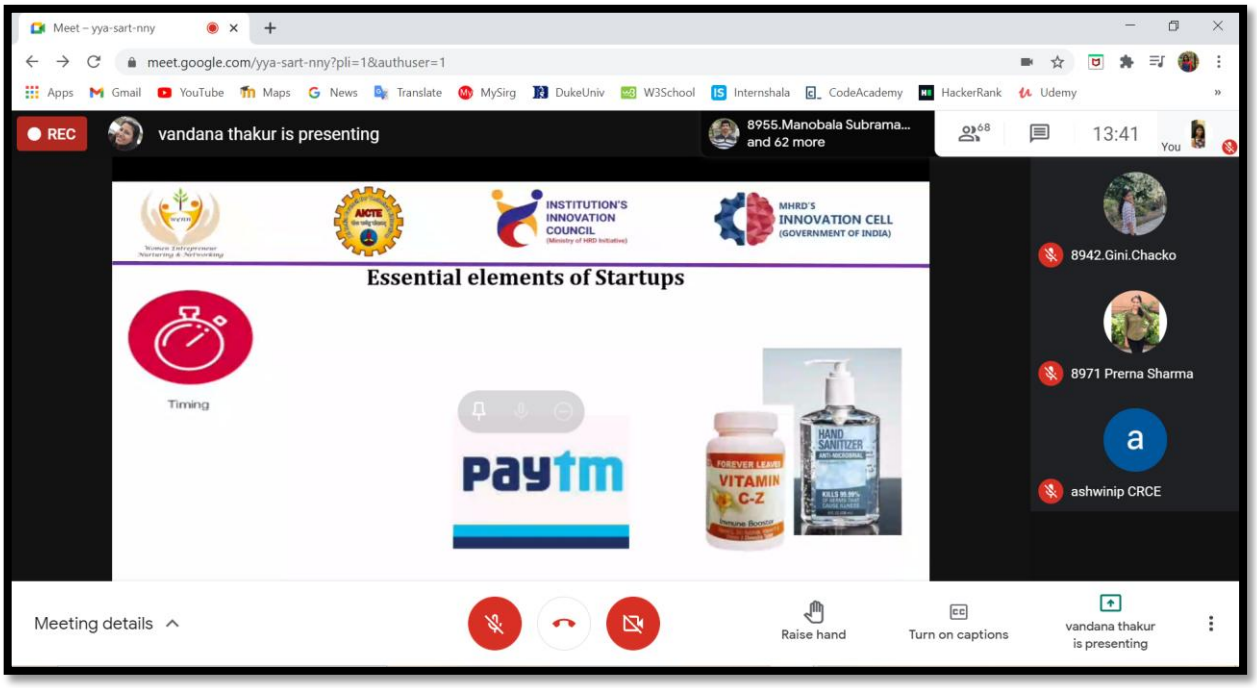
The second half of the session included a detailed explanation about the main theme of the event which included how to start a startup, what is the right time to start a startup, SCAMPER techniques for innovation, essential elements for startups and phases of startups, etc were dicussed in detail, which was really an eye-opener for the audience to understand various important things for starting a startup and also motivated them to learn many new things about entrepreneurship.The star performer (Faculty) was Ms.Ashwini Pansare and star performer (Student) was Ms.Gini Chacko.



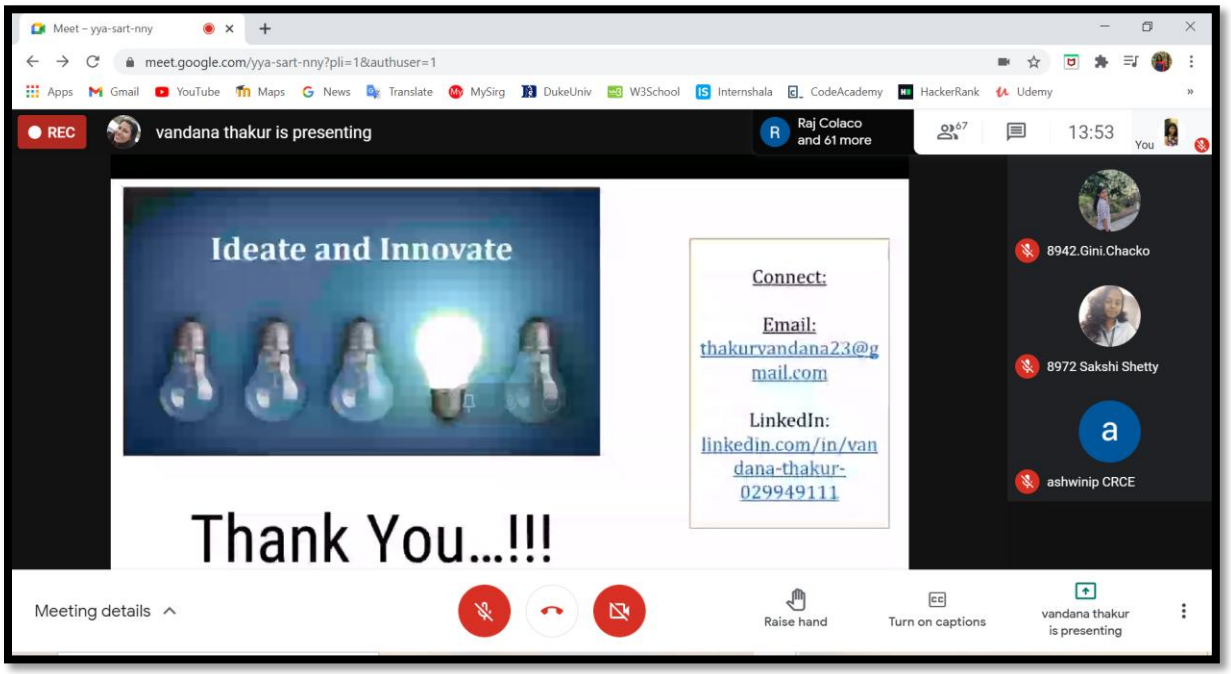


The outcome of the event was that all the students learned a lot about entrepreneurship and it also made the audience realize that the nation needs more job creators than job seekers. The session also helped the students realize that college life is the best for start ups and that a small idea but with a proper proof can also be an excellent start up. It enlightened the students about what they should do in future and that to be a successful entrepreneur they need to begin right from the college days. The session motivated all the students to be an employeer rather than a employee.





A good feedback was received from all the participants. Participation certificates were also provided to the participants by the CSI-CRCE team. An active participation by the speaker, council members and the participants made the My Story – Motivational Session By Successful Innovators workshop a grand success!



Event :Goldman Sachs Interview Preparation Guidance

Date : 9/8/2020

Speakers: Anisha Gharat ,Platform Engineer ,Quantiphi.

Platform : Google Meet

No of participants : 76

Session Duration : 35 Minutes

Recording Link :

https://drive.google.com/file/d/1q-z1CQ1hgEAwISzvCgUsi6Y_6yvS12jj/view?usp=sharing

Placement Cell Conducted an interactive session for BE students of batch 2020-21. Ms. Anisha Gharat guided the students on the right path for preparation of Goldman Sachs company's whole placement process very well. Many Students asked queries and effective suggestions were suggested by the speakers. The Recording Link is provided above. It was an informal discussion conducted based on students' demands.

VIRTUAL GUIDANCE & ONLINE INTERACTION MEETING

1. Overview & Details

Orientation Programme	Virtual Guidance Session & Online Interaction Meeting regarding the placement process for ORACLE (OFSS) by Training & Placement Office (TPO)
Venue / Location	Online on Google Meet (https://meet.google.com/avh-dgya-zds)
Activity Co-ordinator	Jayen Modi Assistant Professor, Department of Electronics & Computer Science (ECS) Fr. Conceicao Rodrigues College of Engineering (Fr. CRCE)
Day, Date & Timings	Friday 18th September 2020 from 07:15 pm IST onwards
Key Resource Persons / Industry Speakers	• Rithika Prativadi Bhayamkaram – Associate Consultant, ORACLE • Sreejit Manapetty – Associate Consultant, ORACLE • Riya Tandel – Associate Consultant, ORACLE • Mohit Mehta – Associate Consultant, ORACLE • Ruth Peter – Associate Consultant, ORACLE
Objectives of the Virtual Guidance Online Session & Interaction Meeting	The lockdown enforced by the Indian Government on account of the COVID-19 pandemic changed entire hiring ecosystem. It brought the whole process online right from registration to the pre-placement talks followed by the aptitude & the technical tests, culminating with a virtual interview session either on Zoom or Google Meet or MS Teams. Keeping this practice in mind, training & placement office (TPO) took the initiative to hold a virtual guidance session & preparatory online meeting session for certain select companies. Their goal was to invite the alumni already placed in the particular company to address the students & inform them about the expected selection process. The alumni discussed, in detail about their own experience as prospective candidates, enriching students about various aspects of the placement selection process. Many myths were busted & several questions were answered pertaining to whatever doubts students had. Primary objective was to prepare the students in advance with additional training on the specific company-related matters (with inputs received from the alumni giving a large coverage from their experience). It motivated the students & gave them a really good insight as to what they were expected to face for the placement drive.

The Google Meet link recording of the entire session can be accessed by clicking the following link below :-

Dear Sreejit / Rithika / Riya

Hope that all of you are well & safe (along with your family members) in the wake of this pandemic.

This is to inform you that ORACLE is visiting our college (online - virtually) on Saturday, 19th September 2020 for the placement process. I guess you may be well aware of that.

It is our utmost & sincere request to you for addressing our B.E. students across all 4 streams on Friday, 18th September 2020. The three of you can decide the time (preferably in the evening) at your convenience so that it doesn't interfere with your daily schedule. Discussion about the whole placement process by the three of you will not only go a long way in motivating them, but will also give them a really good insight about what they're expected to face the very next day.

I had a talk with Rithika earlier today & want to thank her for the acknowledgement. Kindly let me know the timings for Friday, 18th September 2020 (late evening preferred). We shall be using the Google Meet platform with facility for attendance marking & live recording for the same.

Thanking you & regards,

Jayen Modi

Hi Sir,

We are all doing good, wishing the same with you.
Having this opportunity, it would be our pleasure to help and assist however we can.

We could have a session on Friday at 7:30pm.
Along with the three of us we have two more from Computers who would also like to join us , if that seems to be fine just to have larger coverage from their experience as well.

Let me know about the session details.

Rithika Prativadi Bhayamkaram - Associate Consultant
Sreejit Manappetty - Associate Consultant
Riya Tandel - Associate Consultant
Mohit Mehta - Associate Consultant
Ruth Peter - Associate Consultant

Thanks & Regards,
Rithika PB.

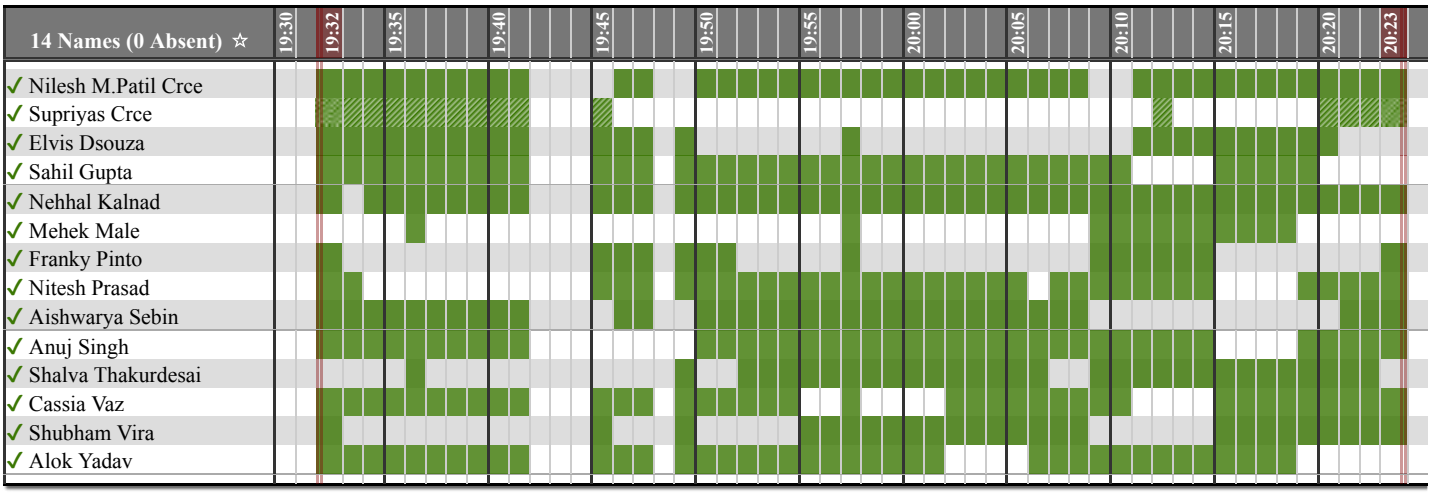
Daily Attendance Report for UBS Virtual Guidance Meet for Preparatory Interview Session: 2020-09-30

Show Attendance Summary

Class:**UBS Virtual Guidance Meet for Preparatory Interview Session** Meet ID: **zmu-uihz-app** Date: **2020-09-30** Earliest Arrival(s): **19:32**
Start Time: **19:32** End Time: **20:23** Length of Meet: **51** min



Daily Attendance Legend:

The student was present then exited rejoined and rejoined again etc. etc. (the alternating background patterns indicate that the student may have left and rejoined the Meet)
The student missed the entire class
To help your eye follow across the page, the table rows alternate between white and grey backgrounds which leads to two subtly different shades of green for the times when the student was present
NB - If you want a printed copy of this report, make sure that the 'More settings' → 'Background graphics' checkbox is checked in the Print dialog.

Up-Rev Prior Attendance Reports:

This allows you to update your old Attendance reports to the latest version of the HTML file. This will fix a number of issues and errors in the earlier versions of the reports.

- Click the 'Choose files' button below and then navigate to the location where your old attendance reports are located.
  By default, the attenance reports are saved to your *'Downloads'* directory but you can (and probably should) move them to a more permanent location.
- The updated files will get saved once again to your *'Downloads'* directory.
  Browser security dictates that the files can only be written to that directory... I cannot automatically save them elsewhere.
- **NB** - you can update several files at once using the <*shift*> and/or <*ctrl*> keys to select multiple files (but you will likely have to click *'Allow'* in a system dialog before the updated reports are download).

Choose Files No file chosen

Dear Aishwarya / Nehal / Anuj

Hope that all of you are well & safe (along with your family members) in the wake of this pandemic.

This is to inform you that UBS is visiting our college (online - virtually) on Tuesday, 29th September 2020 for test & Wednesday, 30th September 2020 for pre-placement talk (PPT). The interviews are expected to be held on Thursday, 1st October 2020.

It is our utmost & sincere request to you for addressing our B.E. students on Wednesday, 30th September 2020. As per your consent, the session will be held online from 7:30 pm to 8:30 pm. Discussion about the whole placement process by the three of you will not only go a long way in motivating them, but will also give them a really good insight about what they're expected to face the very next day.

We shall be using the Google Meet platform with facilities for attendance marking & live recording for the same. I will initiate the meeting & send the Google Meet ID to your respective emails embedded into the Google Calendar. In case of any issues, the Google Meet ID will be directly shared with Aishwarya Sebin over WhatsApp so she can pass it over to you.

Thanking you & regards,

Jayen Modi

Hi sir,

Thank you for inviting us. We'll try our best to help our juniors in all the ways possible.

I would also like to confirm my availability at the said time and date.

Thanks,
Aishwarya

ELECTRONICS & COMPUTER SCIENCE (ECS)

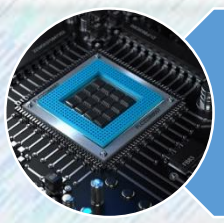
ORIENTATION PROGRAMME FOR SELECTION OF ELECTIVES IN SEMESTER V – T.E. (ECS)

Saturday, 12th June 2021
09:30 am IST on Google Meet

Software Testing & Quality Assurance

Sensors & Applications

Information Theory & Coding



ASIC Verification

Google Meet link will be emailed to all students on latest by Friday, 11th June 2021. Please note that attendance is compulsory.

The orientation programme gives formal introduction to the various elective subjects offered by the Electronics & Computer Science Department. It helps out students to make an informed decision in choosing a particular elective also with addressing of queries if any.

@ecs.frcrce | @ecs-frcrce | @ecs.frcrce | @ecs_frcrce | @ecs-frcrce

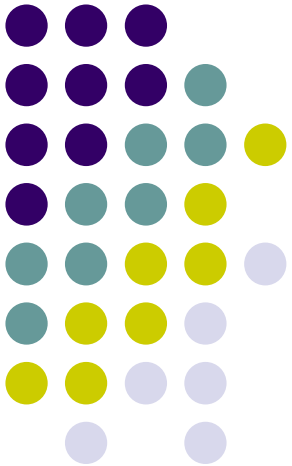
ORIENTATION FOR ELECTIVE SUBJECTS

T.E. (Electronics & Computer Science)

Semester V for Academic Year 2021 – 2022



Department of Electronics & Computer Science

Fr. Conceicao Rodrigues College of Engineering, Bandra (W), Mumbai – 400050.

ORIENTATION FOR ELECTIVE SUBJECTS

Dr. Sapna Prabhu

Professor & Head of Department

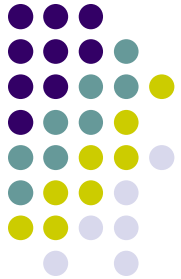
Jayen Modi

Assistant Professor

Department of Electronics & Computer Science

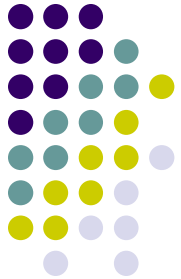
Fr. Conceicao Rodrigues College of Engineering

AGENDA / OVERVIEW



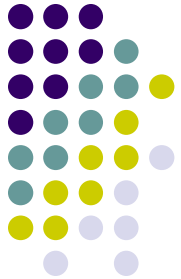
- What are electives ?
- Career tracks / domains towards Industry 4.0
- Electives on offer @ECS – Semester V (T.E.)
- Proposed course contents of all electives
- Pre-requisite subjects of all electives
- Relevance to future subjects of all electives
- Choosing an elective
- Question & Answer (Q&A) session

WHAT ARE ELECTIVES ?



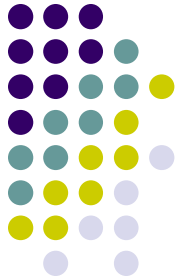
- Chosen by students from number of optional subjects or courses in a curriculum
- Elective courses – specialized courses
- Requisite skill set in particular technological domain or area of interest
- Knowledge depth in particular chosen area
- Student can continue further studies or look for employment opportunities in that domain

CAREER TRACKS / DOMAINS TOWARDS INDUSTRY 4.0



- **Track # 1 – Soft Computing**
- **Track # 2 – Web Technologies & IT Infrastructure**
- **Track # 3 – Information & Signal Processing**
- **Track # 4 – Embedded Systems & VLSI**
- **Track # 5 – Robotics & Industrial Automation**
- **Students can orient their studies & eventually their careers towards any of the above tracks; thereby meeting requirements for Industry 4.0 !**

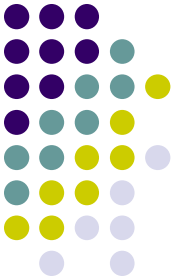
ELECTIVES ON OFFER @ ECS SEMESTER V (T.E.)



- Software Testing & Quality Assurance
- ASIC Verification
- Information Theory & Coding
- Sensors & Applications
- Department Level Optional Course – I
- Students have to select ANY ONE of above from the options offered (selection process to be discussed later on)

1. Software Testing & Quality Assurance

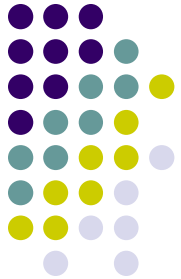
1. Software Testing & Quality Assurance



PROPOSED COURSE CONTENTS

- Software Testing Methodologies
- Software Testing Techniques
- Test Process Management
- Software Testing Automation Process
- Testing for Specialized Environment
- Quality Issues, Management & Assurance
- Documentation & Report Generation

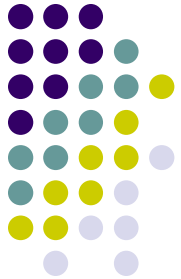
1. Software Testing & Quality Assurance



PRE – REQUISITE SUBJECTS

- Structured Programming Approach (C/C++)
- Object Oriented Programming (JAVA)
- Python Programming
- Data Structures & Algorithms
- Discrete Structures & Automata Theory
- Database Management Systems
- Fundamentals of Software Engineering

1. Software Testing & Quality Assurance



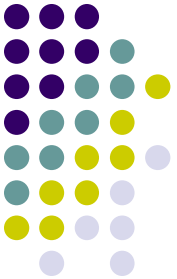
RELEVANCE TO FUTURE SUBJECTS

- **Data Warehousing & Mining (Semester VI)**
- **Skill Based Lab – Linux (Semester VI)**
- **Advanced Database Management Systems (Semester VII)***
- **Advanced Algorithms (Semester VIII)***

**** offered as electives in their respective semesters***

2. Application Specific Integrated Circuit (ASIC) Verification

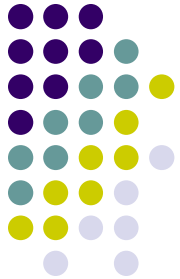
2. Application Specific Integrated Circuit (ASIC) Verification



PROPOSED COURSE CONTENTS

- Programmable Devices
- Basics of Verification Process
- Concept of ‘Test Bench’ set-up
- OOP – Classes & Objects
- Very High Speed Integrated Circuit Hardware Descriptive Language (VHDL)
- Verilog & VHDL Programming

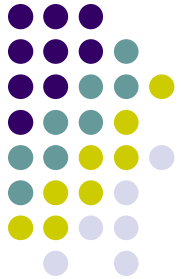
2. Application Specific Integrated Circuit (ASIC) Verification



PRE – REQUISITE SUBJECTS

- Concepts of Object Oriented Programming
- Digital Electronics
- Knowledge of C/C++
- Data Structures & Algorithms
- Electronic Devices & Circuits
- Application of Engineering Mathematics

2. Application Specific Integrated Circuit (ASIC) Verification

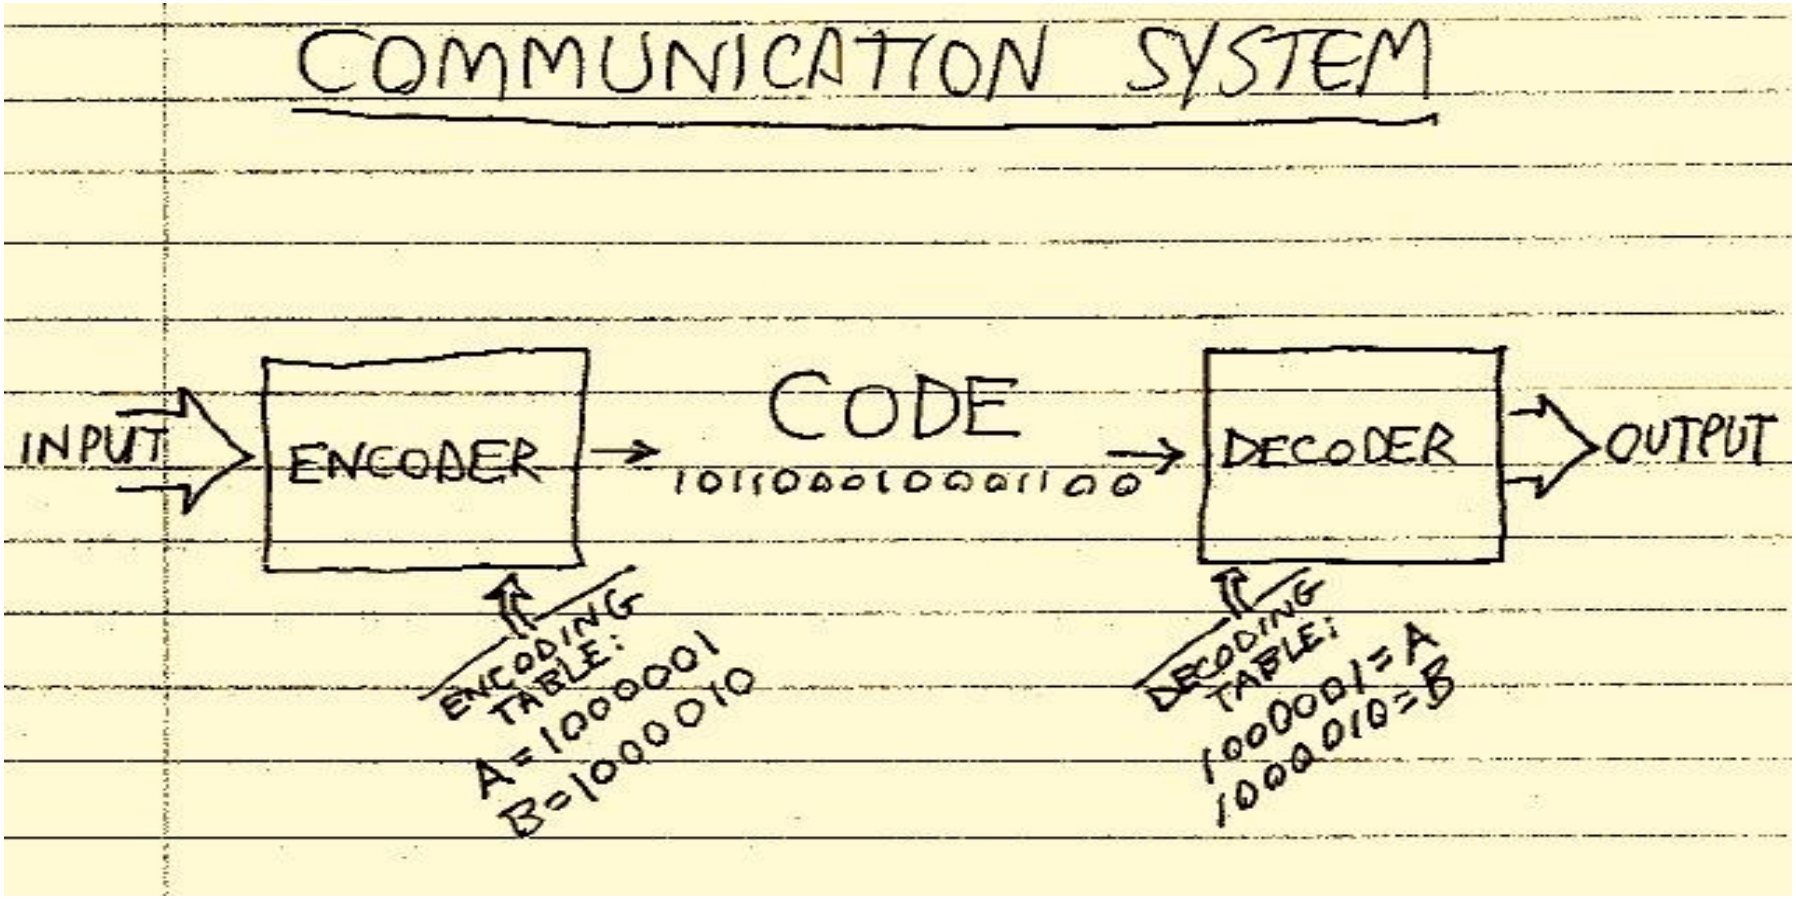


RELEVANCE TO FUTURE SUBJECTS

- **Embedded Systems & RTOS (Semester VI)**
- **Electronic Product Design (Semester VI)***
- **VLSI Design (Semester VII)**
- **Internet of Things (Semester VII)**
- **MEMS Technology (Semester VIII)***

**** offered as electives in their respective semesters***

3. Information Theory & Coding



3. Information Theory & Coding

PROPOSED COURSE CONTENTS

- Concept of Information & Data
- Introduction to Communication System
- Principle of Encoding & Decoding Technique
- Data Compression
- Error Detection & Correction in Data
- Multimedia (Audio & Video) Encoding & Decoding Techniques

3. Information Theory & Coding

PRE – REQUISITE SUBJECTS

- Electronic Devices & Circuits
- Digital Electronics
- Applications of Engineering Mathematics (Probability Theory & Random Variables)
- Control & Instrumentation (Signals & System)

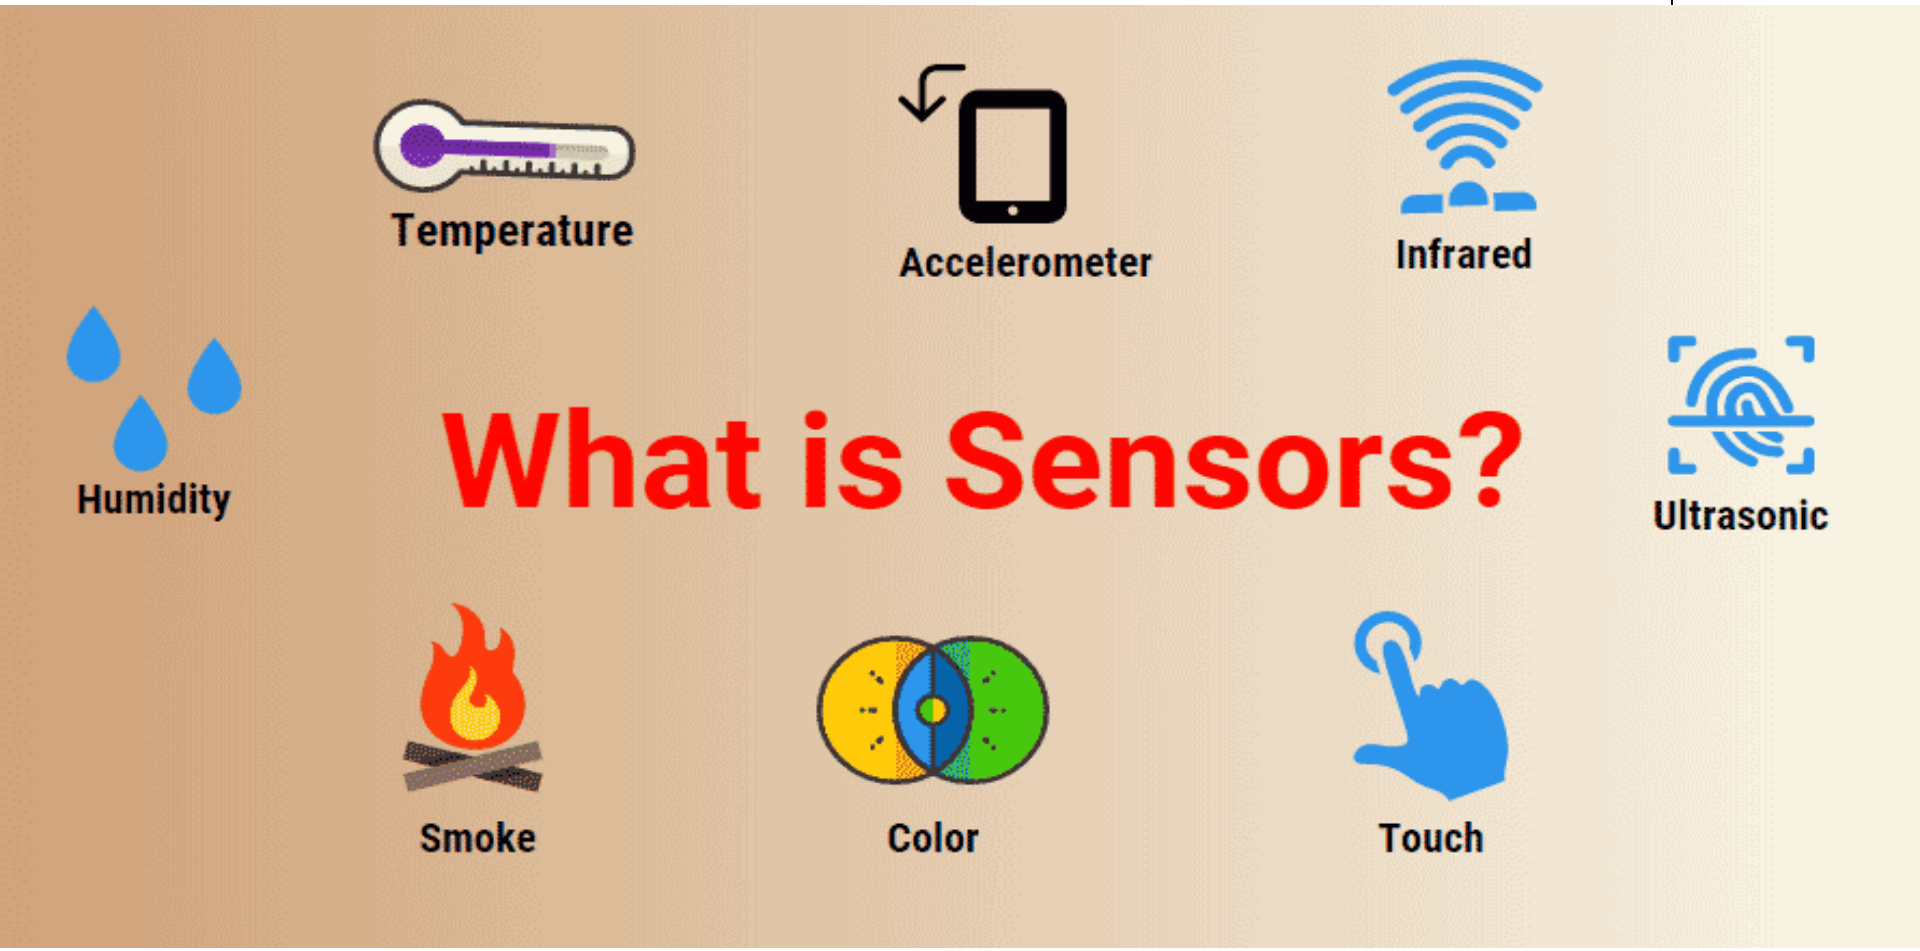
3. Information Theory & Coding

RELEVANCE TO FUTURE SUBJECTS

- **Digital Signal Processing (Semester VI)***
- **Image Processing (Semester VII)***
- **Mobile Communication (Semester VII)***
- **Natural Language Processing (Semester VIII)***

**** offered as electives in their respective semesters***

4. Sensors & Applications



4. Sensors & Applications

PROPOSED COURSE CONTENTS

- Introduction to Sensors
- Physics of Sensor Operation
- Characteristics & Specifications of Sensors
- Application Domains of Sensors
- Interfacing of Sensors
- Principle of ‘Smart’ Sensors
- Industry Standards & Calibration of Sensors

4. Sensors & Applications

PRE – REQUISITE SUBJECTS

- Electronic Devices
- Electronic Circuits (Operational Amplifiers)
- Control & Instrumentation
- Applications of Engineering Mathematics

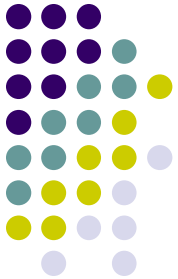
4. Sensors & Applications

RELEVANCE TO FUTURE SUBJECTS

- **Industrial Automation (Semester VI)***
- **Electronic Product Design (Semester VI)***
- **Internet of Things (Semester VII)**
- **Robotics (Semester VIII)**
- **MEMS Technology (Semester VIII)**
- **Major Project – I & II**

**** offered as electives in Semester VI***

CHOOSING AN ELECTIVE

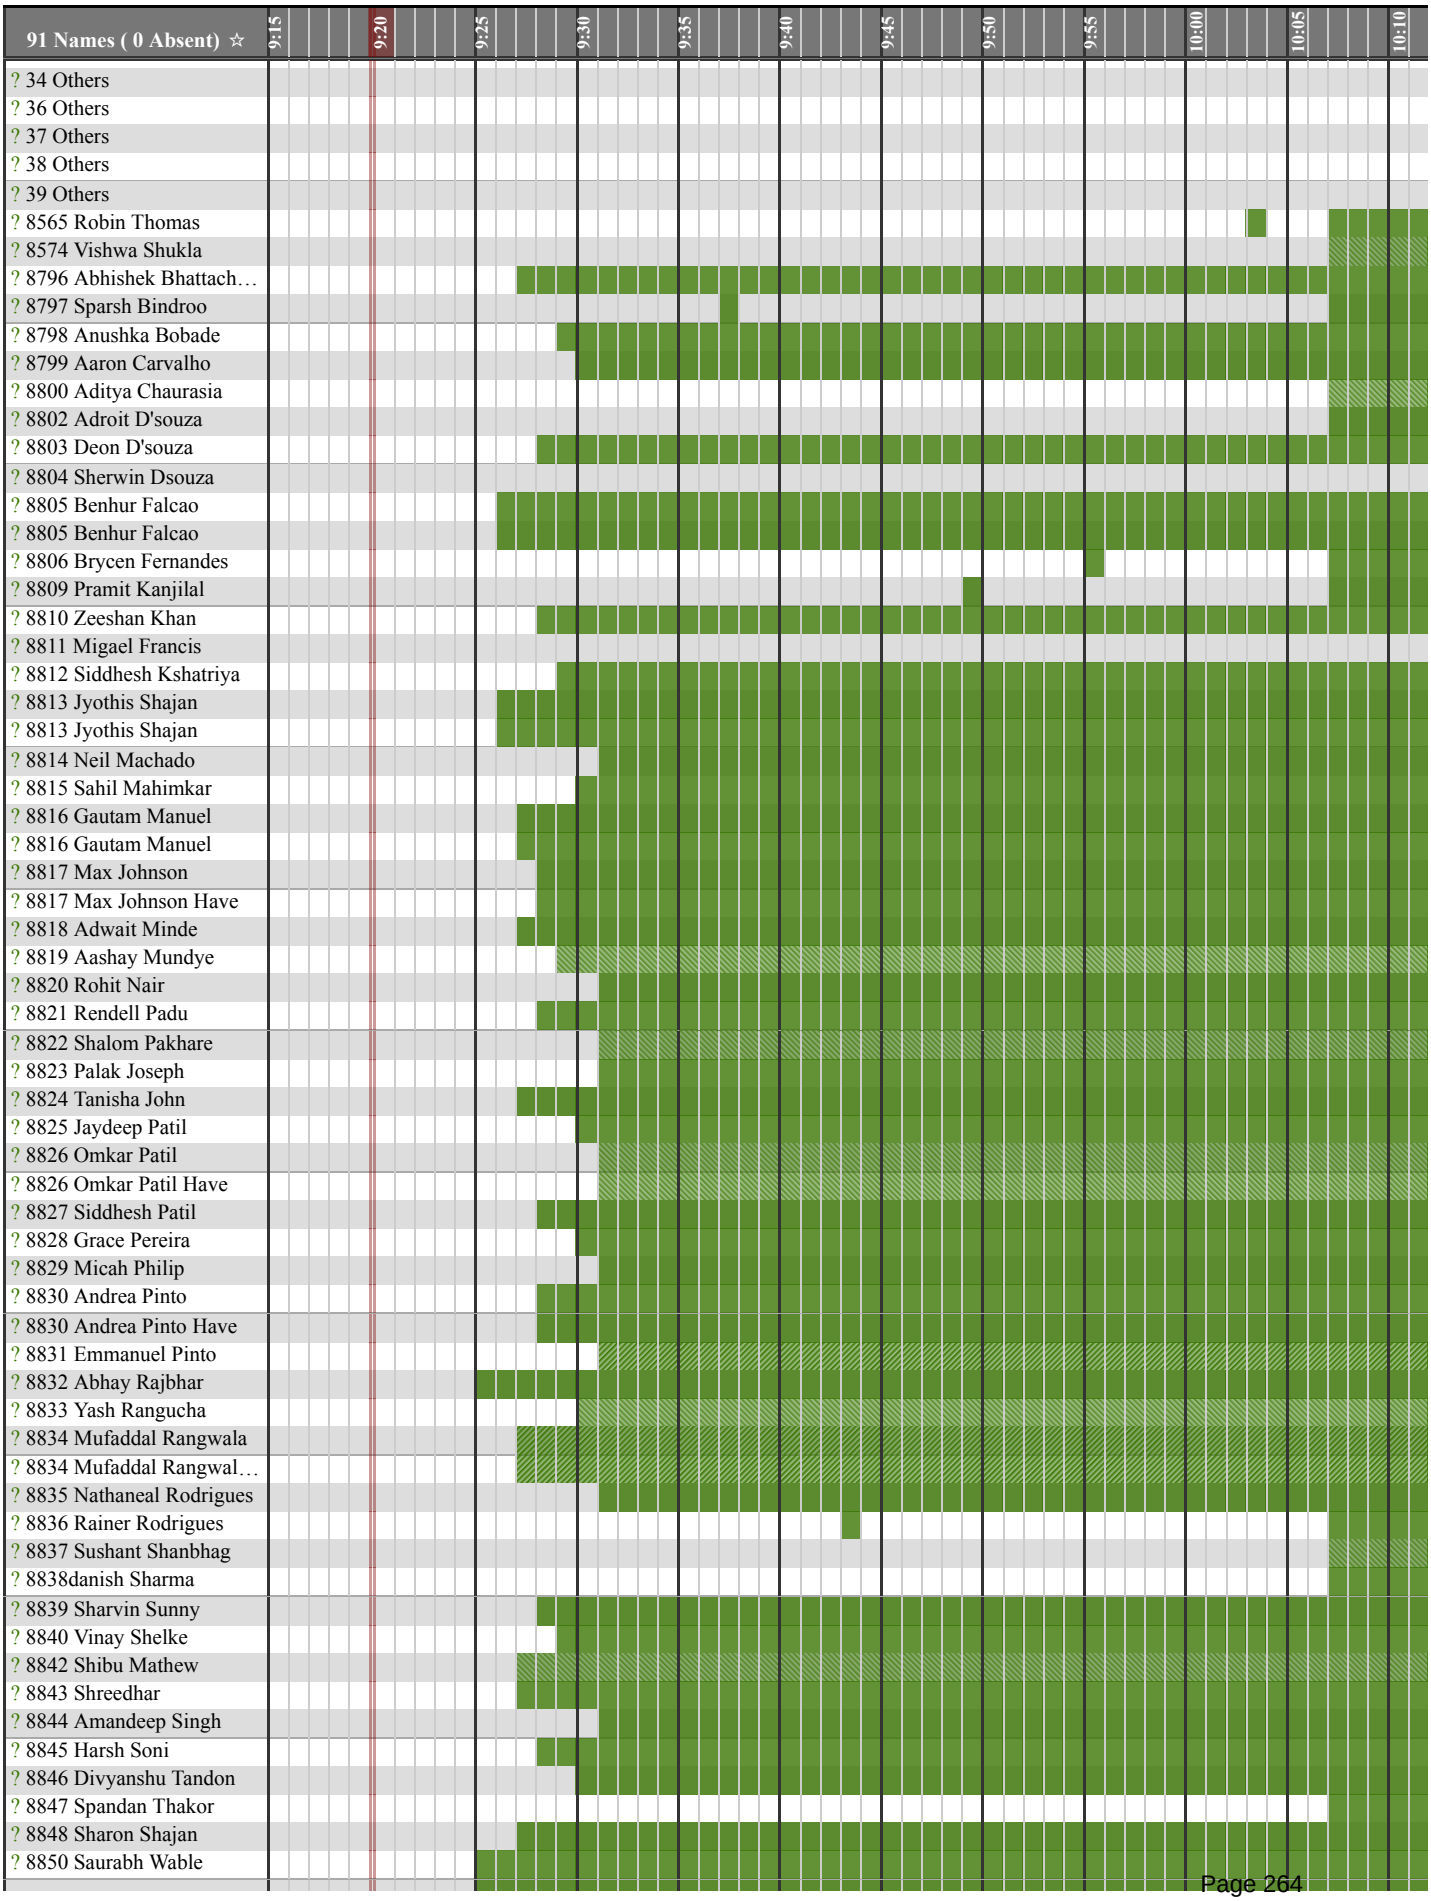


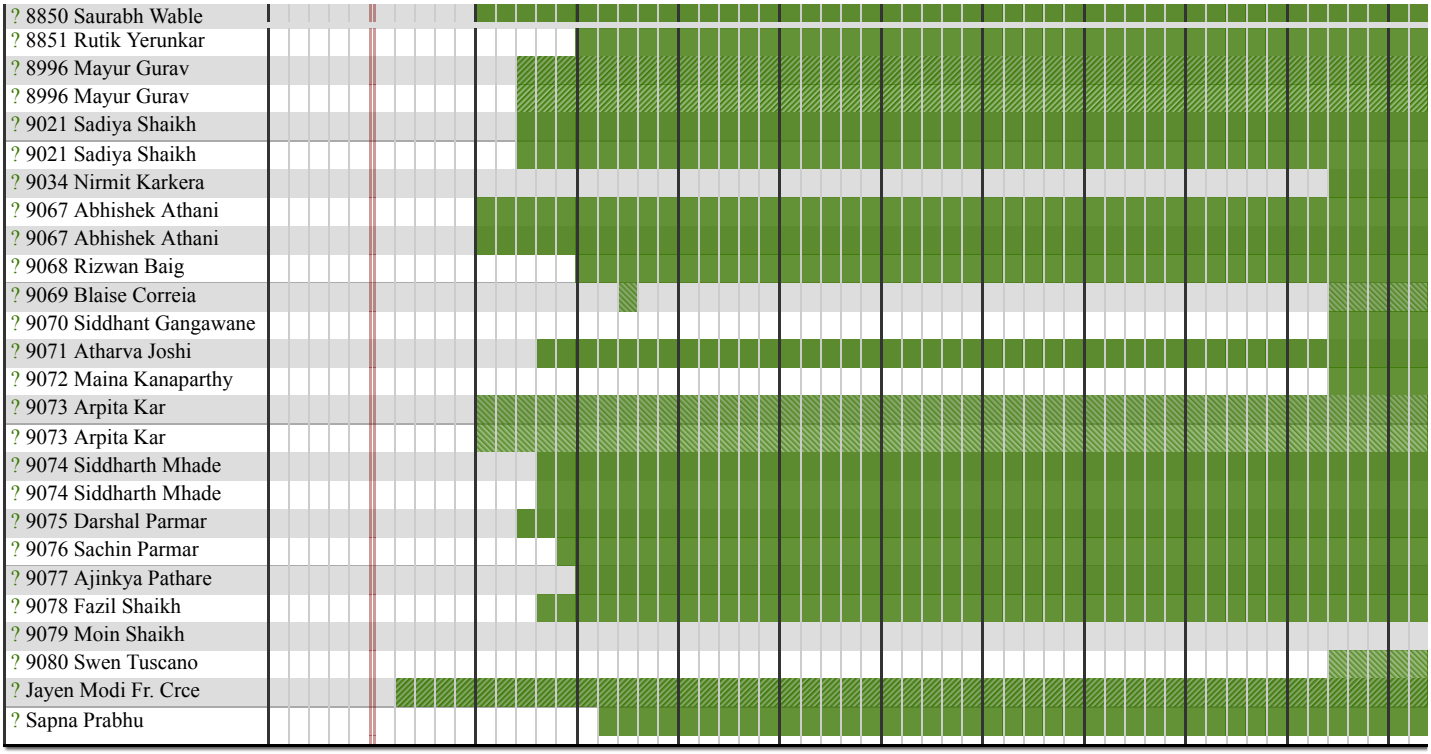
- **Choose an elective which interests you for further course of study & career prospects**
- **Check out the syllabus**
- **Pick up your area of interest**
- **Refer online for the scope of each elective**
- **Consult with your respective staff mentors**
- **Be on your own – your friends aren't going to write the exam for you, nor submit term work or give the viva so don't follow them in choices !**

ALL THE BEST !

Daily Attendance Report for electives-orientation-for-t.e.-(ecs)---semester-v: 2021-06-12

Class Name:**electives-orientation-for-t.e.-(ecs)---semester-v** Meet ID: **met-tibh-jub** Date: **2021-06-12** Earliest Arrivals: **09:20** Start: **9:20**
End: **10:50** Duration: **90** min





Daily Attendance Legend:

✓ The student was present then exited, rejoined, then exited again, and rejoined again, etc., etc.
The alternating background patterns indicate that the student may have left and rejoined the Meet
✓ The student was marked present by the teacher (but did not shown up in the Meet window)
The student missed the entire class
Help videos:
To help your eye follow across the page, the table rows alternate between white and grey backgrounds which leads to two subtly different shades of green for the times when the student was present
NB - If you want a printed copy of this report, make sure that the 'More settings' → 'Background graphics' checkbox is checked in the Print dialog

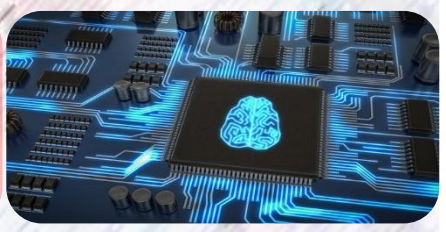
Generated by the Google Meet Attendance extension (v1.5.2)

RANKINGS | AFFILIATION | ACCREDITATIONS | APPROVALS

ELECTRONICS & COMPUTER SCIENCE (ECS)

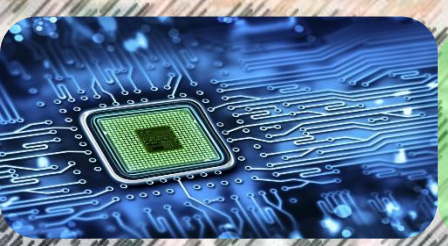
All students can orient their studies & accordingly select their careers towards any of 'career tracks' as mentioned below; thereby meeting the requirements of Industry 4.0 thus subsequently opening up new horizons; not only for their growth as professionals but also for future studies !

TRACK # 1 – SOFT COMPUTING



TRACK # 2 – WEB TECHNOLOGIES, IT INFRASTRUCTURE & MANAGEMENT

TRACK # 3 – COMMUNICATION, INFORMATION & SIGNAL PROCESSING



TRACK # 4 – EMBEDDED SYSTEMS, VLSI & INTERNET OF THINGS (IOT)

‘MENTORING TOWARDS PREPARATION FOR PLACEMENTS & FUTURE CAREERS IN I.T. INDUSTRY’

BY

CHUNDELIKATT NOEL JAYMON

Chatbot Engineer

Quantiphi Analytics Solutions Pvt. Ltd.

Friday, 23rd October 2020

Initiative by Jayen Modi, Assistant Professor,

Department of Electronics & Computer Science

Fr. Conceicao Rodrigues College of Engineering

REPORT ON GUEST LECTURE BY INDUSTRY EXPERT

1. Overview & Details

Guest Lecture Title	Mentoring Towards Preparation for Placements & Future Careers in IT Industry by Chundelikatt Noel Jaymon
Venue / Location	Google Meet Platform (Online) https://meet.google.com/cnz-esgt-och
Activity Organizer & Co-ordinator	Jayen Modi, Assistant Professor Department of Electronics & Computer Science Fr. Conceicao Rodrigues College of Engineering
Day, Date & Timings	Friday, 23rd October 2020 – 12:30 pm to 01:45 pm IST
Brief Background of Guest Speaker / Resource Person	Chundelikatt Noel Jaymon is an alumnus of the Department of Electronics Engineering at Fr. Conceicao Rodrigues College of Engineering from academic year of 2019 – 2020. He currently is working as a chatbot engineer at Quantiphi Analytics Solutions.
Intended / Target Audience	S.E. (Electronics & Computer Science) – Semester III
Motivation & Objective of the Guest Lecture (Talk)	The objective of this talk is to enlighten & motivate the students of the Electronics & Computer Science discipline to explore technological avenues of the future & to gear up for challenges. He wishes to connect with target audience by describing his own journey as engineering student, a fresher, an intern & later a professional. Noel explained in detail the skills one needs to develop to meet the requirements of Industry 4.0 & also suggested some of domains such as artificial intelligence, machine learning, cyber security etc. that could have tremendous scope in the near future. Noel also stressed on the need to be very well versed with coding & knowledge of programming languages such as C/C++, Java & Python. Finally, he concluded by advising all students to take experience from internships.
Contents of Guest Lecture by Resource Person	• Competitive coding • Importance of internships • Resume building tips • Networking on LinkedIn • Opportunities & job prospects in IT for Industry 4.0
Google Meet Recording Link of Guest Lecture (Talk)	https://drive.google.com/file/d/1_EUs1pJzNnmlYWJh10QWkWPczDQsEPkJ/view?usp=sharing

Jayen Modi Fr. CRCE <jayen.modi@fragnel.edu.in> 23 October 2020 at 10:51
To: noeljaymon23@gmail.com

Dear Noel

Heartiest congratulations on landing up a job offer with Quantiphi as a chatbox engineer !

With respect to our telephonic conversation, kindly address the students of second year engineering from electronics & computer science (ECS), guiding & orienting them towards placements & corporate environment. You can describe your own experience, how you prepared for the same, the internships you did - anything which will motivate them & make them look forward towards working in a professional & corporate atmosphere.

As discussed, the Google Meet Link ID will be shared with you for today's session 12:30 pm to 1:30 pm in a short while.

Once again, thanks for your accepting the invitation at such a short notice.

Regards,

Jayen Modi

Virtual Guidance Session & Preparatory Meet by Alumni for the Placement Process of

SECLORE

Securing Information Wherever It Goes

Thursday, 18th February 2021
@ 7:30 pm IST (online)

PINTO GAIL CLARENCE

B.E. (Computer Engineering) – 2018 Batch

Product Engineer @ SECLORE from 2018 – 2020

Pursuing M.S. in CS @ Northeastern University, USA

Open to only those students who have registered for SECLORE. Please check your respective emails for the invitation link of the Google Meet ID.

VIRTUAL GUIDANCE & ONLINE INTERACTION MEETING

1. Overview & Details

Orientation Programme	Virtual Guidance Session & Online Interaction Meeting regarding the placement process for SECLORE Technologies By Training & Placement Office (TPO)
Venue / Location	Online on Google Meet (https://meet.google.com/whyi-mnjv-gii)
Activity Co-ordinator	Jayen Modi Assistant Professor, Department of Electronics & Computer Science (ECS) Fr. Conceicao Rodrigues College of Engineering (Fr. CRCE)
Day, Date & Timings	Thursday 18th February 2021 from 07:30 pm IST onwards
Key Resource Persons / Industry Speakers	Pinto Gail Clarence – B.E. (Computer Engineering) Batch of 2018 Former Product Development Engineer, SECLORE Technologies Currently pursuing M.S. Computer Science at Northeastern University (USA)
Objectives of the Virtual Guidance Online Session & Interaction Meeting	The lockdown enforced by the Indian Government on account of the COVID-19 pandemic changed entire hiring ecosystem. It brought the whole process online right from registration to the pre-placement talks followed by the aptitude & the technical tests, culminating with a virtual interview session either on Zoom or Google Meet or MS Teams. Keeping this practice in mind, training & placement office (TPO) took the initiative to hold a virtual guidance session & preparatory online meeting session for certain select companies. Their goal was to invite the alumni already placed in the particular company to address the students & inform them about the expected selection process. The alumni discussed, in detail about their own experience as prospective candidates, enriching students about various aspects of the placement selection process. Many myths were busted & several questions were answered pertaining to whatever doubts students had. Primary objective was to prepare the students in advance with additional training on the specific company-related matters (with inputs received from the alumni giving a large coverage from their experience). It motivated the students & gave them a really good insight as to what they were expected to face for the placement drive.

The Google Meet link recording of the entire session can be accessed by clicking the following link below :-

To: gail.r.pinto@gmail.com
Cc: "heenak.pendhari CRCE" <heenak.pendhari@fragnel.edu.in>, heenak.pendhari@frcrce.ac.in, tpo <tpo@frcrce.ac.in>, "TPO - Fr. CRCE, Bandra" <tpo@fragnel.edu.in>

Dear Pinto Gail Clarence

Hope that you are well & safe (along with your family members) in the wake of this pandemic.

We have an invitation from SECLORE through an online portal (forwarded to you earlier) for the position of product engineer.

It is our utmost sincere & humble request to you for addressing our B.E. students at a date & time of your choice, preferably in the evenings. Discussion about the whole placement process by you will not only go a long way in motivating them, but will also give them a really good insight about what they're expected to face. You can start off with a description about the test, your own experience during the interviews etc. Some useful tips & guidance can also be a part of this session.

Kindly reply back to this email with an acknowledgement since it is a formal invitation. The students also need to be informed accordingly. If all goes well then you can expect a crowd of around 80 - 90 of them. For a quick communication my contact number (linked to WhatsApp) is also mentioned herewith.

We shall be using the Google Meet platform with facilities for attendance marking & live recording for the same. I will initiate the meeting & send the Google Meet ID to your respective email embedded into the Google Calendar.

As discussed over WhatsApp, we can fix the online meet on Thursday, 18th February 2021 @ 7:30 pm IST.

Thanking you & regards,

Jayen Modi

REPORT – UBS INTERVIEW PREPARATION GUIDE

Event : UBS Interview Preparation Guidance

Date : 12/3/2021

Speakers: Mehek Male,Cassia VAZ,Elvis Dsouza,Nitesh Prasad - UBS

Platform : Zoom Meeting

No of participants : 80

Session Duration : 1 Hour 13 Minutes

Recording Link :

https://drive.google.com/file/d/1k9Ohf1q2wj9jtRmyThEHrWfW1yfuwPLk/view?usp=sharing

Interactive session was conducted for SEMESTER VI students by placement cell. All 4 speakers guided very well for placements of UBS. Many Students asked queries and effective suggestions were suggested by the speakers.the Recording Link is provided above.

Sample guide for preparation as provided to the students as given below.

Offer: Internship (Pre-Placement Offer)

Package: 8.5 LPA (Full Time)

Aptitude Test:

The interviews were conducted during the third week of January 2020 for the Summer internship at UBS.

The first round was an online test conducted on Hackerrank platform with duration of 90 minutes. The test consisted of Aptitude as well as a Coding question. The aptitude questions were based on data interpretation, finding the next term in the sequence, and so on. There was one coding question at the end. Approximately 30 students were shortlisted after the first aptitude test.

FR. CONCEICAO RODRIGUES COLLEGE OF ENGINEERING
FR. AGNEL ASHRAM, BANDRA MUMBAI- 50

(DR. SRIJA UNNIKRISHNAN)

1st Technical Interview:

The technical interviews were conducted on the next day after the pre-placement talk. The shortlisted students from the aptitude test had to go through the 1st Technical interview. The interview began with basic HR questions like “Introduce yourself”, “Any plans for Further Studies” and so on. When an interviewer puts forth such questions, be confident while answering. Further the interviewer asked me to describe my projects. After an in-depth discussion about my projects, the interview further proceeded with questions related to databases. I was asked to solve various SQL queries based on group by clause, order by and so on. Further questions based on concepts of OOP features such as Inheritance, Encapsulation and so on were asked. The interviewer may ask you to draw an ER diagram for any application. (Note: I was asked questions related to databases as I had mentioned it in my resume). Questions based on Java and data structures were also asked.

2nd Technical Interview:

The interview began with an HR question, “Tell me something about yourself ”. While answering such questions, try and speak about your strengths, give a short description about your projects, so that the interviewer can ask you questions based on the things that you have worked on. Further I was asked to describe my projects in detail based on the technologies that were used. Later the interviewer designed an application and asked me what changes can be made in the application, so as to improve it. This round was not completely technical for me, I was asked questions related to my role in a non tech club. As I had mentioned that I had organised a marathon with my team members, I was asked to describe the entire flow of the run and what difficulties were faced during the process.

3rd HR Round:

During the HR round, the interviewer majorly checks your confidence while your answering the questions. The interviewer asked questions such as Introduce Yourself, speak about your strengths and weakness, why do you wish to join UBS, are you willing to relocate and so on. Speak about how your presence in the company, can benefit the company.

Points to note:

The internship opportunity provided by UBS, is a very good chance for you’ll to get into the organization. Once you are selected for the internship and if you perform well, you are given

(DR. SRIJA UNNIKRISHNAN)
PRINCIPAL

a pre-placement offer which thereby makes things a lot easier. Each round during the interview process is an elimination round. In the technical interviews, the major focus is on Java and OOP features. Knowledge regarding data structures and algorithms is important. Practice well for the aptitude test. Various sites such as Indiabix, Geeksforgeeks, Hackerrank, Leetcode, etc can be used for the interview preparation.

Good Luck!

WORKSHOP ON RESUME BUILDING

Saturday 3 October 2020
Fr. CRCE, Bandra:

Without a favorable initial impression, a prospective employer is likely to stop considering you as a suitable candidate for the job on offer and move on to other candidates who have provided better resumes. Think of a resume as a tool for marketing yourself. It's more than just a document: It outlines your background, your skills, and your education so that a potential employer is quickly and easily able to see how your individual experiences can contribute to a company's success.

The session was organized on 3rd October 2020, from 4 pm to 6 pm for the students of Fr. CRCE. The session was attended by 71 students (attendance attached below). The speaker was Mr. Sojan Chandy, the chairperson of the ACM council. The students were briefed on why a resume is an important document and its value. The do`s and don`ts were explained to the students point by point. A sample resume had been on the board using a projector and the points were explained carefully keeping in mind the mindset of the interviewing panels of various companies. The resume was divided into various sections and each section was properly explained for both – tech as well as non-tech candidates.

After the resume-building part was over, our speaker, Mr. Sojan Chandy, shared his interview experience with ZS Associates. Several queries regarding the interviewing process were brought up during the period, all of which were beautifully attended to. Mr. Sojan took care that no questions by the students were left unanswered.

The session was brought to an end by Mr. Sojan, giving some tips to the students so that they too can ace their interviews, just like he did!

3rd October 2020

To,
Mr. Sojan Chandy
ZS Associates

Respected Sir,

Our ACM Council of Fr. CRCE is organizing a resume-building event named the "Career Flight" on 10th October 2020 for the academic year 2020-21.

We sincerely feel that your authority and expertise in the above field will greatly serve and truly inspire our participants. The talk is scheduled for 10th October 2020 from 04:00 p.m. to 06:00 p.m.

We earnestly request you to accept our invitation and kindly make it convenient to be a part of our endeavor.

Thanking you,

With Regards,

Dr. (Mrs.) Srija Unnikrishnan
Principal

Mr. Sojan Chandy,
ZS Associates

Subject: Letter of appreciation for conducting the webinar- "Career Flight".

Dear Mr. Sojan Chandy,

I, on behalf of the Association for Computing Machinery, CRCE would like to express our heartfelt gratitude to you for your conducting the webinar entitled “Career Flight” which was scheduled on 10th October 2020. The whole council sincerely appreciates your effort in making the event a grand success.

Your skill in talking about different angles of the subjects “Resume Building” and “Campus Interview and Placements" are unmatched; while the questions in the Q&A round were addressed by you in such depth and detail and were well received by our audience. We are pleased to inform you that we have received many positive feedbacks of the session. Your words were highly inspiring and motivating to the attendees.

Thank you for sharing your extremely precious time with us and providing all sorts of guidance to us as well as to all the participants. We wish you all the best for your future endeavors.

Yours Truly,

Ms. Rebecca Dsouza
(Chairperson)

Mrs.Prajakta Dhamanskar
(Teacher-In-Charge)

Feedback 1 – Career Flight

Totally enjoyed and learned a lot in a comfortable environment. The style and the knowledge of the presenter, Sojan, was totally amazing. The techniques personally helped me in my errors which I saw in my own resume and helped me solve those. I am happy to try and introduce it to others. The workshop was an experience in itself, unlike any other workshops, as the presenter had a very joyous mood and was very open to any doubts we had, may it be as silly as it can be. There were many wonderful techniques that I will use in my practice. Everything was presented in a clear and engaging way with obvious and immediate results. It is easy and enjoyable and really useful. Glad to know this teaching. Thanks a lot!

Feedback 2 – Career Flight

This is a must workshop for anyone once because it's covering important guidelines and techniques to present information in our resume's. Regular scholar training is missing this kind of seminar, even though 1h30 was already enough to make a significant difference in our understanding of visual communication, which is crucial. The workshop was very well organized and presented, crystal clear and with a good rhythm so as to not to fall asleep after a long lecture. I liked the fact that the speaker tried to get the audience involved by making it a discussion. Many of the things discussed were fairly elementary, and many of them I knew already beforehand. However, there is a significant difference between "knowing" something in the back of your mind and actively recognizing and implementing them per each form of your resume for many companies. Therefore I found it useful to have basic concepts of a good figure spelled out and some of the distinct words from the dictionary, along with the look for the particular company presented. I will definitely use in the future.

Post-Event Summary Report

Name of the Event: **Get Hired - Kickstart for Off-Campus Interviews with Kushdeep Mittal**

Speaker of the Event: **Mr. Kushdeep Mittal.**

Date of Event: 03 March, 2021.

Mode of Event delivery:Zoom.

No. Of participants: 108.

Star performer (Student): Mr.Robin Lobo.

Theme of the event: Career Guidance / Seminar.

Summary of the Event.

On 03 March, the ACM council organized a Career guidance seminar for off campus placements on Zoom, from 04:00pm to 06:00pm. The speaker of this event was **Mr. Kushdeep Mittal**, having industrial experience of working in unicorn startups like 'ShareChat' and 'Vedantu' as a software developer

Mr. Sherwin Dsouza started the session with an opening and welcome speech. Mr. Kushdeep Mittal (SDE at ShareChat) guided us through the complete interview process. He reviewed some of the resumes. We also got some exposure to industrial requirements, in-demand skills required to get an internship, and a lot more. The event labeled "Get Hired", which was scheduled for 3rd March at 4 pm, was done for this very purpose. The speaker yielded some good roadway towards the 12LPA+ Package and shared many points regarding on-campus as well as off-campus interviews and resume building.

Mr. Vinay Shelke concluded the event by a vote of thanks to the Speaker as well as to the participants.

Pranav Gangurde (Vice- Chairperson)	Lance Main (Secretary)	Prof. Prajakta Dhamanskar (Faculty In-charge)

Get Hired – Feedback 1

Career guidance is really important in life. Everyone must at least once approach an expert for the same so as to get their doubts cleared. I attended this workshop for the very reason as it helped me learn about the mistakes that I had done in my own resume, which would have been devastating and could have resulted in me not getting my dream job in the future. I also got to learn some interesting ideas that I can use to liven and brighten up my own resume, as the speaker had reviewed a lot of resumes in the workshop itself. He also showed and guided us as to what we have to learn for a particular job and how we are to write a corresponding resume for it. I really appreciate the effort the speaker took as he was very welcoming and was very open with all the doubts we had. Thank you for this workshop, really helped me.

Get Hired – Feedback 2

I really loved this workshop for career guidance. All the doubts that I had were successfully solved by the speaker, regarding all the small errors that I had in my resume, to the requirements that I had to start working on for the job that I have been dreaming off. It's really been a great seminar, I got to learn some great techniques that I could use to approach a company better. Also, the speaker interacted with us a lot more and asked us about some of our career paths, and guided us on the best path to take, which I found really helpful. Very inspirational, the seminar helped to sort out the problems related to study habits, cleared all doubts about career and how to move on when you are confused and unsuccessful in making career decision. I am very much satisfied as it has enlightened my future career scope. Career guidance is something that I am glad I could be a part of. Thank you for this seminar.

Get Hired – Feedback 3

Excellent concept! Very helpful in career planning and choosing the right career path. The seminar gave me a clear and thoughtful idea about various career options that are clearly best suited to my abilities and interests. It helped me to know my personality and mental capacity. It made me clear about my future plans. It was an eye-opener session. Got to know about both strength and weakness. I am sure to work on my weak points as per speaker's suggestions. I got all our doubts clarified and got a way to follow my career in right direction. I am happy with the in-depth information and the suggestions given by the speaker. Thank you again for all the career help and guidance. When I first came to the workshop, I couldn't make up my mind on anything, now if you ask me how satisfied I am with the direction I was heading with my career choice, it would be a 10/10.

MOZILLA CAMPUS CLUB CRCE 2020-21

Event : How to prepare for AWS Certification

Date : 31/10/2020

Speaker name & Organization : Mr. Pranit Raje, Cloud Support Engineer – I (Deployment), AWS

Platform : Google Meet

No of participants : 147

The webinar was conducted by Mr. Pranit Raje, who is a Cloud Support Engineer – I (Deployment) at Amazon Web Services and also an alumnus of our college. The main purpose of this webinar was to guide the attendees regarding the need of AWS certification and its scope in the near future. Mr. Pranit began the session briefing about the Demand of Cloud Based Services in the IT industry. It was followed by an introduction to AWS and the roadmap for AWS Certifications and the value it holds in the industry. The speaker, being four times AWS certified himself, also shared his personal experience on being interviewed for AWS. The event marked its end with a question and answer round thus making it an interactive session. 78 students attended the event.

(Faculty In-charge)

WEBINAR REPORT

Event: Skilling up for Cyber Security Specialist – a cutting edge for inventions

Date & Time: 27th March 2021, 4 pm

Speaker: Mr. Rohit Date, Cyber Security Associate at BDO in India (Alumnus of Fr. CRCE)

Platform: Google Meet

No. of Participants: 50

The webinar was delivered by Mr. Rohit Date who is currently a Cyber Security Associate at BDO in India. Cyber Security specialists play a key role in securing information systems, working on IT teams that are dedicated to protecting the integrity of the business's network and data. As today's world becomes increasingly more dependent on the internet and mobile computing to accomplish everyday tasks, the issue of security becomes more urgent, leading to a surge in the demand for more Cyber Security engineers.

The main purpose of the session was to introduce the participants to Cyber Security and its various domains and thus highlight it's growing importance. Cyber Security is a fascinating branch of Information Technology and is ideal for people who enjoy taking on challenges. The session began by introducing the participants to the actual definition and need of Cyber Security in different domains ranging from transportation, shopping, medicine and so on. The speaker also highlighted a few important Cyber Security statistics for 2020 followed by an introduction to breaches and the possible chances of availability of 3.5 million unfilled Cyber Security jobs globally by 2021.The participants were enlightened about the different domains of Cyber Security followed by frameworks, importance of Security Architecture, risk assessment, governance and user education. The participants were guided about the pre-required skills to become a Cyber Security Specialist and the different paths, certifications and projects to conquer them.

Post the webinar, students shared their feedbacks through the feedback form that was circulated. Several students appreciated the efforts put in by the speaker to make the webinar and the presentation interesting. A total number of 50 students attended the session.

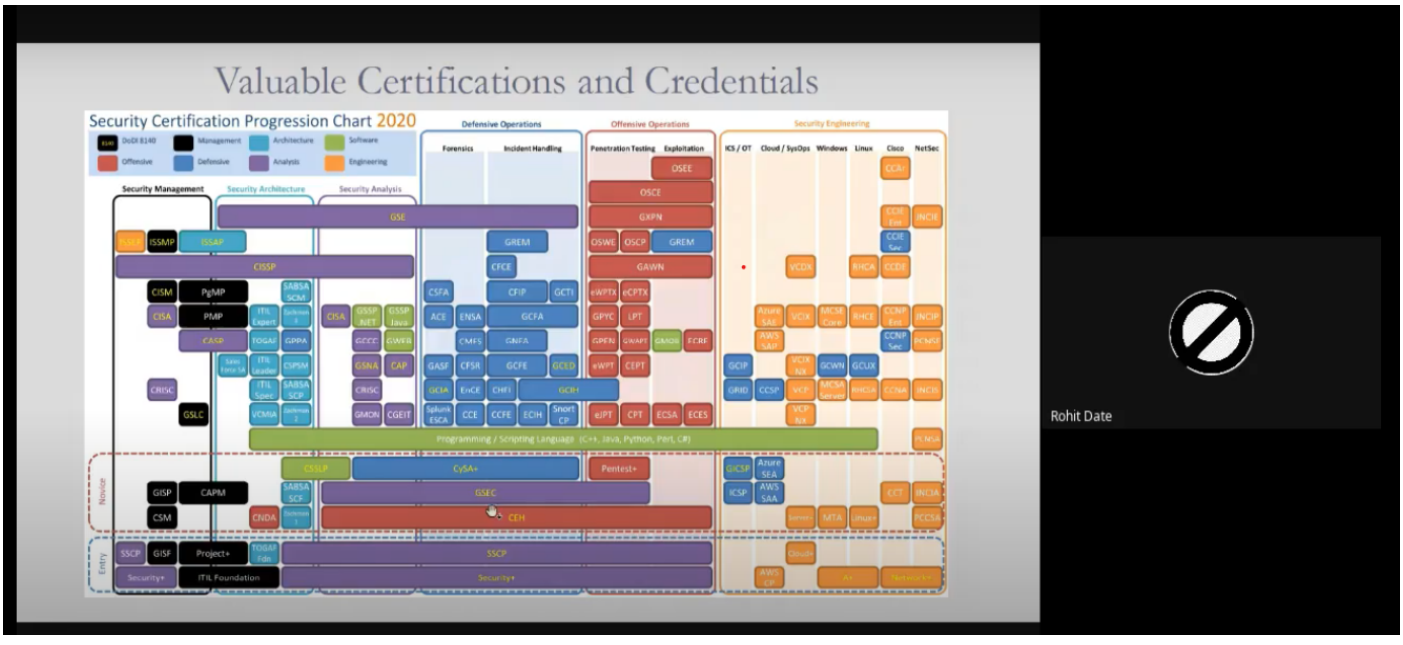
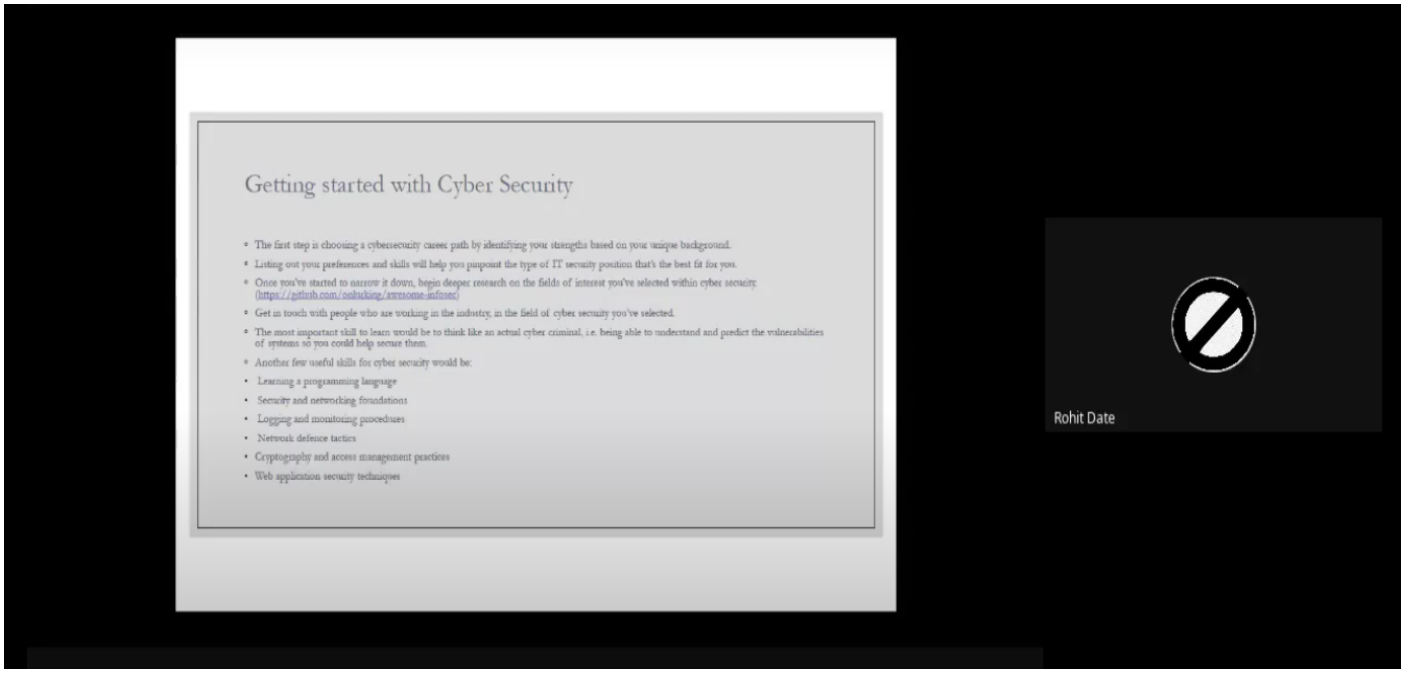
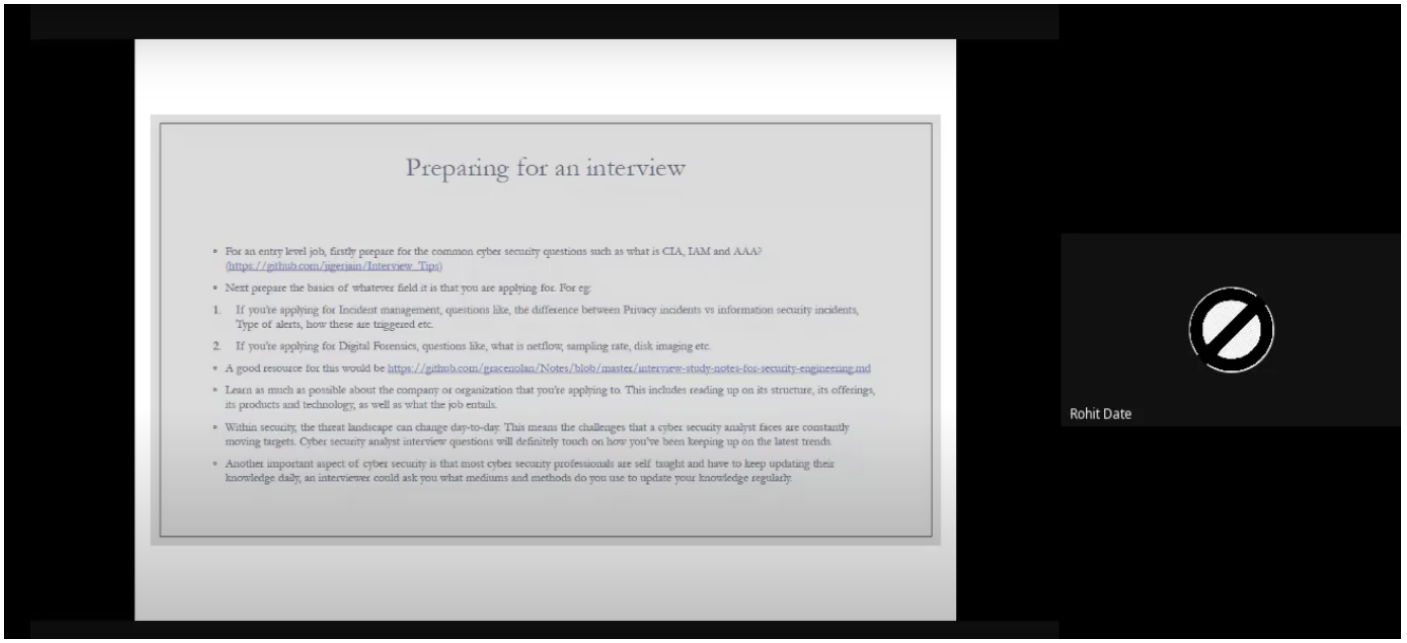
Vedaant : +91 9511246039



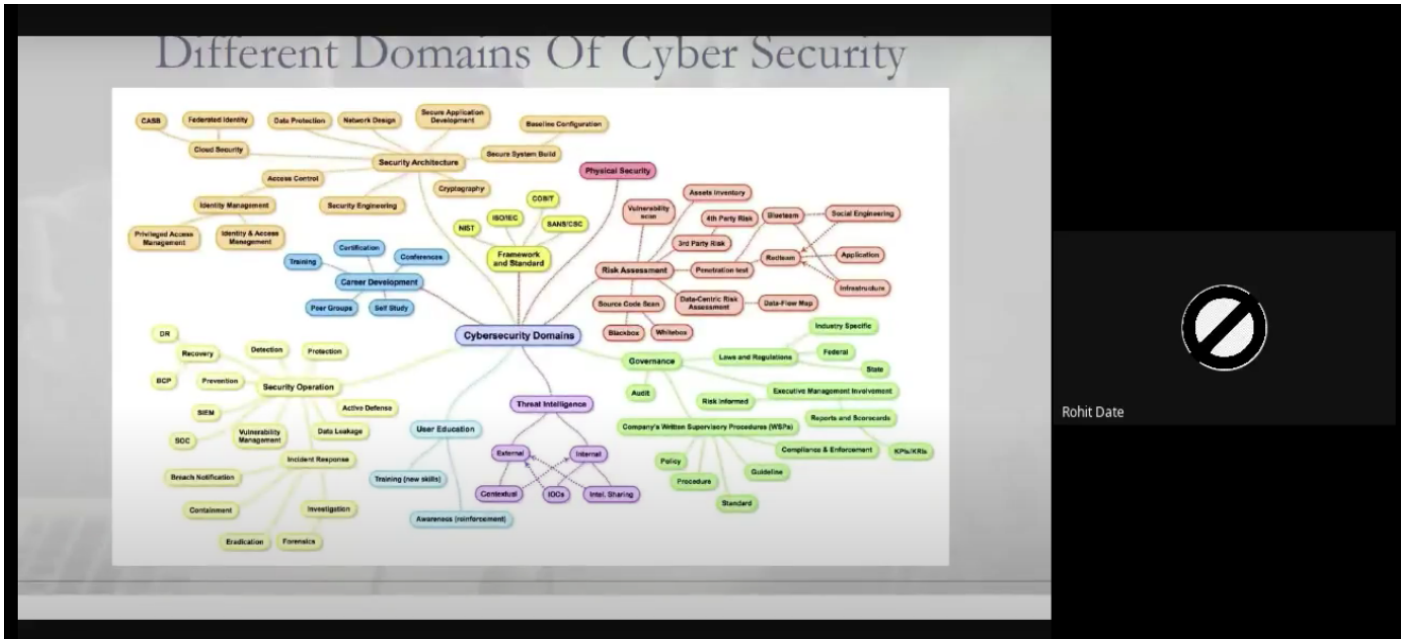
Valuable Certifications and Credentials
Security Certification Progression Chart 2020
Rohit Date



Getting started with Cyber Security
The first step is choosing a cybersecurity career path by identifying your strengths based on your unique background.
Listing out your preferences and skills will help you pinpoint the type of IT security position that's the best fit for you.
Once you've started to narrow it down, begin deeper research on the fields of interest you've selected within cyber security. (https://github.com/osbuckling/awesome-infosec)
Get in touch with people who are working in the industry, in the field of cyber security you've selected.
The most important skill to learn would be to think like an actual cyber criminal, i.e. being able to understand and predict the vulnerabilities of systems so you could help secure them.
Another few useful skills for cyber security would be:
Learning a programming language
Security and networking foundations
Logging and monitoring procedures
Network defence tactics
Cryptography and access management practices
Web application security techniques
Rohit Date



Preparing for an interview
For an entry level job, firstly prepare for the common cyber security questions such as what is CIA, IAM and AAA? (https://github.com/jigersain/Interview_Tips)
Next prepare the basics of whatever field it is that you are applying for. For eg:
1. If you're applying for Incident management, questions like, the difference between Privacy incidents vs information security incidents, Type of alerts, how these are triggered etc.
2. If you're applying for Digital Forensics, questions like, what is netflow, sampling rate, disk imaging etc.
A good resource for this would be https://github.com/gracenolan/Notes/blob/master/interview-study-notes-for-security-engineering.md
Learn as much as possible about the company or organization that you're applying to. This includes reading up on its structure, its offerings, its products and technology, as well as what the job entails.
Within security, the threat landscape can change day-to-day. This means the challenges that a cyber security analyst faces are constantly moving targets. Cyber security analyst interview questions will definitely touch on how you've been keeping up on the latest trends.
Another important aspect of cyber security is that most cyber security professionals are self taught and have to keep updating their knowledge daily, an interviewer could ask you what mediums and methods do you use to update your knowledge regularly.
Rohit Date



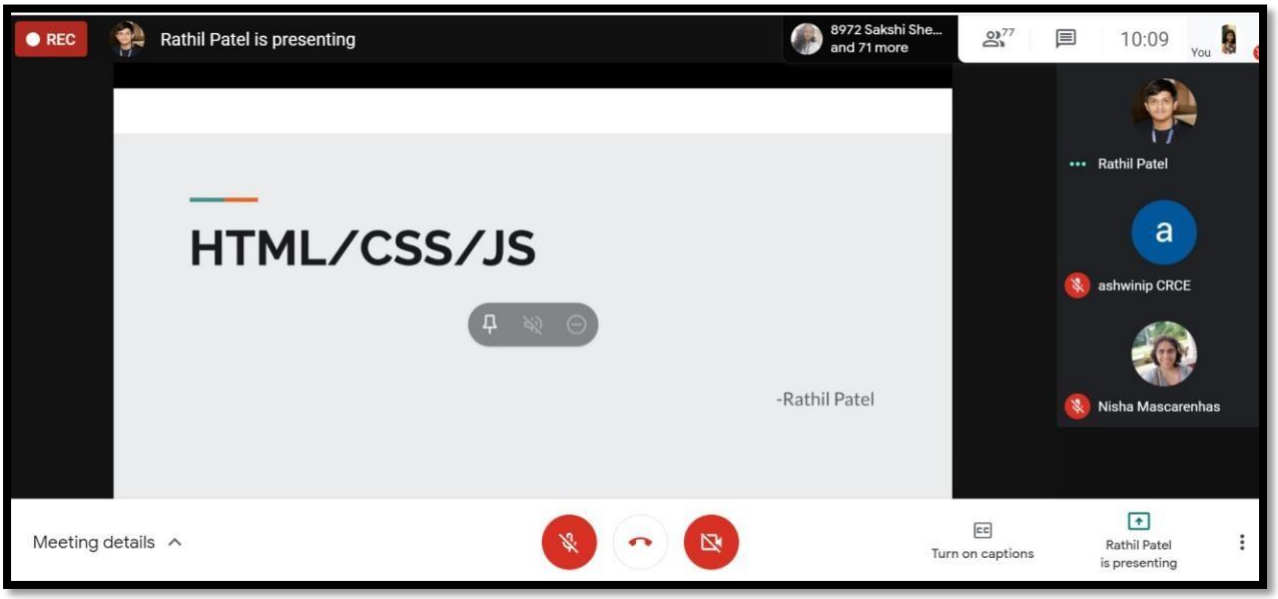
Prof. Mahendra Mehra

(Faculty In-charge)

CSI-CRCE organized
"Web Development Boot Camp"

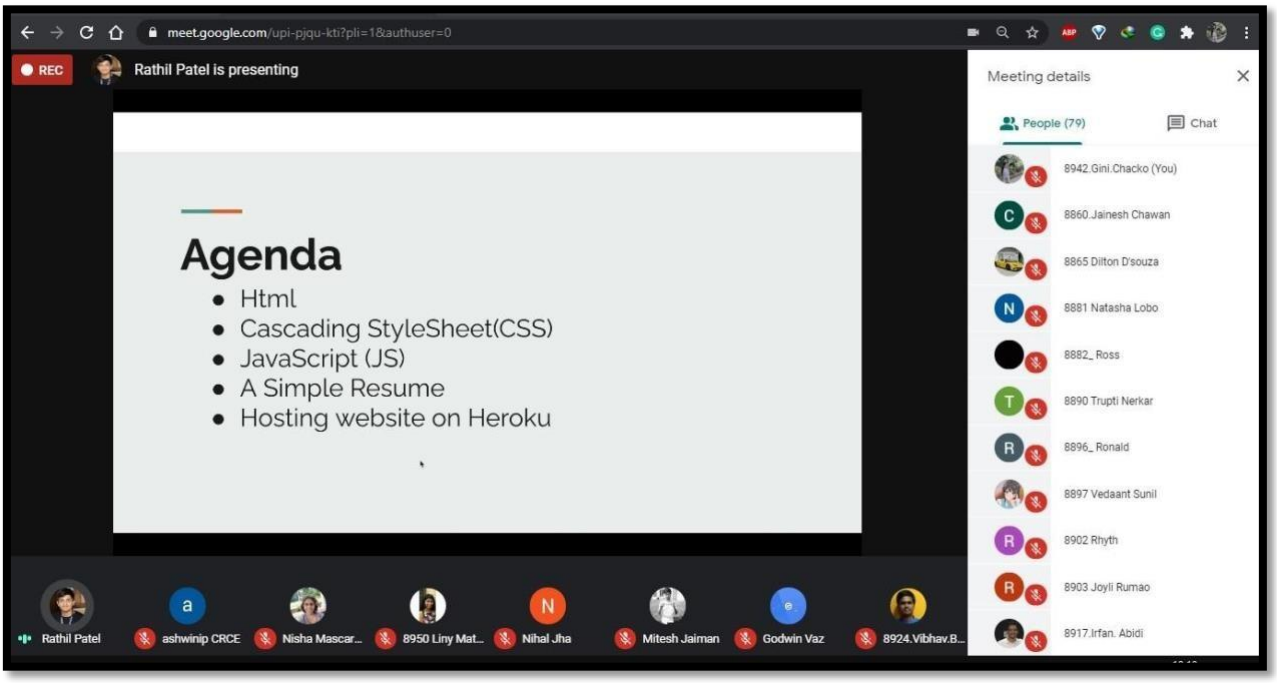
Event Name : Web Development Boot Camp
Date : 10th October, 2020
Platform : Google Meet

The Computer Society of India(C.S.I.), FR. C.R.C.E. organized a Web Development Boot Camp on 10 October, 2020. A total of 83 students attended the Google Meet from SE ,TE.



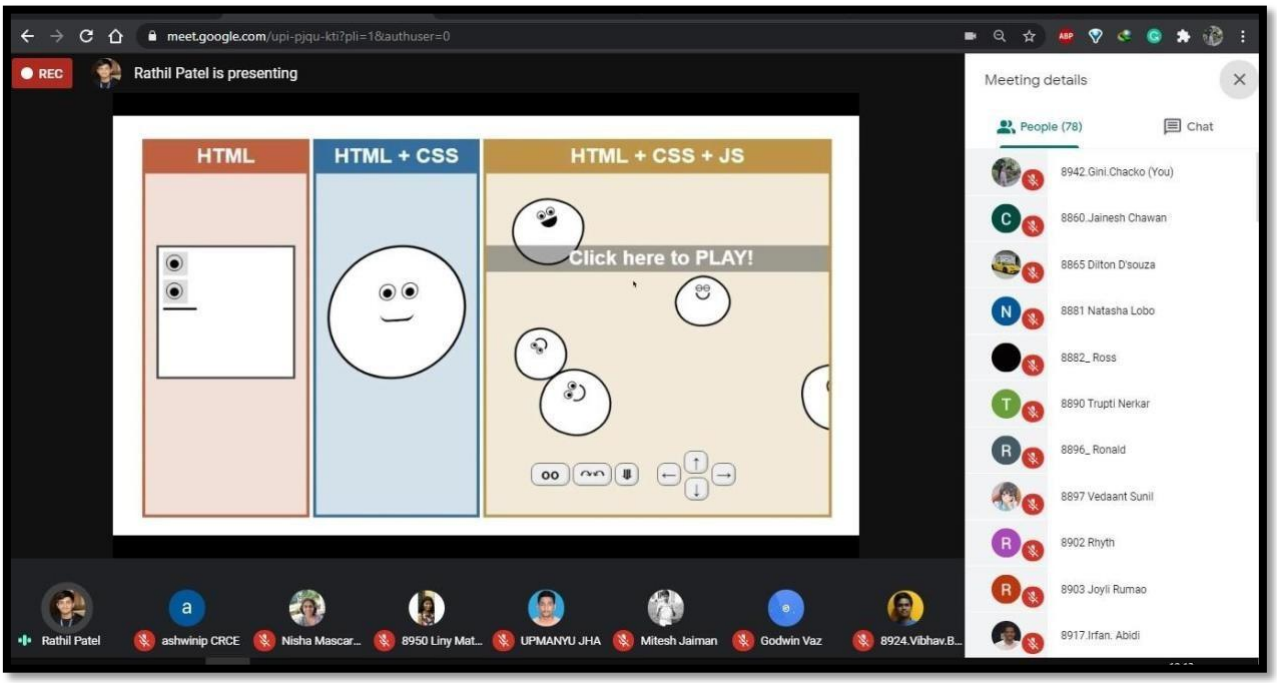
The Boot Camp was conducted by Mr. Rathil Patel, an alumni of our college. He is currently working as a Solutions Engineer at Browsers tack and has a great knowledge and expertise in the Web Development Field.

The session began with our speaker introducing the concept of HTML. A detailed explanation about HTML was given which helped the participants to master the fundamentals of HTML.

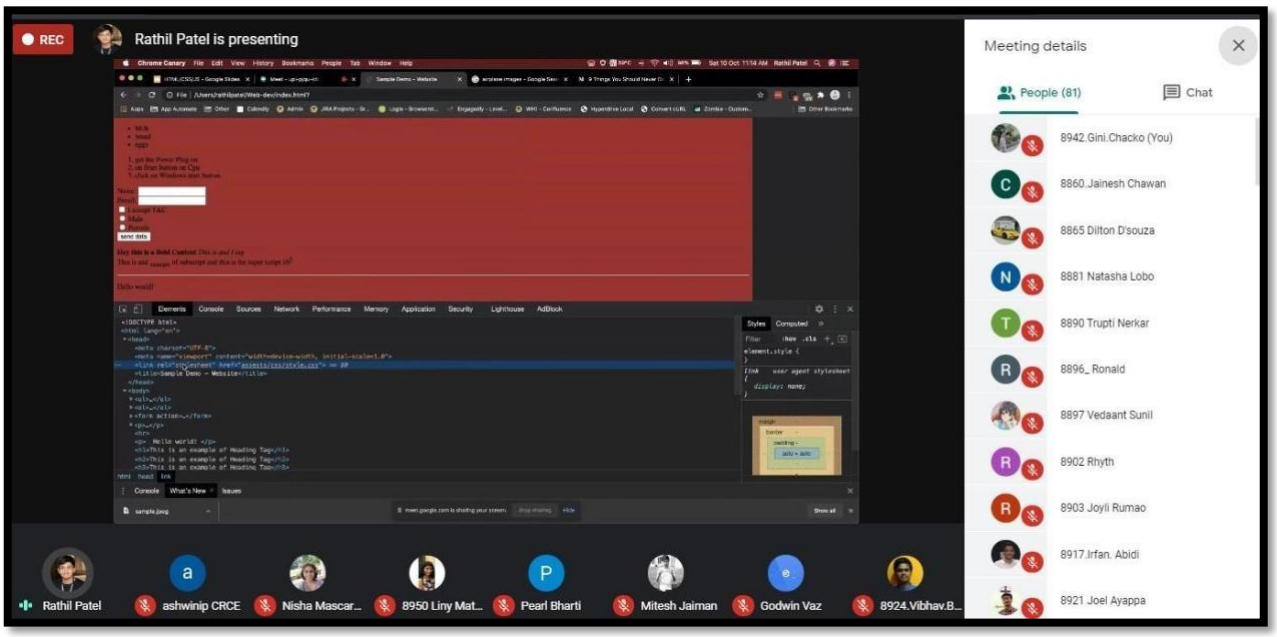


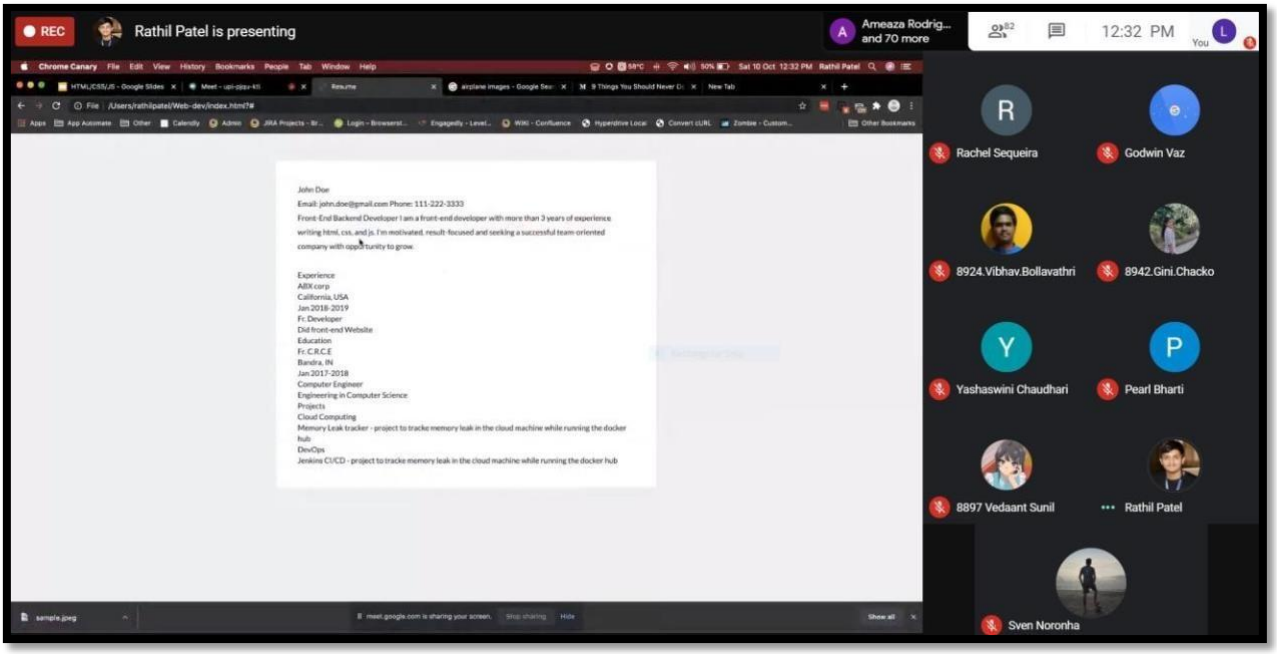
Further , the session incorporated the basics of Cascading Style Sheets (CSS), which helped the students clear their concepts and improve their knowledge.

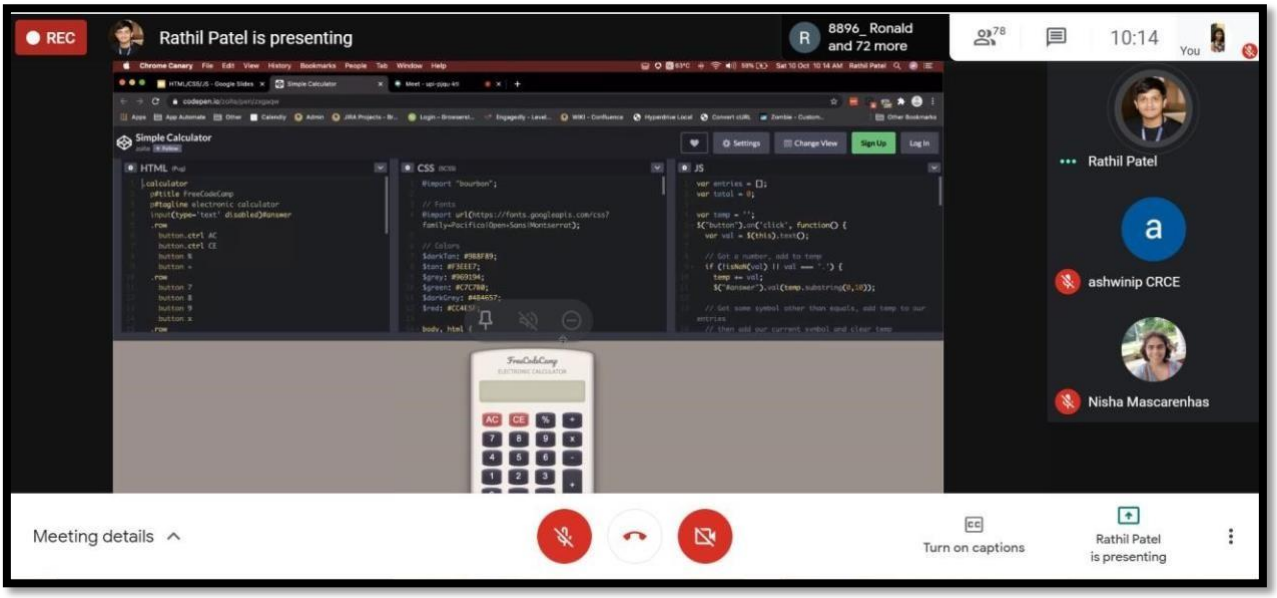
The speaker then spoke about how to integrate the website with JavaScript and gave a clear insight on how the websites are build.



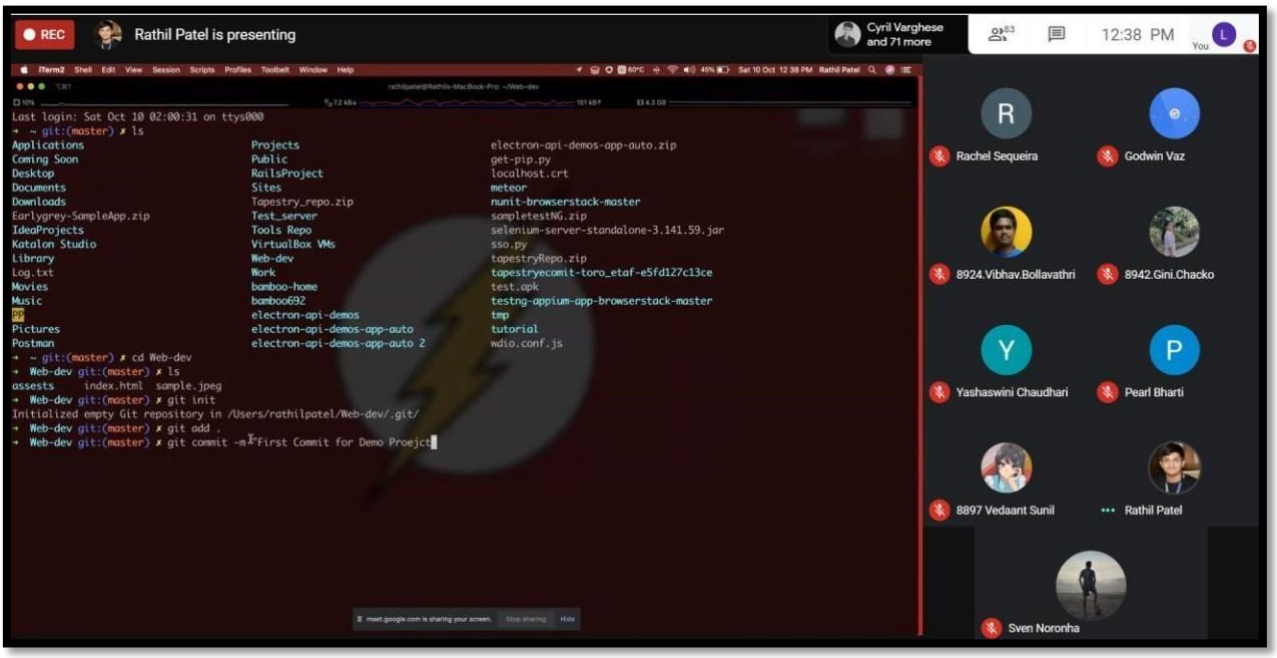
The Agenda for the session was to give a proper insight regarding HTML, CSS, and Javascript. And further building a simple resume and hosting it in the website of Heroku.



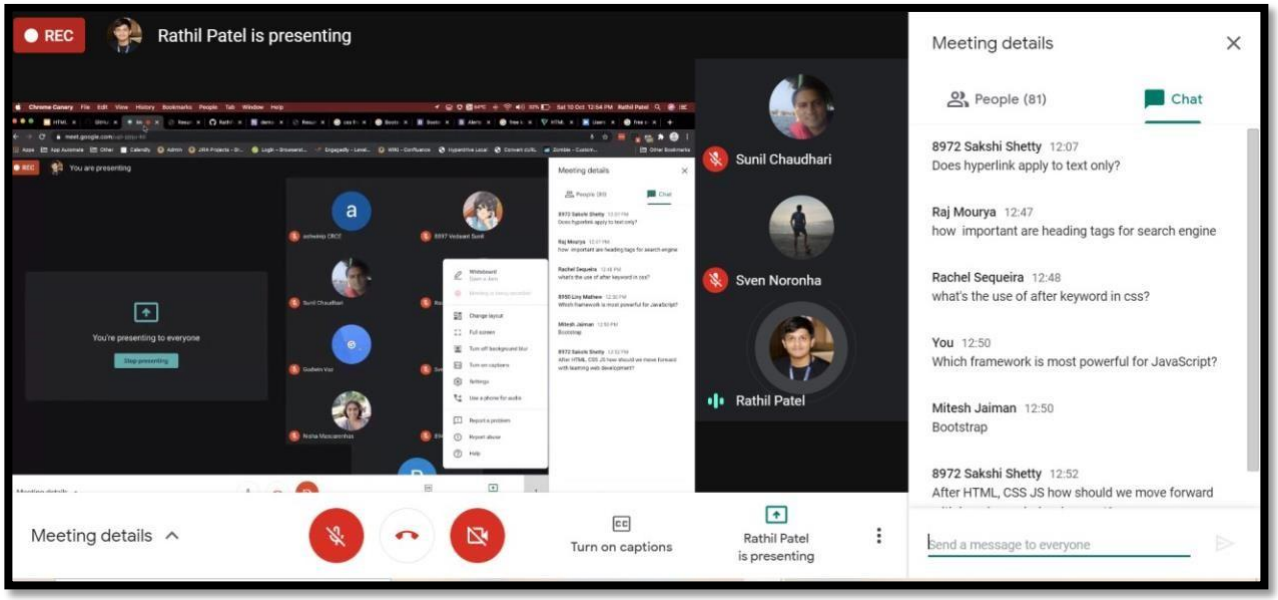




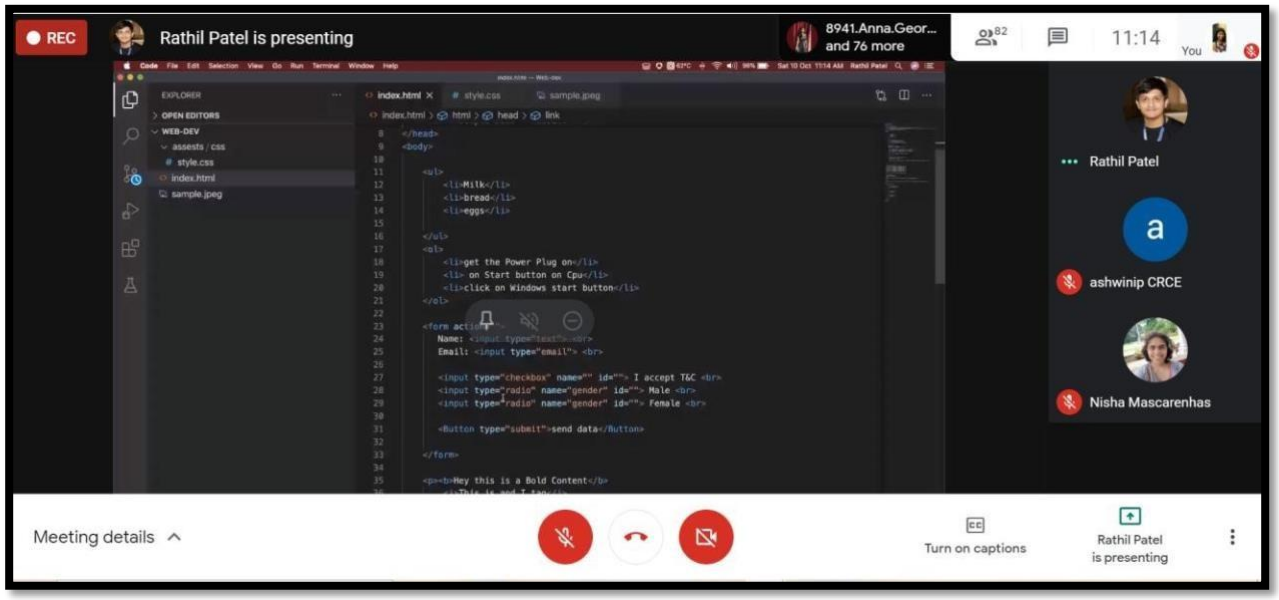
Constant polls were conducted in the telegram group so as it make the session interactive and to also check on the participants knowledge gained from the session. There was a lot of enthusiasm among the audience who were getting really valuable information.

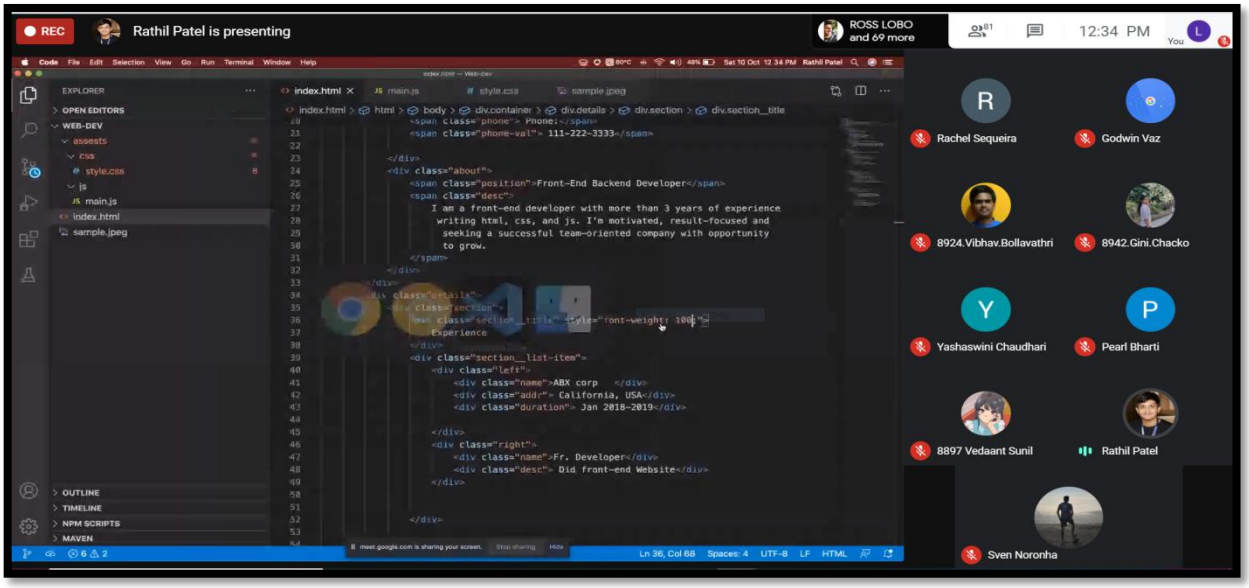


The session truly helped the students on how to build on existing web technologies and understand the order to proceed in learning advanced web development.



Further all the doubts of the students about Web Development were cleared which marked the end of the session. A good feedback was received from all the participants. Participation certificates were also provided to the participants by the CSI-CRCE team. An active participation by the speaker, council members and the participants made the Web Development Boot Camp a grand success!





'MODERN SPECIALIZATIONS FOR ELECTRONICS UNDERGRADS – MY EXPERIENCES IN GERMANY'

BY

SHASHWAT S. SANGHAVI
Engineer – Research & Development
IBEO Automotive Systems GmbH
Hamburg (Germany)

Initiative by Jayen Modi, Assistant Professor,
Department of Electronics & Computer Science
Fr. Conceicao Rodrigues College of Engineering

REPORT ON GUEST LECTURE BY INDUSTRY EXPERT

1. Overview & Details

Guest Lecture Title	Modern Specializations for the Electronics Undergraduates – My Experiences in Germany by Shashwat S. Sanghavi
Venue / Location	Google Meet Platform (Online) https://meet.google.com/yvy-swrs-ixe
Activity Organizer & Co-ordinator	Jayen Modi, Assistant Professor Department of Electronics & Computer Science Fr. Conceicao Rodrigues College of Engineering
Day, Date & Timings	Friday, 6th November 2020 – 4:30 pm to 6:30 pm IST
Brief Background of Guest Speaker / Resource Person	Mr. Shashwat Sanghavi is working as an Engineer, Research & Development at IBEO Automotive Systems GmbH, Hamburg (Germany). He has pursued his post-graduate degree (M.Sc.) in Microelectronics from the Hamburg University of Technology (TUHH), Germany. He also has completed his B.E. (Electronics Engineering) from the University of Mumbai.
Intended / Target Audience	• B.E. (Electronics Engineering) – Semester VII • T.E. (Electronics Engineering) – Semester V • S.E. (Electronics & Computer Science) – Semester III
Motivation & Objective of the Guest Lecture (Talk)	The objective of his talk is to enlighten & motivate the students of the Electronics Engineering discipline to explore technological avenues of the future & to gear up for challenges. He wishes to connect with the target audience by describing his own journey as an engineering student, a fresher, an intern & later a professional.
Relevance to Programme Outcomes (PO)	• PO-6 :- Engineer & Society • PO-8 :- Ethics • PO-9 :- Individual & Team Work • PO-10 :- Communication • PO-11 :- Project Management & Finance • PO-12 :- Lifelong Learning
Google Meet Recording Link of Guest Lecture (Talk)	https://drive.google.com/open?id=1Su9VSTz9LV0OXQmBDu9CCAYJtnTI471M

2. Contents of Guest Lecture (Talk)

The current COVID-19 pandemic situation in India & also globally has changed the way we work & live. Different ecosystems have been established by the rapidly changing dynamics in various industries such as healthcare, education, retail, manufacturing & host of other domains. The use of information technology & other online tools, platforms was highly unprecedented given the lockdown conditions, both to work & also to connect. Given the rapidly changing scenario & with the emergence of artificial intelligence, machine learning, data science, Internet of things (IOT) etc. the need was felt to throw some light on various modern specializations for the under-graduate students of Electronics Engineering discipline. This would help them gear up for the future challenges for a post COVID-19 scenario & also learn something about higher education & opportunities Germany has to offer.

Mr. Shashwat Sanghavi is working as an Engineer, Research & Development at IBEO Automotive Systems GmbH, Hamburg (Germany). He pursued his post-graduate degree (M.Sc.) in Microelectronics from the Hamburg University of Technology (TUHH), Germany. Before heading to Germany for further studies, he completed his under-graduate education in B.E. (Electronics Engineering) from Vidyalankar Institute of Technology (VIT) affiliated to the University of Mumbai, in 2016. He also holds a Diploma in Electronics Engineering from Thakur Polytechnic, affiliated to the Maharashtra State Board of Technical Education (MSBTE) in 2013.

He showed interested in delivering a guest lecture as a resource person primarily to students of S.E. (Electronics & Computer Science) & T.E. (Electronics Engineering) under the topic 'Modern Specializations for the Electronics Undergrads - My Experiences in Germany'. The objective of his talk is to enlighten & motivate students of the Electronics Engineering discipline to explore technological avenues of the future & to gear up for the challenges. He wishes to connect with the target audience by describing his own journey as an engineering student, then as a fresher, as an intern & later as a professional.

Given his professional commitments & the time difference between India & Germany, Mr. Shashwat Sanghavi has proposed the date & time of his talk on 6th November 2020 @ 4:30 pm IST (12 noon CET). He will be addressing the audience live from Hamburg, Germany. His talk was more of interactive (he used power-point presentation only to highlight his thoughts) where he focused on the following domains :-

- VLSI Design
- Digital Signal Processing
- Communication Systems
- Embedded Systems
- Robotics & Automation
- Machine Learning & Data Mining
- Industry 4.0 for the future

Mr. Shashwat Sanghavi also described his own experience about studying in Germany – choosing the country over other 'traditional' overseas destinations such as USA, Canada, UK or Australia. He explained the higher technical education system of Germany in detail with different specialization opportunities including course work, internships, placement & jobs etc. He summed up his own life experience on a social note by once again highlighting his own personal stay in Germany briefly describing the accommodation & housing, food, transportation, student life among other things. Overall, the guest lecture talk was very well received by all the attendees as they were instantly able to connect to his own experiences, by mere thought process – imagining their own in his place.

He has shared his contact details through his LinkedIn ID – https://www.linkedin.com/in/shashwatss/

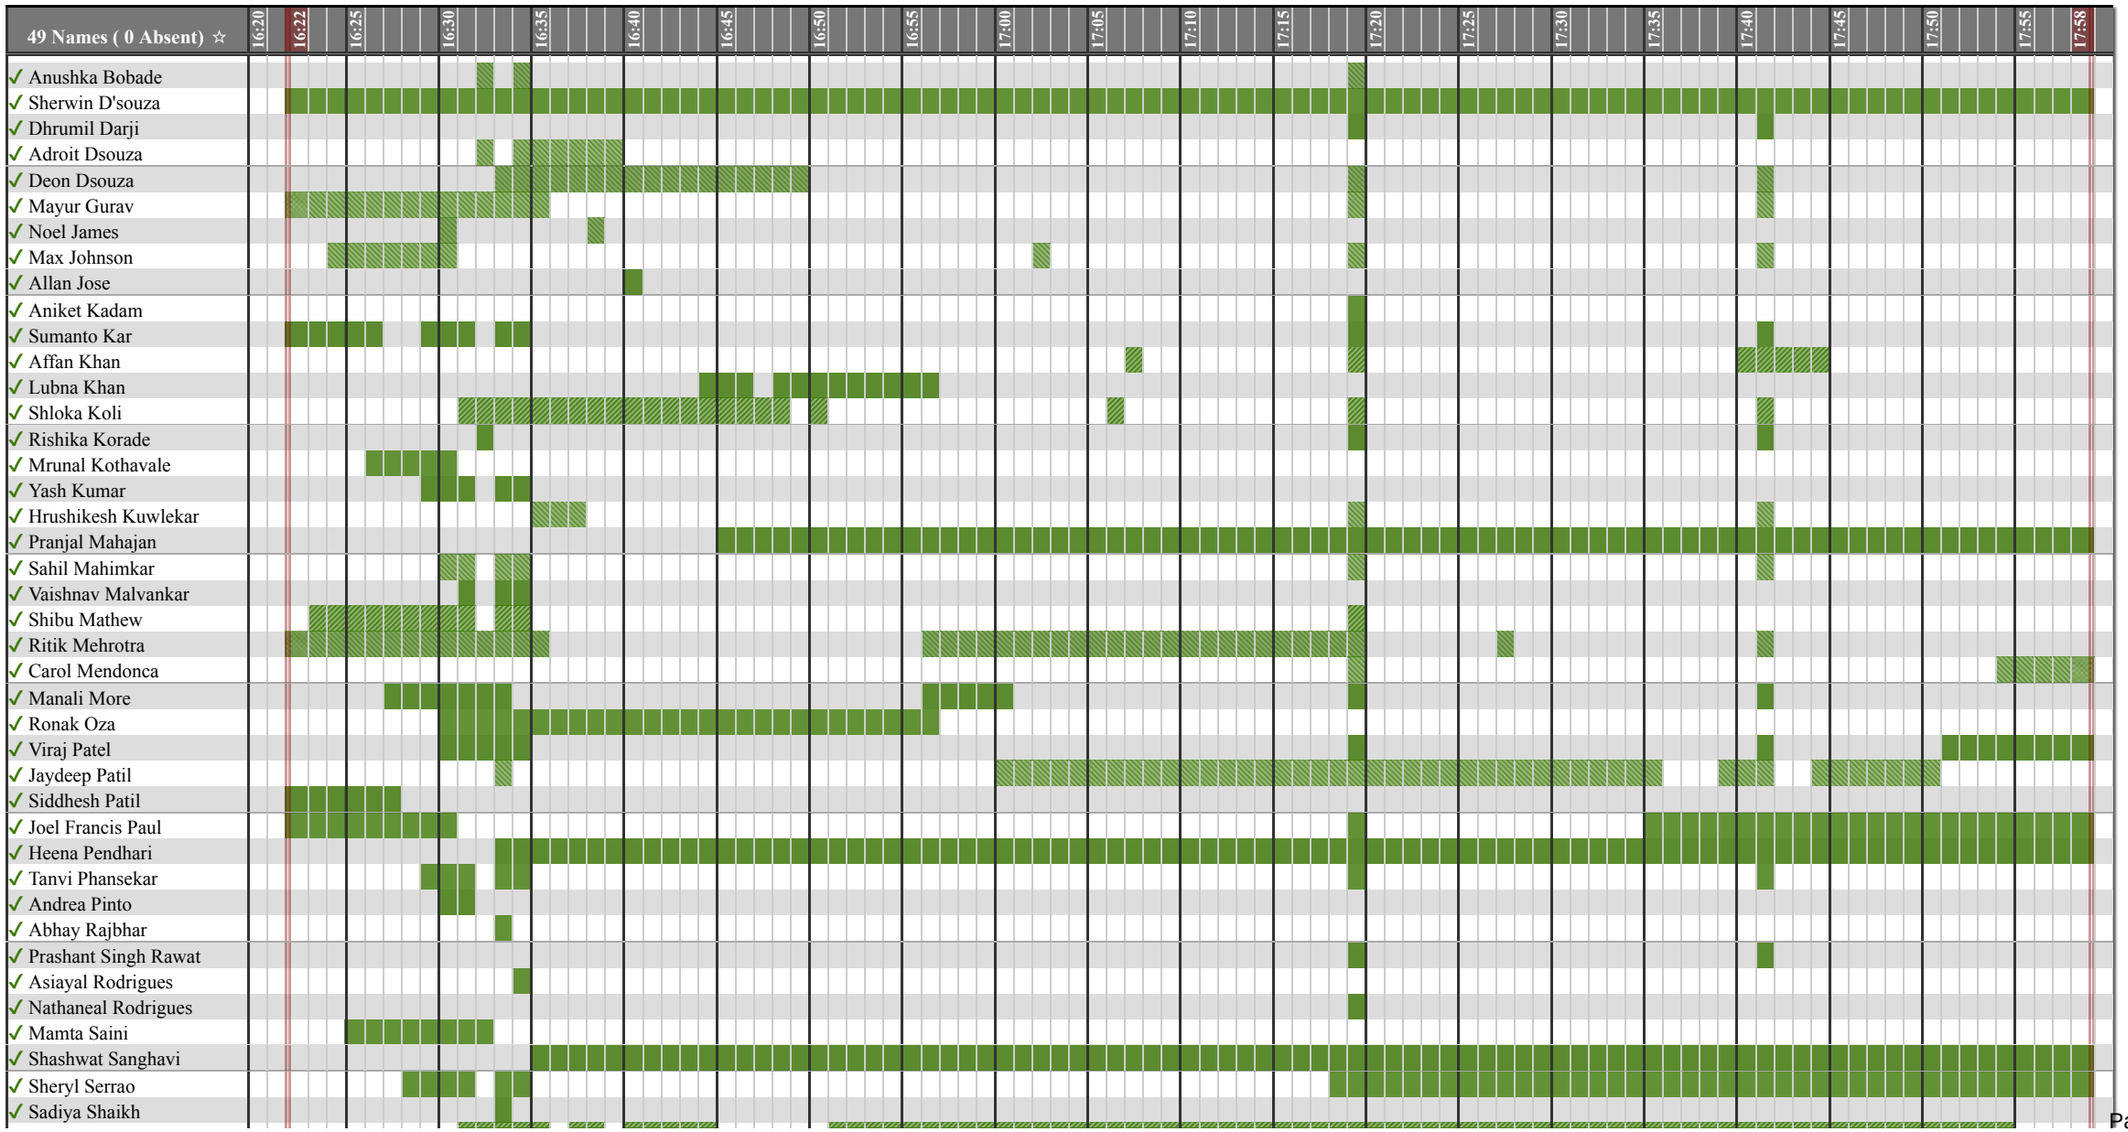
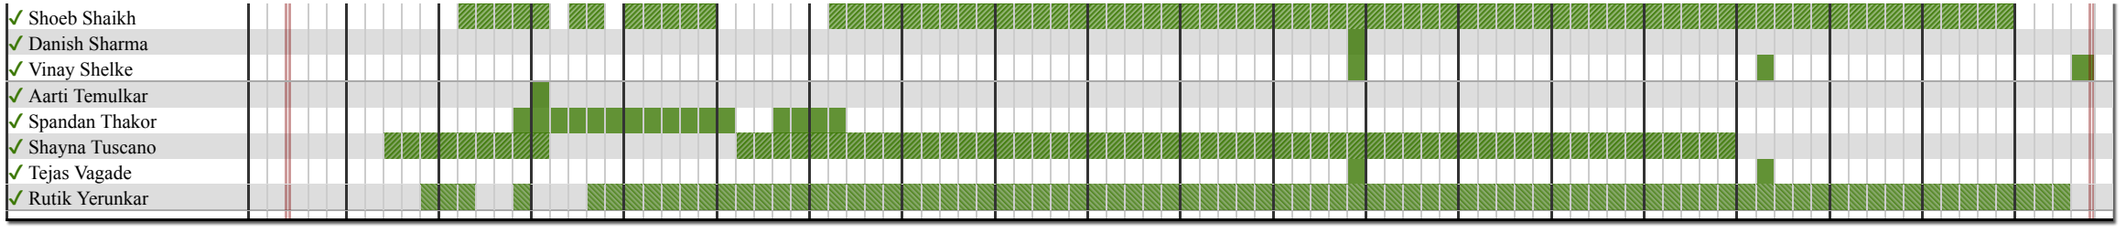
Daily Attendance Report for Modern Specializations for Electronics Undergrads - My Experiences in Germany by Shashwat Sanghavi: 2020-11-06

Class:**Modern Specializations for Electronics Undergrads - My Experiences in Germany by Shashwat Sanghavi** Meet ID: **yvy-swrs-ixe** Date: **2020-11-06** Earliest Arrival(s): **16:22** Start Time: **16:22** End Time: **17:58** Length of Meet: **96** min

Class Notes:
Modern Specializations for Electronics Undergrads - My Experiences in Germany by Shashwat Sanghavi (R&D Engineer, IBEO Automotive Systems GmbH, Hamburg, Germany) on Friday, 6th November 2020 @ 4:30 pm onwards. Jointly organized by Institute Innovation Council of Fr. CRCE





Daily Attendance Legend:

The student was present then exited rejoined and rejoined again etc. etc. (the alternating background patterns indicate that the student may have left and rejoined the Meet)

The student missed the entire class

To help your eye follow across the page, the table rows alternate between white and grey backgrounds which leads to two subtly different shades of green for the times when the student was present

NB - If you want a printed copy of this report, make sure that the 'More settings' → 'Background graphics' checkbox is checked in the Print dialog.

Dear Shashwat,

As per our telephonic conversation, your request for permission to address the students of Electronics Engineering discipline of our institute (Fr. CRCE) on the topic 'Modern Specializations for Electronics Undergrads - My Experiences in Germany' has been forward to Dr. Sapna Prabhu Madam, Professor & Head of Department, Electronics & Computer Science for her consent & subsequent approval.

We are extremely thankful to you for taking some time off your busy schedule in enlightening & motivating students by sharing your own experiences.

As per your request, the proposed date & time is Friday, 6th November 2020 @ 4:30 pm IST (12 noon CET on your end) - given the time difference between India & Germany.

Thanks & regards,

Dear Prof Jayen Modi
It is a very good initiative taken by you and I am sure that the talk by Mr Shashwat Sanghavi will be extremely beneficial to our students. His experiences will help clarify their doubts and guide them in honing their skills in core Electronics. We look forward to this association.

Regards

VIRTUAL GUIDANCE & ONLINE INTERACTION MEETING

1. Overview & Details

Orientation Programme	Virtual Guidance Session & Online Interaction Meeting regarding the placement process for Quantiphi Data Analytics Pvt. Ltd. By Training & Placement Office
Venue / Location	Online on Google Meet (https://meet.google.com/dxi-xsdz-gzi)
Activity Co-ordinator	Jayen Modi Assistant Professor, Department of Electronics & Computer Science (ECS) Fr. Conceicao Rodrigues College of Engineering (Fr. CRCE)
Day, Date & Timings	Sunday 4th October 2020 from 07:30 pm IST onwards
Key Resource Persons / Industry Speakers	• Andrade Steffi & Lopes Rawl – Platform Engineers • Kartick Hariharan – Machine Learning Engineer • Rane Tanmay & Rodrigues Melburne – Software Developers • Yadav Sonu – Data Engineer • Payapilly Merlyn & Yatnalkar Yogendra – Business Analysts
Objectives of the Virtual Guidance Online Session & Interaction Meeting	The lockdown enforced by the Indian Government on account of the COVID-19 pandemic changed entire hiring ecosystem. It brought the whole process online right from registration to the pre-placement talks followed by the aptitude & the technical tests, culminating with a virtual interview session either on Zoom or Google Meet or MS Teams. Keeping this practice in mind, training & placement office (TPO) took the initiative to hold a virtual guidance session & preparatory online meeting session for certain select companies. Their goal was to invite the alumni already placed in the particular company to address the students & inform them about the expected selection process. The alumni discussed, in detail about their own experience as prospective candidates, enriching students about various aspects of the placement selection process. Many myths were busted & several questions were answered pertaining to whatever doubts students had. Primary objective was to prepare the students in advance with additional training on the specific company-related matters (with inputs received from the alumni giving a large coverage from their experience). It motivated the students & gave them a really good insight as to what they were expected to face for the placement drive.

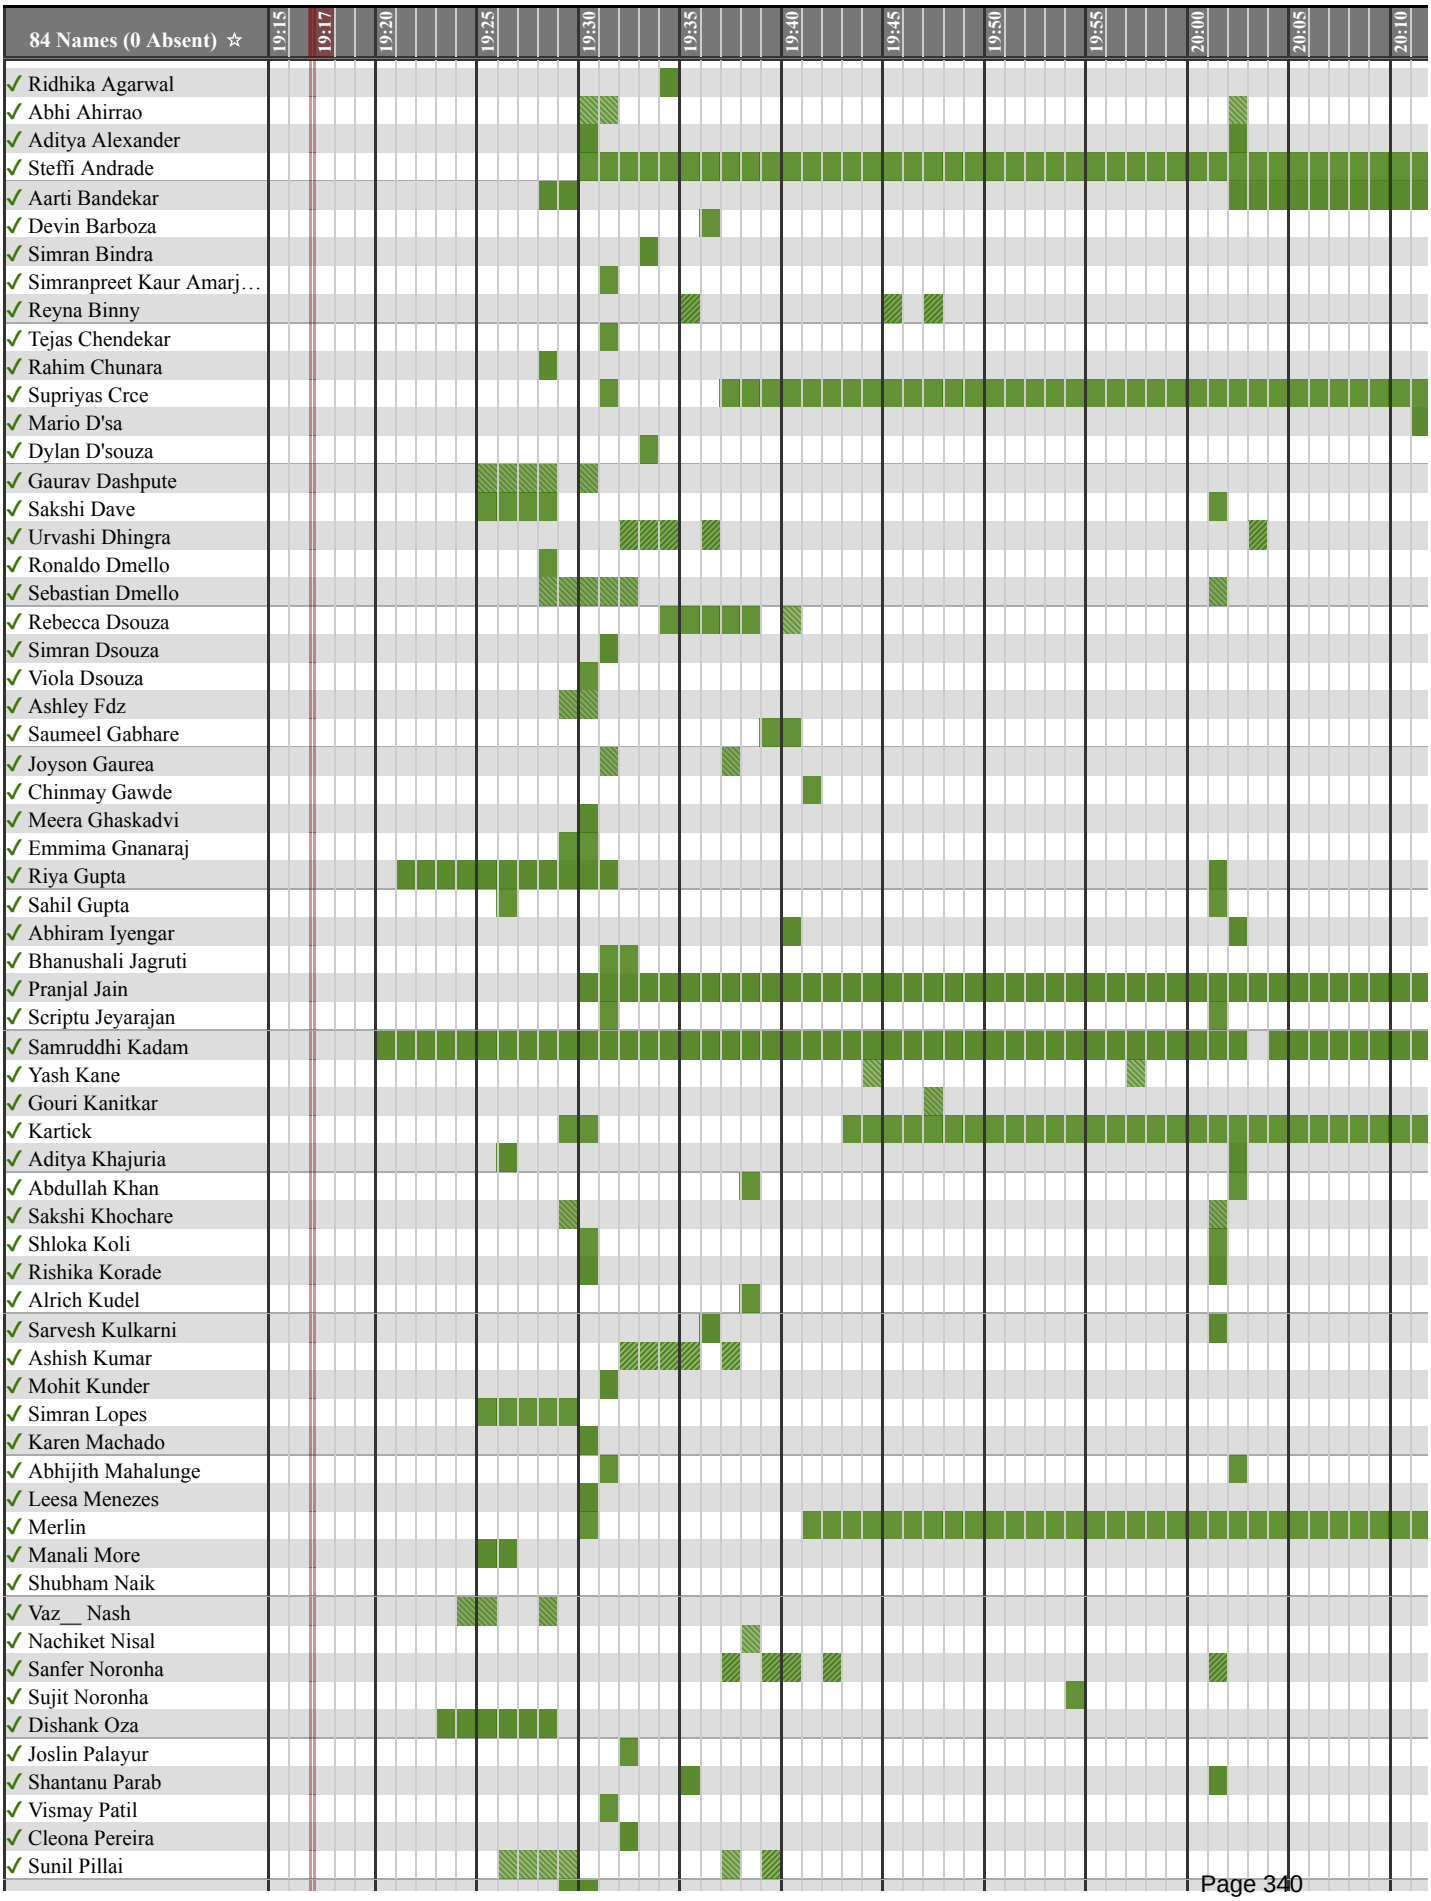
The Google Meet link recording of the entire session can be accessed by clicking the following link below :-

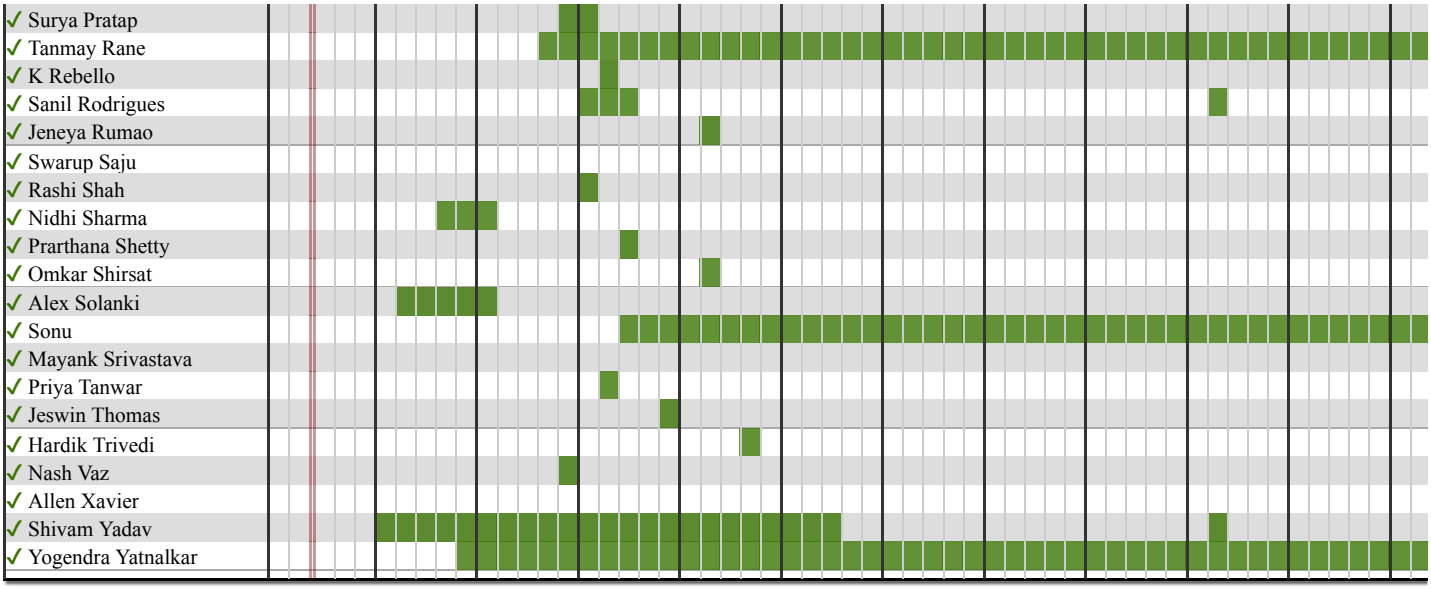
https://drive.google.com/file/d/1-_fagWOO9hMcyB-ylrhhVpXd_6SpDgdH/view?usp=sharing

Daily Attendance Report for Quantiphi Virtual Guidance Meet & Preparatory Session by Alumni: 2020-10-04

Show Attendance Summary

Class:**Quantiphi Virtual Guidance Meet & Preparatory Session by Alumni** Meet ID: **dxi-xsdz-gzi** Date: **2020-10-04** Earliest Arrival(s): **19:17**
Start Time: **19:17** End Time: **20:33** Length of Meet: **76** min





Daily Attendance Legend:

The student was present then exited rejoined and rejoined again etc. etc. (the alternating background patterns indicate that the student may have left and rejoined the Meet)

The student missed the entire class

To help your eye follow across the page, the table rows alternate between white and grey backgrounds which leads to two subtly different shades of green for the times when the student was present

NB - If you want a printed copy of this report, make sure that the 'More settings' → 'Background graphics' checkbox is checked in the Print dialog.

Up-Rev Prior Attendance Reports:

This allows you to update your old Attendance reports to the latest version of the HTML file. This will fix a number of issues and errors in the earlier versions of the reports.

- Click the 'Choose files' button below and then navigate to the location where your old attendance reports are located.
  By default, the attenance reports are saved to your *'Downloads'* directory but you can (and probably should) move them to a more permanent location.
- The updated files will get saved once again to your *'Downloads'* directory.
  Browser security dictates that the files can only be written to that directory... I cannot automatically save them elsewhere.
- **NB** - you can update several files at once using the <*shift*> and/or <*ctrl*> keys to select multiple files (but you will likely have to click *'Allow'* in a system dialog before the updated reports are download).

Choose Files No file chosen

Dear All

Hope that all of you are well & safe (along with your family members) in the wake of this pandemic.

We are pleased to inform you that Quantiphi is visiting our college (online - virtually) on 5th & 6th October 2020. We received their email yesterday (Saturday, 3rd October 2020) evening. Quantiphi is offering profiles of business analysts, machine learning, data engineer, platform engineer & software developer (description attached herewith).

It is our utmost sincere & humble request to you for addressing our B.E. students today on Sunday, 4th September 2020; preferably around 7:30 pm. Discussion about the whole placement process by you will not only go a long way in motivating them, but will also give them a really good insight about what they're expected to face the very next day. You can start off with a description about the test, your own experience during the interviews etc. Some useful tips & guidance can also be a part of this session.

We have successfully conducted one such session on ORACLE which saw a record 16 students being selected ! Almost all of them have attributed their selection to the guidance session by their seniors !

For all those who can be available today evening @ 7:30 pm kindly reply back to this email today by latest 12 noon with an acknowledgement since it is a formal invitation. The students also need to be informed accordingly. If all goes well then you can expect a crowd of around 80 - 90 of them. For a quick communication my contact number (linked to WhatsApp) is also mentioned herewith.

We shall be using the Google Meet platform with facilities for attendance marking & live recording for the same. I will initiate the meeting & send the Google Meet ID to your respective emails embedded into the Google Calendar.

Thanking you & regards,

Jayen Modi

Hi Sir,

Thank you for reaching out. I will not be available for the meeting today evening, however, I'll share my interview experience over here and would appreciate it if you could forward this to all those appearing for the interview tomorrow.

I am currently working as a Platform Engineer (PE) at Quantiphi. Initially, I had applied for the role of a Data Engineer (DE), where I was quizzed on a few Database/SQL and Java concepts (students will be asked which language - Java/Python - they are familiar with when the interview starts). After the interview ended, I was asked to interview for the role of a PE as well, since the interviewer thought I would fit into that role better, based on the projects on my resume and knowledge of Java concepts.

The hiring process during my time started with the aptitude test, which was easy, but there wasn't a lot of time to answer all questions so students need to be quick with their calculations and answers. Expect questions on basic Algebra, Geometry, Ratios, Probability and Data Interpretation.

Next would be the technical interview. Students will mostly be quizzed on their knowledge of OOPS concepts, data structures and searching and sorting algorithms. Also be prepared with time complexities of each algorithm and which algorithms should be used in which situation. You might also be asked a few logical questions as well -- common questions such as "How many balls of some diameter would fit into this room?" or "How many red cars exist in Mumbai?" -- so be prepared for this as well. (You can easily find the answers to such types of questions online). Try to drive the interview towards the projects on your resume and you should be able to pass this round with ease.

And finally in the last round, HR interview, I was asked to explain any one project on my resume (without getting too technical) and few other simple questions. Your communication skills will be tested in this round.

Attaching links to a few tutorials/courses I found helpful during my preparation:
Linux
Data Structures and Performance (Coursera)

Wishing students the very best for all your upcoming interviews!!

Thanks & Regards,
Melburne

CSI-CRCE organized 'Competitive Programming' session

Mumbai, 27 January 2020

The Computer Society of India council, CRCE had organized an informative session on Competitive Programming on 27 January, 2020 at Samvaad. A total of 266 students attended the session from FE, SE and TE.

The workshop was conducted by the alumni of our college, Mr. Gaurav Sen and Mr. Khushan Sen. Gaurav works as a SDE-II at Uber. Before joining Uber Hyderabad, he had worked at Directi and Morgan Stanley. Whereas, Khushan currently works at Cimpress after gaining experience from Morgan Stanley. They both have common interests in System Design, Competitive Programming and Artificial Intelligence.

The session began with our speakers introducing the concept of Competitive Programming. Students were guided on how and when to begin Competitive Programming mainly by being perfect in time complexity. Step wise instructions were given on this topic. Importance of every essential topic was explained such as that of Data Structures and Algorithms and core languages. They shared their experiences and gave some tips to be followed before facing an interview. There was a lot of enthusiasm among the audience who were getting really valuable information. They introduced the students to the various coding platforms which will have them get better in this field. They also placed some real life interview questions in front of the audience which proved to be the icing on the cake. The significant role of this in placements was discussed. The mental block students have in this field was taken up by motivating them to try harder and not give up. Finally, all the queries pertaining to the topic were cleared which marked the end of the session.

REPORT ON CAREER COUNSELING SESSION

1. Overview & Details

Guest Lecture Title	Career Counseling Session – What After Engineering ?
Venue / Location	Samvaad – The Auditorium (9th Floor) Fr. Conceicao Rodrigues College of Engineering
Activity Co-ordinator	Jayen Modi, Assistant Professor – Electronics Engineering Department Faculty Coordinator, Training & Placement Office (TPO)
Day, Date & Timings	Friday, 17th January 2020 from 11:00 am to 01:00 pm
Intended Audience	All students from second year engineering (S.E.) & third year engineering (T.E.) across all streams / disciplines / branches
Resource Person / Guest Lecture & Affiliation	Mr. Jimeet D. Sanghavi, Head Counsellor – Collegepond Collegepond Study Abroad Career Counseling & Consulting Pvt. Ltd.
Objective / Goal of Career Counseling Session	The objective of the guest lecture was to share with students the experience of an engineering graduate who had already traversed their path – first as a student, then as an intern, later on as a fresher & now as an experienced professional. It was planned to inspire & motivate the students by having an informal discussion as to how any typical engineering student needs to be ever-ready to adapt to the changing dynamics of the industry & outside world thereby succeeding in professional life.
Contents of Guest Lecture	• Courses available after engineering • Entrance exam preparation • Profile building (internships, technical papers, extra-curricular etc.) • Overview of application process (SOP, LOR, Visa, Resume etc.) • Scholarship oppurtunities
Relevance to Programme Outcomes (PO)	• PO-6 :- Engineer & Society • PO-8 :- Ethics • PO-9 :- Individual & Team Work • PO-10 :- Communication • PO-11 :- Project Management & Finance • PO-12 :- Lifelong Learning

Hello Mr. Jayen,

Below is the message to be shared among the SE & TE students for the seminar:

Dear Student,

Collegepond will be conducting a **Test Prep and Profile Building Workshop** for SE & TE students of Fr. Conceicao Rodrigues College of Engineering on **17th January 2020.**

The workshop will be conducted by **Mr. Jimeet Sanghavi**, one of the Head Counselors at Collegepond who has been a part of the Admission committees in U.S. Universities.

The seminar will be on the following topics:
1. Courses available after engineering.
2. Entrance Exam Preparation
3. Profile Building
4. Overview of the Application Process
5. Scholarship Opportunities

Date: 17th January 2020
Timing: 11:00 AM Onwards

Best Regards,
Collegepond

Thanks & Regards!

CAREER OPPORTUNITIES, EXPERIENCE SHARING & HOW TO PREPARE FOR CHALLENGES AHEAD

MONDAY, 20TH JANUARY 2020

FOR

S.E. (ELECTRONICS ENGINEERING) – SEMESTER IV
ACADEMIC YEAR OF 2019 – 2020

Report on Guest Lecture by Industry Expert – Mr. Srinivas Jayaraman (M.S. Industrial Engineering)
Senior Manager – Supply Chain & Operations Planning, Amazon.com Inc. (Seattle, Washington – USA)

FR. CONCEICAO RODRIGUES COLLEGE OF ENGINEERING
Department of Electronics Engineering

REPORT ON GUEST LECTURE BY INDUSTRY EXPERT

1. Overview & Details

Guest Lecture Title	Career Opportunities for Engineering Graduates, Experience Sharing & how to shape oneself for the challenges ahead
Venue / Location	Seminar Hall, 5th Floor – Room No. 503 Fr. Conceicao Rodrigues College of Engineering
Activity Co-ordinator	Jayen Modi, Assistant Professor Electronics Engineering Department Fr. Conceicao Rodrigues College of Engineering
Day, Date & Timings	Monday, 20th January 2020 from 1:00 pm to 4:00 pm
Resource Person / Guest Lecture & Affiliation	Mr. Srinivas Jayaraman Senior Manager – Supply Chain & Operations Planning Amazon.com Inc. (Seattle, Washington – USA)
Objective of Guest Lecture	The objective of the guest lecture was to share with students the experience of an engineering graduate who had already traversed their path – first as a student, then as an intern, later on as a fresher & now as an experienced professional. It was planned to inspire & motivate the students by having an informal discussion as to how any typical engineering student needs to be ever-ready to adapt to the changing dynamics of the industry & outside world thereby succeeding in professional life.
Contents of Guest Lecture	• How supply chain, operations & planning works • Mapping these skills with one's area of expertise • How to upgrade & equip oneself • Knowledge of finance, marketing & other non-technicalities • Leadership, teamwork & organizational structure
Relevance to Programme Outcomes (PO)	• PO-6 Engineer & Society • PO-8 Ethics • PO-9 Individual & Team Work • PO-10 Communication • PO-11 Project Management & Finance • PO-12 Lifelong Learning

FR. CONCEICAO RODRIGUES COLLEGE OF ENGINEERING
Department of Electronics Engineering

2. Guest Lecture by Mr. Srinivas Jayaraman

Mr. Srinivas Jayaraman shared his rich experience in working first for Ingersoll-Rand & then later on Amazon.com Inc. over a career spanning a little above 10 years; at various designations & roles such as an associate, an analyst, a manager & now senior manager overseeing responsibilities in IT audit, governance, technologies etc. in supply chain & operations planning. A mechanical engineer by profession, he introduced students to application of core engineering & its associated technologies thereby explaining how they were contributing to growth of organization, apart from being instrumental backbone in day-to-day operations. He began with an introduction of himself & how he shaped, re-shaped & acquired technical & managerial skills all along his career. He stressed on aspects such as applying reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues & consequent responsibilities relevant to the professional engineering practice. He also addressed engineering and management principles and applying these to one's work, as member and leader in team, to manage projects and in multidisciplinary environments. Overall he also briefed to communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports & design documentation, make effective presentations and give and receive clear instructions. His informal & friendly interaction was very well appreciated by all the students.

His talk concluded by urging all students to 'think out of the box', following the news & other media to be more in touch with the current events & to be a part of any professional organization of their choice by applying for its membership. He stressed that engineering education doesn't just end when any student graduates with a first-class bachelor's degree; but instead the lessons of life just begin after that. He signed off with motivating students by giving his own successes & failures in professional life & how he was able to overcome them. Vision, patience, hard-work, dedication & honesty were attributed by him as the five major pillars of any engineering graduate.

Respected Sir & Ma'am,

As per the discussion on Friday at the college, we would be starting the GRE lectures on campus from 24th February (Monday).
The venue for the same will be classroom no 309.

Please find the lecture schedule and tentative timings for your perusal:

Date	Day	Venue	Topics	Lecture	Timings
24th Feb	Mon	Gre - Fr. C	Number System	Maths	4.30 pm to 7.00 pm
26th feb	Wed	Gre - Fr. C	Percentage, P & L, & Interest	Maths	4.30 pm to 7.00 pm
28th Feb	Fri	Gre - Fr. C	Etymology & Vocabulary	Verbal	4.30 pm to 7.00 pm
2nd March	Mon	Gre - Fr. C	Text Completion	Verbal	4.30 pm to 7.00 pm
4th March	Wed	Gre - Fr. C	Average, Ratios & Mixtures	Maths	4.30 pm to 7.00 pm
6th March	Fri	Gre - Fr. C	TSD & Work Problems	Maths	4.30 pm to 7.00 pm
9th March	Mon	Gre - Fr. C	Algebra & Function	Maths	4.30 pm to 7.00 pm
11th March	Wed	Gre - Fr. C	Reading Comprehension - 1	Verbal	4.30 pm to 7.00 pm
13th March	Fri	Gre - Fr. C	Reading Comprehension - 2	Verbal	4.30 pm to 7.00 pm
16th March	Mon	Gre - Fr. C	2D Geometry	Maths	4.30 pm to 7.00 pm
18th March	Wed	Gre - Fr. C	3D & Coordinate Geometry	Maths	4.30 pm to 7.00 pm
20th March	Fri	Gre - Fr. C	Statistics	Maths	4.30 pm to 7.00 pm
23rd March	Mon	Gre - Fr. C	Critical Reasoning	Verbal	4.30 pm to 7.00 pm
25th March	Wed	Gre - Fr. C	Sentence Equivalence	Verbal	4.30 pm to 7.00 pm
27th March	Fri	Gre - Fr. C	Permutation & Combination	Maths	4.30 pm to 7.00 pm
30th March	Mon	Gre - Fr. C	Probability	Maths	4.30 pm to 7.00 pm
1st April	Wed	Gre - Fr. C	Awa - Issue	Verbal	4.30 pm to 7.00 pm
3rd April	Fri	Gre - Fr. C	Awa - Argument	Verbal	4.30 pm to 7.00 pm
6th April	Mon	Gre - Fr. C	Data Interpretation	Maths	4.30 pm to 7.00 pm
				Total No of Hours	**19 * 2.5 = 47.5 hours**

The lecture schedule and timings can be adjusted later as per the student availability / exams and preference.

The total no. of hours for the coaching will be 47.5. As per our discussion earlier the cost per hour will be INR 400. Would request the accounts department to raise an invoice accordingly for us to make the transfer.

Tentatively we have received a positive response from 12 students to start off with immediately. More are expected to join in the coming week as per their feedback on call.

Please find the below the names of the interested students:

REPORT ON GRE & TOEFL DEMO LECTURE SESSION

1. Overview & Details

Guest Lecture Title	GRE & TOEFL Demo Lecture Session
Venue / Location	Samvaad – The Auditorium (9th Floor) Fr. Conceicao Rodrigues College of Engineering
Activity Co-ordinator	Jayen Modi, Assistant Professor – Electronics Engineering Department Faculty Coordinator, Training & Placement Office (TPO)
Day, Date & Timings	Wednesday, 5th February 2020 from 01:00 pm to 04:00 pm IST
Intended Audience	All the students from second year engineering (S.E.) & third year engineering (T.E.) across all streams / disciplines / branches interested in coaching
Resource Person / Guest Lecture & Affiliation	Mr. Rahul Kadam – Marketing Manager Mr. Arjun Golani – Head, Business Development & Marketing Collegepond Study Abroad Career Counseling & Consulting Pvt. Ltd.
Objective / Goal of GRE & TOEFL Demo Lecture Sessiom	After an extremely successful & well-appreciated session on career choices after engineering on 17th January 2020, the training & placement office (TPO) joined hands with Collegepond to offer students on-campus coaching on GRE & TOEFL for those who wished to study abroad. Apart from training for placement, college aims to provide training for higher studies preparation under one roof – thereby assuming role of holistic education providers.
Advantages of on-campus Coaching for GRE & TOEFL	• Collegepond – tried & trusted brand name in education consulting • On-campus coaching in college premises itself after hours • Saves commuting & traveling time • Safe, secure & comfortable environment on-campus for all • Qualified, experienced faculty & best course materials • Small batch size for personalized attention to details
GRE & TOEFL On-campus Coaching Programme	Comprehensive 50 hours training programme was proposed by Collegepond to be conducted on college premises. However due to subsequent COVID-19 pandemic & lockdown, Collegepond shifted the coaching online for students from the comfort & safety of their homes. Thereafter all communications & correspondence was solely between Collegepond & students only.

About the Student Development Programme
CRCE has been successful in maintaining its high placement statistics over the years and the fact that our students bear the recession blues with record breaking placements itself is a testimony to our quality. Our ingenious alumni have set new standards in the corporate world through their estimable contributions.
With the coronavirus pandemic wreaking havoc on businesses, Engineering students are staring at an uncertain future as companies are showing little interest in college recruitment, while those already hired are either seeing offers rescinded or deferred. With companies putting their recruitment drives on hold, students in India are staring at a tough year ahead.
We at CRCE are committed to providing the best of training to our students and will try to defeat the COVID19 situation and ensure healthy placement drives. We need our students to be part of this proactive step. This SDP aims at grooming our upcoming batch of students to be job ready for placements in IT/Software and other core companies by making their computer science and other core fundamentals strong with emphasis on improving coding & problem-solving skills and enriching their skill set.
We have invited industry players on board for this programme, who are doing well in their respective careers. These speakers will enlighten you about the industry perspective of the placement process and how they assess a potential candidate for the job. Our brilliant alumni's will share their interview experiences and provide tips on do's and don'ts of the interview process. There will be sessions by experts on cutting edge technologies and trending programming languages.
We are sure that after attending this Student Development Programme, students will notice a huge improvement in their confidence and will have a clearer picture of the interview process, and ability to crack the same, making you all ready for the challenges ahead.
Programme Content
1. OOPS concepts for interview preparation.
2. Competitive Coding Interview Questions.
3. Company specific interview tips.
4. Do's and Don'ts of the Interview Process.
5. Story from the other side: How an interviewer assesses a candidate.
6. Group Discussion: Tips and tricks.
7. Cloud Computing services adaption in Projects.
8. Golang For Microservices and its applications.
9. Angular Js and JDBC integration with demo application.
10. Jenkins tool for Continuous code Integration.
11. Web application, Infrastructure deployment using Apache, Tomcat & IIS Web Server.
12. How to prepare for Linux based interview questions.

Dear Madam,

We would like to extend you an invitation to visit our Institute as a Resource person for interacting with our prospective students interested in preparing for on-campus placements in TCS Digital.

We sincerely believe that your experience in TCS Digital will be instrumental in providing our students with the correct inputs required to appear for TCS Digital on-campus placements. Our students would also be looking forward to your expertise and guidance in the placement process.

We have scheduled your expert session interaction on 7th July 2018 at 11 am onwards.

We look forward to your esteemed presence at our campus and also thank you in anticipation for taking out time from your busy schedule in mentoring our students.

Kindly sign the duplicate of this invitation letter as an acknowledgement.

Yours truly,

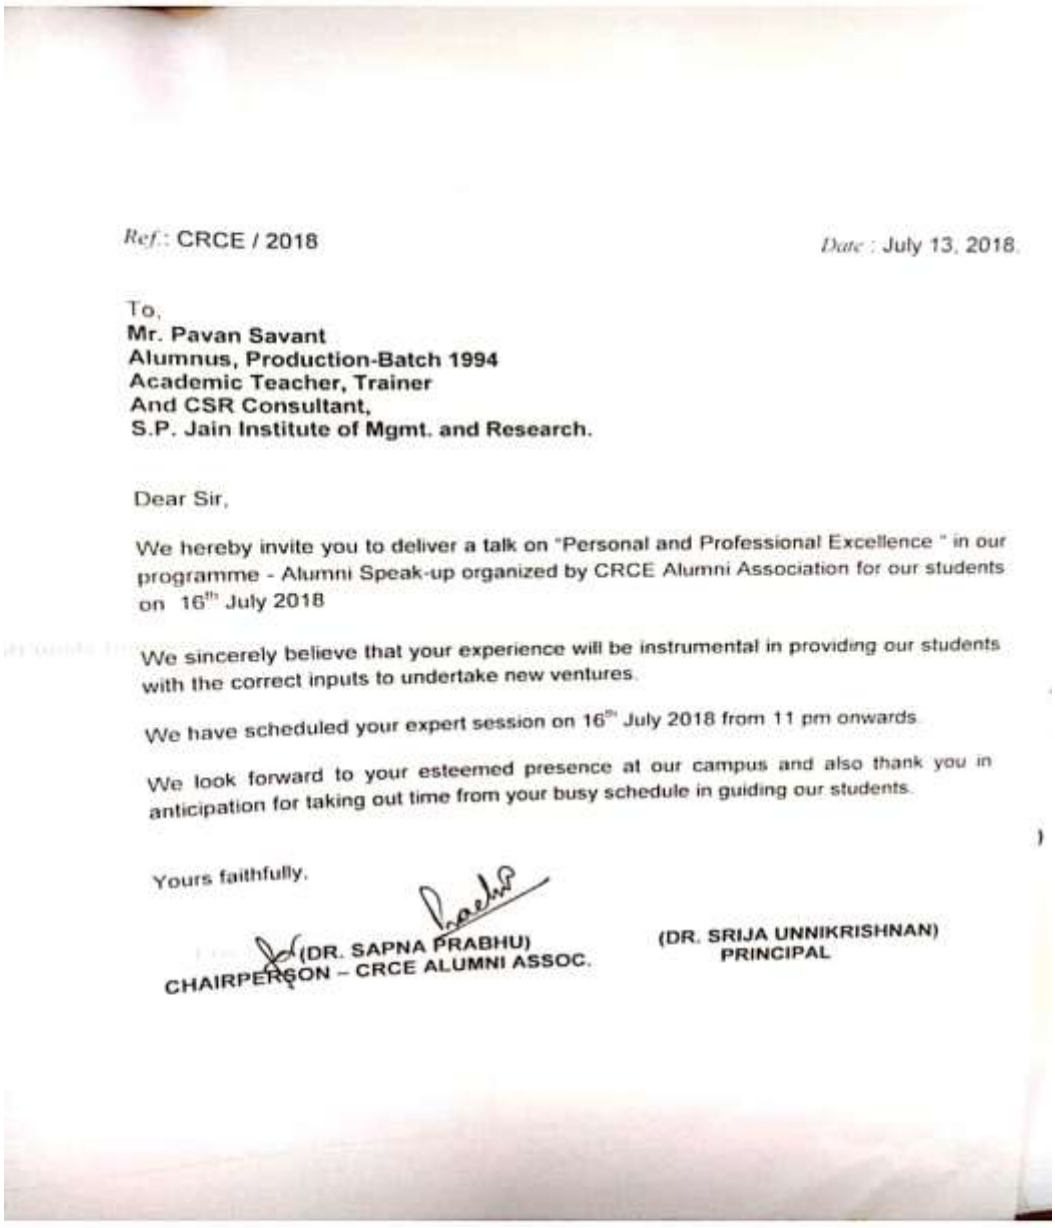
Pavan Sawant CSR Consultant SP jain 16 July

16/07/2018

Total Student: 60



Ref.: CRCE / 2018 *Date* : July 13, 2018.

To,
Mr. Pavan Savant
Alumnus, Production-Batch 1994
Academic Teacher, Trainer
And CSR Consultant,
S.P. Jain Institute of Mgmt. and Research.

Dear Sir,

We hereby invite you to deliver a talk on "Personal and Professional Excellence " in our programme - Alumni Speak-up organized by CRCE Alumni Association for our students on 16th July 2018

We sincerely believe that your experience will be instrumental in providing our students with the correct inputs to undertake new ventures.

We have scheduled your expert session on 16th July 2018 from 11 pm onwards.

We look forward to your esteemed presence at our campus and also thank you in anticipation for taking out time from your busy schedule in guiding our students.

Yours faithfully,

(DR. SAPNA PRABHU)
CHAIRPERSON – CRCE ALUMNI ASSOC.

30 July 2018 Devesh Chawla on topic "Think you are too young to be Entrepreneur"

FR. CONCEICAO RODRIGUES COLLEGE OF ENGINEERING
Fr.Agnel Ashram, Bandstand, Bandra (W), Mumbai - 400050

Information Technology Students Association

THINK YOU ARE TOO YOUNG TO BE AN ENTREPRENEUR?

THINK AGAIN!

Mention no. of participants.

Monday 30 July 2018,

Fr.CRCE Bandra: Over a hundred of the second and third year students from various streams and the IT staff of the renowned Fr. Conceicao Rodrigues College of Engineering, stepped aside from their daily work today , and gathered in the Samvaad Auditorium at 1.30pm , to take part in a groundbreaking seminar on **Innovation in Entrepreneurship**, organized by the ITSA council of Fr.CRCE , at the suggestion of Prof. Garima Tripathi and under the guidance of Prof. Prajakta Dhamanskar.

The featured speaker was Mr. Devesh Chawla, the founder and CEO of Chatur Ideas, a startup enabling platform. Starting with the introduction, he enlightened the students with various difficulties faced while aiming to be an entrepreneur and how can one overcome those with certain rules and techniques. It was followed by a short inspirational video, based on being an entrepreneur of values, which struck a chord with the students and the staff both. The overall session was indeed very interactive as it was then followed by a question-answer round, where many students actively participated and got a step closer to chasing their dreams of being the young entrepreneurs in future.

Lastly, Mr. Devesh Chawla was presented with a token of appreciation for his kind gesture. Also, not only the professors from IT department but also some students got an advantage of the free copies of the motivational books on Entrepreneurship. Thus, with the courteous cooperation of the students and the teachers, the event concluded at 2.40 pm successfully.

Feedback Form

Chatur Ideas is one of India's leading start up-enabling platform. After acquiring Nurture Talent Academy (India's first Institute for Entrepreneurs present across 125+ cities and trained more than 34,000 entrepreneurs), Chatur Ideas is training young entrepreneurs across Institutes and providing them access to its vast ecosystem to enrich the entrepreneurship culture right from foundation level. Along with helping startups in colleges, it supports mature startups in raising funds, providing mentoring and assists them with a 360-degree execution support in building their ventures to the next level. Currently, we have more than 650 startups under our wings to which we have provided support in each of the above segments and access to our network comprising of almost 1500 Investors

COGNITIVE SKILLS, DESIGN THINKING and CRITICAL THINKING

ORGANIZED BY

ACM STUDENT CHAPTER FR. CRCE & MHRD-IIC FR. CRCE

STUDENT FEEDBACK

Date: 28/01/2019

Speaker: Mr.Yogesh Naik,
Assistant Consultant at TCS

Time: 10:30 am-12:30 pm

What participant has learnt from the session. Share your experience. (Max 500 words)

The session conducted by Mr Naik has helped us in understanding the importance of perspective and also given us an insight on a logical step by step process for the development of an idea that can be implemented as a user friendly consumer product. They helped us to understand the basic thinking process that goes into creative problem solving

Participant name: Kenneth Rebello Branch: IT Signature: K Rebello

STUDENT FEEDBACK

Date: 28/01/2019

Speaker: Mr.Yogesh Naik,
Assistant Consultant at TCS

Time: 10:30 am-12:30 pm

What participant has learnt from the session. Share your experience. (Max 500 words)

How to think creative was learnt from this session. There is no room for people who execute the idea but there is room for creative thinkers. The more out of box one thinks, the more demand he gets. Thinking from the users perspective and considering that the user is always right and if a problem exists, it is with the design of the device. Once you start thinking from users side, only then one can come up with a user friendly solution. Along with that involving the listners made the session very interactive. Good attempt overall.

Speaker: Mr.Yogesh Naik,
Assistant Consultant at TCS

Time: 10:30 am-12:30 pm

What participant has learnt from the session. Share your experience. (Max 500 words)

The ACM chapter of FR.CRCE brought Design Experts Yogesh Naik and Mustafa from TCS to explain the importance of design. Design of a product defines it uses and is essential for an effective use. If a user is unable to use a product it is not the user's fault but the fault is in the designer. To explain this, the speakers gave the example of steve Harvey. The speakers also conducted many interactive activities to cement the ideas they put forth. They also gave us a formula to follow when designing a product and this same formula is used in big innovative companies.

Dear Sir,

Thank you very much for delivering an informative and thought provoking lecture as guest speaker on "**Blockchain and its implementation**" held on 11th March 2019 for our Third Year B.E. Computer Engineering students.

It was a very splendid talk giving elaborate information on blockchain. All the students appreciated and gained a lot of benefit from your views on the topic.

Again thank you so much for your help. We greatly appreciate the assistance you have provided to our students.

Best regards,

(DR. SRIJA UNNIKRISHNAN)

Sub: Aptitude and IoT Training.

Rev. Fr.

Aptitude training is being conducted for final year students between 25-06-2018 and 30-06-2018 for six days.
IoT and CPAD Traing was conducted for three days starting from 18-06-2018.
These training were charged at actuals.
Here after for such trainings we will charge as per new guidelines.
Request your kind approval for these two trainings as already students have paid in college office at actuals.

Thanking you,
Sincerely yours

SUBJECT: LETTER OF APPRECIATION

Dear Sir,

We express our thanks for delivering session on "**Career Guidance**" organized for our Third Year Computer Engineering students on 27th February 2018.

Your expertise and your valuable guidance has encouraged and motivated the students. This session was memorable and rewarding.

We thank you for your efforts to make this session successful. We expect similar cooperation from you in future.

Thanking You,

Yours sincerely,

(DR. SRIJA UNNIKRISHNAN)

Dear Sir,

We express our thanks to you for delivering a lecture on '**Career Guidance**' organized for our Second and Third Year B.E. Computer Engineering students on 9th March, 2018 at our College.

Your expertise and your valuable guidance has encouraged and motivated the students. This session was memorable and rewarding.

We thank you for your efforts to make this session successful. We expect similar cooperation from you in future.

Yours faithfully,

(DR. SRIJA UNNIKRISHNAN)

FEEDBACK-FORM- RESOURCE PERSON

CLASS: T.E.

DATE: 09/03/2018

RESOURCE PERSON AND AFFILIATION- Mr. Leon D'Souza
Associate, BNP Paribas Prdtq. Solutions, Mumbai.

SUBJECT: TOPIC Career Guidance.

1. Will this session bridge the gap between industry and academia?
   Yes, certainly
2. Were the arrangements for the session satisfactory? If not, why?
   Excellent arrangements
3. Do you recommend more such sessions? If yes, how many and on what topics?
   Yes, need to know more about modern & Trending Technologies (students)
4. How was the class response?
   Very Good. Lots of doubts regarding future further studies & job interviews
5. Any other suggestions:
   Need to conduct few guidance sessions with students
